FOR A HOSPITAL.

The Proposition of the Ladies Aid Society.

WHAT IS BEING DONE.

They Will Establish A Public Hospital in Connection With the Proposed Orphan's Home.

For several months the citizens of Albany have been interested in the question of the establishment of a public hospital in this city. A proposition is now before the people from the Ladies Aid Society, which if met by the proper encouragement, seems likely to result in the erection of such an institution in connection with the proposed orphan's home. A few days ago the Herald published the following statement from the members of the society.

Will you please give us space in your paper to make a statement. There seems to be some of our citizens who do not understand that the Ladies Aid Society intend to build a hospital together with the orphan's home. They intend to make themselves thoroughly conversant with the plans and working of the best hospitals in the state, and if the citizens come forward and assist in this, as they have done in other enterprises, we will have a hospital equal to any in the state, one that Albany can be justly proud of.

Mrs. C. C. KELLY, Secretary.

Since the publication of the above, renewed interest has been taken in the proposition, as it was not thoroughly understood before that the proposed building would be for a hospital as well as a home for orphans.

The Ladies Aid Society is one of the oldest and most influential associations of the kind in this city, and what they do will be well done. The proposed institution is to be non-sectarian and will be conducted on as broad a scope as possible.

There is little doubt but that the subscription for the building will be raised, the site secured, and the hospital and orphan's home be erected during the summer. It will prove much-needed addition to the city, and should be met with prompt assistance.

Notice to Subscribers.

Hereafter the price of subscription for the Daily Herald will be 20 cents per week, instead of 15 cents. We believe there are few subscribers who will object to paying 5 cents more per week when they receive the news contained in the splendid Associated Press telegraph service. This is not an improvement made for a few weeks or months only, but will hereafter be a permanent feature of the Herald.

He will also enlarge his hardware department. He informs us that he buys all his goods for next cash, which will enable him to sell goods as low as any house in Oregon, and there is no need of people going abroad when they can do as well at home, or even better.

The Portland Branch.

Also house and lot for sale cheap in the best locality in Albany. The Portland Branch, F. Wise & Co., proprietors, S. E. Young's old stand.

Too Many Wives.

Frank J. Bell, alias Frank P. Bell, who was arrested at Oakland on a warrant from this city for polygamy, withdrew the plea of not guilty in the circuit court yesterday and entered a plea of guilty. He was then sentenced to one year's imprisonment in the penitentiary by Judge Boise. Bell while having a wife living in Southern Oregon, wooed and married Ellen Beard, of Tangent. He had deserted her, and was looking for a new victim when arrested. Such villains as he are better in the penitentiary than anywhere else.

Will Play To-Night.

John S. Lindsay and company will repeat the play, "Under the Gaslight," at the opera house this evening. The company has been reinforced by the addition of several new members, and the play, which is a most entertaining one, will doubtless be attended by a large audience. The price of admission to this special performance will be 25 cents to any part of the house for adults, and 15 cents for children.

Yaquina Harbor Appropriation.

Advices from Washington state that the committee on rivers and harbors are likely to cut down the appropriation for Oregon's rivers and harbors to 40 per cent. of the original estimates, which would make the appropriation for Yaquina harbor instead of \$75,000, a paltry \$30,000. However, recently from Washington at this office states that Yaquina will probably fare better than some other places and will receive a larger appropriation.

Contract Let.

A contract was let yesterday to D. C. Schell of this city to construct a \$3000 residence in Wasco's addition to Seattle for J. R. Kirkpatrick. It will be a duplicate of Mr. Schell's residence on Fourth and Calapooia streets.

Death of Daniel McCloud.

A man has started a new industry down the Columbia river near Walker's island. He has started in fishing for seals with a net having a mesh a foot square and made of coarse cotton cord. He is not catching many at present, as there are but few in the river, but he manages to get two or three a day. As the seals are very destructive to salmon, it would be a good thing if more would engage in fishing and so lessen the number.

Beaver correspondence of the Ochoo Review: Sheepmen have turned their backs loose and are just trying to keep the sheep together as best they can. I think half the number of the sheep will die, and half the cattle that were left on the range, also a great many horses will die.

A STRANGER'S VIEWS.

Some Timely Suggestions Concerning the Improvements and Growth of Albany.

To the Editor of the Herald.

I congratulate you most heartily and sincerely upon the creditable appearance of the first issue of the enlarged morning edition of the Herald. I say creditable, as it is not only a great credit to your enterprise, but a high compliment to the public spirit of the citizens of Albany and this portion of Oregon, as it demonstrates the fact that they truly realize what an important factor in the prosperity of a community a well conducted newspaper is. If such efforts are seconded by the business and wealthy men of the city and country, with the abundant resources at your doors, practically undeveloped, the future greatness of Albany as a commercial center is an assured fact. What I am at present a non-resident, the course pursued by your paper and your people generally is in pleasing contrast with that of other towns and communities of the coast which I have visited, where they have indulged in the modern American pastime of a boom, which inevitably results in bringing people to the scene of action only to be disappointed, and those who can will turn their backs upon the boomed district, and many have spent their all in reaching the promised land and cannot get away. But one and all curse the day that brought them there and the methods employed to bring it about. It is in Oregon you seem to rely completely upon your beautiful resources, and like a man selling a staple article at less than cost, you are willing for people to come and see for themselves, without the impetus of a boom. While I grant that your city is rapidly coming to the front as a trade and railroad center for the Willamette Valley, as is doubtless proven by the volume of business shown by the city banks, business houses and factories, and that her prominent residents have shown a very commendable spirit of enterprise and pluck in the past, yet a stranger who has time for observation sees much that should be done in the way of public improvements and inviting trade in order to retain and increase the city's present importance. For instance, your streets are in a horrible condition, your public buildings are a discredit to your otherwise thrifty city, and above all you have not a hotel building in keeping with the progress of the city, and with the class of people which your renewed efforts are sure to bring to your midst. Many towns on Puget Sound exhaust their vitality in fighting rivals; why? because there is not legitimate business enough to go round. No doubt many of the Willamette Valley towns regard themselves as your rivals, but it is certainly a mistaken idea, for all enjoy one common prosperity, and with a proper spirit manifested toward them, they will soon acknowledge the superiority of your advantages and deal with you, for we must acknowledge that business centers at the most advantageous points. It remains only for your Board of Trade to extend the hand of fellowship, when they will not long remain outside the fold but fall in line and join with you in the forward line to future greatness, for with a determined effort upon her part the superior advantages possessed by Albany over other points in the valley as a distributing center must be acknowledged by every one who will take the time to study her position.

It has been a source of much surprise to me during my stay here that your people have not seen the importance of a free bridge across the Willamette at this point. Its value is at once apparent to the most casual observer, for by it a most valuable addition to your business can be made by acquiring that of an important portion of a rich district which is now divided between several smaller places. Even the people who reside in other countries seem surprised that such an enterprise has not long since been started.

It is too often the case that a few, not all, of the old settlers, when approached about making improvements or to assist in the progress of his town, to say it has been good enough for him for the past quarter of a century and it is in his opinion good enough for those who have come later. He seems to lose sight of the fact that he is living in an age of rapid progress, and that in order to keep up with the procession of other cities he must divest himself of the views which he has now at the par 20 years ago, but are now at a ruinous discount, and unless he puts his shoulder to the wheel he is sure to be left in the mire of inaction. The only way to convert such men is to touch their pride, and that cannot be more easily or less dolefully done than through the medium of the newspaper. I hope you have none of these men among you, but if you have, show them the way out of their haunts of mossbackism, and bring them in to the bright sunshine of progress and development. By this means you will soon have a city which will be a compliment to the rich and providence-favored country in which she is surrounded and one in which a portion at least of the constantly increasing tide of westward immigration will be glad to come and make a home.

ALBANY, March 17, 1890.

Yaquina Bay Fishing Industry.

Yaquina Republican: There are three good salmon canneries on Yaquina bay, and the pack side well in the market. The deep sea fishing company will soon commence operations, and with it cold storage facilities will supply a demand that is practically unlimited. Yaquina bay will become the center for deep sea fishing without doubt.
