A long piece of pitchwood was found partly burned, it being too damp to burn readily, and other small split kindlings, everything shows the fire to have been of incendiary origin.

Mr. C. H. Brown, formerly of the Russ House, is now with the company, has all the elements of a good salesman and will no doubt get in some good work in the interest of the business. The Gap Nearly Closed. Manager Koehler and Superintendent Brandt, of the Southern Pacific, have left again for the south. It is possible they may arrange for a shorter transfer of passengers at the Cow Creek canyon, so that the company may again put through tickets on sale. Pullman service is again resumed between Portland and Myrtle creek as a great many wish to go to San Francisco overland. The gap in the canyon is now reduced to about a mile and a half, and every effort will be used to bring about as speedy a completion of the road as possible.

A Powerful Horse. James Elkins has bought the Galbraith Bros. Importing Company the imported shire horse Grover Reynard, a jet black with white strip in the face, he is a two-year-old and past, six months, fourth hand high and weighs 745 pounds, with an unusually good carriage, compactly built and well developed, and while showing great strength, moves with ease and activity. He was bred on the farm of James Mell, Yorkshire, England, and registered in the shire stud book 7379. He is certainly one among the finest large horses in the state and we are pleased to learn that he is to remain near Albany this season.

Open Temperance Meetings. A series of open temperance meetings, to be held in this city on the fourth Monday evening of each month, will commence on Monday evening next, March 24th. Rev. M. Naughty Students. Between thirty and forty students of both sexes were suspended from the Salem university Wednesday by President Van Scoy to await the action of the faculty. In the absence of Professor Arnold, who is sick, they were guilty of the great offence of romping in his room without permission. They will probably be reinstated upon proper apology to the faculty.

COMING TO OREGON.

How the Population of the State Is Increasing.

THE MIGRATION WESTWARD.

The Advent of Spring Increases the Rush—An Immense Immigration to Oregon Predicted for 1890.

The first weeks of spring, with the prevailing moderate and pleasant weather, have had the effect of starting the Eastern tourist, and every train from the East brings large numbers of the better classes of immigrants who, in most cases, come with capital and a determination to make for themselves and families amid the groves hills and plains of the "far West" a comfortable home.

Some of them come to pave the way, and locate claims for the establishment of colonies, which in a few months are to arrive, others are settlers with families and still others are timber men from Michigan, who have come out to locate claims, not for speculation, merely, but to use them for permanent homes.

Mr. L. P. W. Quimby, the veteran hotel man of Portland in an interview on the immigration question the other day said: There has been an unusually large number of timber men, mostly from Michigan, within the last few days, who have come out to see if they can't better their condition in a financial sense. The majority of them come in, register and leave for different parts of the state. Let me see (and Mr. Quimby glanced over the twenty-five or thirty men who were seated in the office, reading and smoking.) I can count seven men of families among this crowd who have come from Michigan, thinking this part of the country a good place for investment, and are looking for favorable claims.

As a rule, these men come pretty well supplied with money, and they have no hesitancy in putting it all in circulation. The presence of large numbers of these timber men here last fall was one of the principal causes of so much money being loose about that time.

"Yes, sir, I predict for Oregon this year and next, an immense immigration. Why, several days since there was a man from the timber districts of Michigan, who represented a colony handling \$2,000,000, and has returned to report favorably, so that we may have a very desirable number of families in a few weeks.

You see those two young fellows over there? Well, they just came in the other day with letters of recommendation from a man named L. Croft, who stopped here last year for a while. Those young fellows told me that Croft would soon arrive in Portland, with a party numbering sixty and would settle on land further south than has already been selected, and is now ready to file on."

Mr. Quimby says that it is almost unaccountable how some parts of the new state and Oregon are filling up with settlers.

Leg Broken. A little 12-year-old daughter of Morgan Henshaw, who resides a short distance east of this city, was riding a pony on Sunday afternoon, when in crossing a small bridge the structure broke, which caused the pony to run away. The girl was thrown off, but her foot hung in the stirrup and she was dragged some distance before the pony was stopped. The girl's leg was broken, but her injuries are not dangerous. The broken limb was set by Dr. J. P. Wallace, of this city.
