SEATTLE'S

Mighty growth the last ten years into one of the world's great cities is without a parallel. No one can now portray her resources or the continued prosperity that the years of the future will pour into her.

WORLD-RENOWNED HARBORS

And her scenic shore lines on lakes and sound. Never has the hand of nature been so lavish in her gifts as to make the

Worlds Last Great City.

Rome, on her seven hills, was as nothing to Seattle's snow-crowned Olympics on the north and west. Cascades on the east and south, and from those mighty bulwarks of health, energy, inspiration-giving, there arises the mighty Mount Rainier, a way above every competitor on the Pacific, reminding one of

SEATTLE, THE QUEEN CITY.

At the base, which, in another score of years, will pass in population every city on the Pacific, the world's largest ocean.

THE WASSOM ADDITION

Every lot in full view of Mount Rainier and Lake Washington; on railroad at depot; adjoining Ravenna Park; an electric railway as soon as can be completed to it; half dozen fine residences already under contract on addition; a \$25,000 female college to be opened September, 1890. Without doubt the

WASSOM'S ADDITION

Some of its Advantages:

Is the place where people of money, sense and refinement will make their homes, and why? Because the college, the mineral springs, Ravenna Park, the view of Mount Rainier, (which is grander here than anywhere else on Puget Sound) if for no other reason, would make it most desirable.

In Seattle a mighty city is building. Take hold of the best while you have a chance at at lowest prices.

TO THE PIONEER A WORD:

Why did you cross the plains? Why did you take your life and that of others in your hands and come to the Coast? What pen can write the history? You have conquered this land, made the growth of great cities imperative and the amassing of colossal fortunes, almost in a day, possible. Now, by the investment of a few thousand, or hundred dollars, you may reap the harvest that belongs to you. Will you do it? The greatest corporations, the ablest financiers of Europe and America are investing thousands, nay, millions, in Seattle. Will you not invest? Your chance is NOW. Seize it. I have a 60 acre tract, an 80 and two 40 acre tracts. Only a few left—cheap; ripe for plating, any one of which will make you a fortune in a short time. Buy quick. I can't duplicate them.

Rev. J. R. Kirkpatrick is among you and the sole agent for Wassom's Addition in Oregon. Call on him at once.

I will be in Albany in a few days and will remain only a day. I would be glad to meet you personally and urge you to join us in the material up-building of Seattle, the Queen City of the Pacific. When in Seattle be sure and call at room 348, Seattle Block, where I will take pleasure in showing you the city.

TAULBEE IS DEAD.

He Dies from the Shot Inflicted at the Capitol.

KINCAID IS UNDER ARREST.
Sensational Developments in the Trial of Miss Vincent for the Attempted Murder of Sir Louis Henry Isaacs.

The Herald's Special Dispatches.
WASHINGTON, March 11.—Ex-Congressman Preston Taulbee of Kentucky, who was shot in the head by Charles E. Kincaid correspondent of the Louisville Times, in the house within the capitol on the afternoon of February 28, died at 4:45 o'clock this morning at the Providence hospital. Taulbee had been unconscious some time before his death and the end was painless. An autopsy was held this afternoon when the ball was definitely located and the progress of the wound traced. Kincaid who had been out on bail was arrested a very short while after Taulbee's death and locked up to await the action of the coroner. Kincaid made no effort to escape while at liberty. He announced his intention to surrender to the authorities in case the shot resulted fatally.

MISS VINCENT'S ACQUITTAL.
Why She Attempted to Murder Lewis Henry Isaacs.

LONDON, March 11.—The trial of Elizabeth Vincent, at Richmond, on a charge of attempting to murder Lewis Henry Isaacs, member of commons, was begun to-day. Isaacs testified that the paper which he refused to sign, and which led to the shooting, was a document admitting that he had seduced the defendant by violence. He expressed the wish that the court would deal leniently with Miss Vincent, and the jury returned a verdict of not guilty.

A SHORT LINE TO EUROPE.
Our Canadian Neighbors Pushing Important Railroad Schemes.

QUEBEC, March 11.—In the local legislature yesterday afternoon a resolution was passed in favor of the construction of a railway from Quebec to St. Charles bay on the Labrador coast. This line would reduce the distance to Europe 1322 miles.

Destroying Mexican Indians.
YUMA, A. T., March 11.—Indian runners bring news of several murders along the Colorado river in Lower California among the Cocopal Indians. The old chief, Colorow, died three weeks since, and the new chief, believing a medicine man guilty of witchcraft, caused his murder. Thereupon his relative killed two of the slayers, and the new chief, with the balance of the tribe, assert that they will kill all of the medicine man's male relatives, including his son. Considerable excitement prevails among the Indians. The tribe live in Mexican territory a short distance below the international line.

Wholesale Slaughter Of Rats.
BURLINGTON, Iowa, March 11.—Rats come from Milton Iowa, that a big rat slaughter has been going on at that place for the last week. The rodents have been very prolific during the winter, and have destroyed much grain and provisions, corn-cribs and barns fairly swarming with them. The whole town has turned out and the people have killed nearly 5,000 rats.

SAMSON IN PETTICOATS.
A New York Woman Who Breaks Iron Bars With Her Fingers.

NEW YORK, March 11.—The keepers of the Raymond-street jail and Kings county penitentiary are telling stories of the phenomenal feats of strength of one Mary Martin, a prisoner at the latter institution. She was arrested a few days ago for tearing down a wooden barrier by the use of her hands only, while intoxicated. Four officers were required to make the arrest. In the police station she held the cell door bars with her hands, snapped in half iron handcuffs locked to her wrists, unsewed rusted iron nuts from the locks by using her bended fingers as a monkey wrench, and performed other remarkable feats.

She is four feet nine inches in height, weighs only ninety pounds, wears a No. 2 shoe and No. 5 glove. She says she can lift 800 pounds three feet from the ground and hold a barrel of flour over her head with ease.

THE DISSECTING KNIFE.
Story of a Man who was Buried and Taken From His Grave.

ST. LOUIS, March 11.—The local press is puzzled over the case of John J. Connor. It was asserted that he died, and that his body was taken to the morgue, where it was identified by his wife, who had him buried in Calvary Cemetery. A few days later it was said that O'Connor was alive, that his wife had been mistaken and that the man who was taken to the morgue was not her husband. It now leaks out that there is every reason

to believe that O'Connor was buried some time between the night of Monday, February 10, and the afternoon of Wednesday, O'Connor was seen Saturday night, and declared most emphatically that the grave in the cemetery is empty and he exhibited a cut which had been made half way across the abdomen. He is of the opinion that he was really buried and that his body was taken up and conveyed to a dissecting room while in a state of suspended animation, and that when the first incision was made it caused a flow of blood which restored him to consciousness. He says that he went to a lodging-house on Monday evening and that he knew nothing more until Wednesday night, when he found himself seated on the court house steps in a dazed condition, weak and sick.

THE FRENCH ATTACKED.
Repulsing A Native Force—France To Annex Dahomey.

PARIS, March 11.—A report has been received by the Government from the Governor of Senegal, confirming the rumor of a week ago of an encounter between the French and Dahomans. According to the latest dispatches, 800 of the King of Dahomey's troops attacked the French force, under Commandant Terrillon, at Atzebo. After a severe fight the French repulsed the natives, killing and wounding 100 of them.

It is reported that the Government intends to annex the Kingdom of Dahomey to the French possessions in Africa, and that a large expedition will be sent to the west coast. The expedition, it is said, will be under orders to act promptly upon its arrival, in order to avert the putting to death of many captives on the occasion of the King's accession to the throne it being the custom in Dahomey to sacrifice a large number of prisoners and Dahomans at all State and religious ceremonies.

UNDER A BURNING WRECK.
Three Lives Lost in a Railroad Disaster.

PITTSBURGH, March 11.—A dispatch from Mansfield, Ohio, says: "The Pittsburg, Fort Wayne and Chicago Railroad had the worst freight wreck at Lakeville it has had for years. Three trainmen and thousands of dollars' worth of property were consumed in the fire which followed.

The third section of westbound freight train No. 30 broke down a mile west of Lakeville and the fourth section of the same train crashed into the rear end. Immediately after the crash a tank car of gasoline in front of the caboose exploded and scattered the burning liquid over the debris, which took fire and burned fiercely. On the engine were Engineer John Cowan, Fireman Harvey Galehouse and the head brakeman Edward Miller. All of them received probably fatal injuries before the fire reached them, but when their bodies were found the fire had roasted them. Cowan and Miller were married and had two children each. They lived at Alliance. Galehouse was unmarried and lived at Doylestown. The oil from two other tank cars added fuel to the fire, which consumed twenty freight cars and the tieson about 500 feet of track. So intense was the fire that the steel rails were twisted out of shape and the bell on the engine was melted. The through passenger trains were sent over the 'Nypano' via this city, Creston and Orrville. The cause of the wreck was the failure of the dead engineer to stop when flagged by a brakeman from the disabled train. The supposition is that the three men were asleep on the engine.

THE RAILROADS.
The Canadian Pacific Will Reach Puget Sound by Fall.

SAN FRANCISCO, March 11.—Robert Kerr, general freight and passenger agent of the Western and Pacific divisions of the Canadian Pacific railway, has arrived here on his way to San Diego, to represent his road at a meeting of the transcontinental association called for next Saturday. Mr. Kerr says that the Canadian Pacific will probably build to the American border and reach the Puget Sound country by fall.

Brutal Captains of Oyster-Boats.
BALTIMORE, March 11.—More cruelties to oystermen have been reported the last few days than during all the rest of the winter. United States Commissioner Randall, at Annapolis, has issued warrants for the arrest of the captains of the schooners W. E. Bartlett and Ella Flaherty, for cruelty to T. J. Grace and Peter Gray, who say they were brutally treated by the captains and then put ashore poorly clothed and compelled to walk many miles to report their condition to the proper officials. Captain John Simmons, of the sloop Essex, will be tried next week in the United States Court for the almost inhuman treatment of his men. B. Thompson, the mate of the Essex, says he saw another poor fellow strapped to the deck and bucket after bucket of ice cold water poured over him. The crew were kept on short food allowance.

INDIAN DEPREDAATIONS.
Indians of Lower California Murdered by Each Other.

YUMA, Ariz., March 11.—Indian runners bring news of several murders along Colorado river in lower California among Cocopal Indians. Old Chief Colorow died three weeks ago and the new chief, believing a medicine man to be guilty of witchcraft, caused his murder. Thereupon his relative killed two of the slayers and the chief with the balance of the tribe asserts that they will kill all medicine men including the other medicine man's son. Considerable excitement prevails among Indians who believe that it will result in the death of many additional Cocopahs. This tribe lives in Mexico, a short distance below the international line.

A Big Fire.
CHICAGO, March 11.—The last night's fire in the big clothing house of S. E. Mayer & Co. gutted the entire establishment. Loss on stock \$300,000, the building cost \$200,000. Total insurance \$250,000. Dined and Wined.

DAY IN CONGRESS.

Florida Wants a Duty of \$1 Per Box on Oranges.

A SCENE IN THE SENATE.
Senator Mitchell's Measure to Amend the Constitution and Elect U. S. Senators by a Direct Vote.

SPECIAL TO THE HERALD.
WASHINGTON, March 11.—In the house, in pursuance to the agreement of Saturday, the public building bill passed the committee of whole and came up this morning with the previous question ordered.

IN THE SENATE.
The house amendment to the senate concurrent resolution instructing the senate and house committee on immigration to investigate the workings of the various laws on immigration was taken up. It adds to the scope of inquiry into the subject of the purchase of American industries by foreign capital. After some discussion the matter went over without action.

Among the petitions presented and referred was one from Florida asking for a duty of \$1 per box on foreign oranges.

Mitchell introduced a joint resolution proposing an amendment to the constitution providing for the election of senators by a direct vote.

Mr. Morrill offered a resolution which was agreed to, directing the secretary of the interior to report any information in his department in relation to the authorizing of a lottery company by the Indian territorial government in the Creek nation.

Hour called up a resolution reported by him yesterday for extension from record of certain sentences interpolated by the Call in the report of his remarks in his discussion with Chandler some weeks ago. In course of the remarks on the controversy which Daniel, of Virginia, used to impute the crime of murder to Eastis, of Louisiana. Daniel demands that the words of Edmunds be taken down and further proceedings of the senate were suspended to allow a reporter to write out the objectionable words.
