WEATHER INDICATIONS.

For Albany and vicinity—Following is the forecast for 24 hours, ending at 8 P. M. to-day: Fair; slightly warmer.

NOTINGS ABOUT TOWN.

Regular meeting of the city council to-night.

Albany Engine Co. No. 1 was out for drill last evening.

Trount are reported plentiful in the mountain streams.

Cell VanCleve and son Bert, of the Scio Press, are in the city.

A. B. Woodlin is erecting another neat cottage upon his property on the corner of Third and Broadalbin street.

Seats are being taken rapidly for the great Levy concert Friday evening. Every seat will probably be taken.

The Corvallis Board of Trade has ordered 20,000 pamphlets descriptive of Benton county placed in Eastern immigration centers.

The reopening of the Southern Pacific railroad will be welcomed by the people of Oregon. After two months of partial suspension of business on the road the public will appreciate the regular through service.

Albany should celebrate the approaching Fourth of July in a becoming manner. This city is big enough and rich enough to have a good celebration every year and her prosperity and growth would warrant her in doing so.

This ladies who are going to represent the different trades and professions of the city at the Merchants' Carnival are requested to meet at the G. A. R. hall at 7:30 p. m. this evening. By order of the committee.

J. P. Galbraith and N. P. Payne are mentioned as prominent candidates on the democratic ticket for the office of county clerk. E. E. Davis will probably be recommended for recorder. Republican candidates will look up seriously about convention time.

The Brownsville Times remarks: We believe a bridge at Albany would be a grand thing for that city and section of country across the river, but it would do the rest of the country but little good. Therefore, when a bridge is built, it should be done by Albany standing one third, Linn county one third and Benton county one-third of the expense.

"Keep off the grass," President Harrison said the other day to the Cherokee "boomers," who were making a raid on lands where they did not belong. Our dispatches this morning state that he has now issued a proclamation warning all seining poachers to keep out of the U. S. waters in the Behring sea. That is right. It needs a little backbone occasionally to maintain the dignity and supremacy of this country.

Fisk Jubilee Singers.

The Y. M. C. A. of this city has the pleasure to announce its engagement, under its auspices, of the world-famed Jubilee Singers, from Fisk University, Nashville, Tenn., for one of their inimitable concerts at the opera house on April 3. This is the original company that devoted over \$150,000 of its earnings to the building of Fisk University, the made two wonderfully successful tours abroad, the guests of kings and queens and prime ministers, and that sang by special request for President Grant, Hayes, Garfield and Arthur.

NOTICE TO PROHIBITIONISTS.

Prohibitionists and all who are interested in the cause of prohibition will meet at the voting places of the various precincts on March 25th and elect delegates to the county conference to meet at the court house in Albany on April 5th at one o'clock. J. E. Knox, Chairman of County Prohibition Central Committee.

The Handsomest Lady.

In Linn county, after making a careful inspection of Matthews & Washburn's stock of stoves and ranges and very closely examining their wares, says they have the most complete stock in the Willamette Valley, and at the lowest prices.

Good Apples.

The Willamette Packing Co. has just received a fine lot of apples. Call early and secure some of them before they are all gone. Fine country honey, clipped beef, horse-radish roots, etc., always on hand.

Owing to the change to be made in the shoe store of Krause & Klein, they will sell goods regardless of cost.

MAIL AND EXPRESS.

Regular Messengers Now Running on the Local Trains.

An improvement which the people of the Willamette Valley have long demanded, has at last been made. This is the placing of regular mail agents on the local trains running between Eugene and Portland.

Beginning Monday this service commenced, and will continue as a regular thing, mail being made up and distributed at all offices along the railroad, the same as on the through trains. That destined for points south of Eugene City will be made up by the agents on the local trains and thrown off at that city to be taken up by the through trains.

Chas. Piper, of Salem, and W. W. Wetzel, of Portland, will be the agents on these trains. Carl Abraham, on Roseburg, will be the helper, and will run between Portland and Jefferson.

Wells, Fargo & Co. have also put an express messenger between Portland and Eugene City.

Going to Gray's Harbor.

The Salem Statesman says: E. B. Piper, formerly city editor of the Statesman, and his brother, George U. Piper, have signed a contract to go to Gray's Harbor and run a paper for the syndicate that has guaranteed the Hunt road system \$200,000 to make its terminus there. "Ted" and George will be in Salem the first week in April on a visit, after which they will go to Gray's Harbor to start the paper. They will have a fine newspaper plant, and will no doubt make things boom up there. They have both been employed on the Seattle Post-Intelligencer.

Reaction of a Boom.

It is said that Los Angeles is prostrated from too much boom. A million dollar hotel is abandoned and left standing half finished. So with many other extravagant structures. Nopalynsis is so complete as a reaction from too great a boom. The outgoing tide of prosperity leaves the community stranded high and dry above all reach of a returning tide and the death of such a town is complete beyond any possible resuscitation. The safest way is the steady growth such as Albany is now enjoying. Public spirit, enterprise and industry, not an unnatural or spasmodic boom, is what is needed.

Business Change.

We take pleasure in recommending to the public the Misses Ball, late from Fremont, Ohio, who have purchased our entire stock of millinery and taken possession of the same. The Misses Ball are experienced milliners, having been employed in several retail houses as head trimmers, and Miss Emma Ball has trimmed in two wholesale houses in the East. We shall be pleased to see our old customers and new ones patronize the Misses Ball, who, we are confident, will please and give you a hearty welcome. We now retire from the millinery business, heartily thanking the ladies of Albany and vicinity for their very liberal patronage during our four years of business. E. & C. HOWARD.

The Santiam Mines.

Superintendent Early of the Galena Mining Co., accompanied by two miners, left this city yesterday for the mines in the Santiam district. They will go in on snow shoes from Gatesville, and will have to pass over thirty feet of snow. The coming season promises to be one of activity in the Santiam region. The Albany Mining and Milling Company expects to put in a quartz mill, and much extensive work will be done.

Astoria Posters.

In keeping both eyes on Astoria, do not forget that the property offered by the Oregon Land Company is no "job lot," to be sold off at auction, out good, sound property, in which the company have invested their own money. The new cable cars run to the corner of Ocean Park addition, making this very desirable property. There is also a steamboat landing and a railroad station adjacent to this addition. Parties who desire to make investments in the Ocean Park addition to Astoria will have to apply soon, as it is being closed out very rapidly and prices advancing.

Passed away.

The many friend of Mrs. Nancy Bixby Nee Nagan will be grieved to learn of her sudden death which occurred in Middleton, Idaho the 12th of Feb. Miss Hogan was united in marriage with Mr. Robert Bixby of Idaho in the fall of 1888, she removed to Idaho with her husband where they lived very happily until God chose to call her to her heavenly home. She was a true Christian and was loved by all who knew her for her sweet disposition and purity of mind. Sweet is the scene when virtue dies When sinks a righteous soul to rest. M. D. HOGAN.

CROP WEATHER BULLETIN

Following is the crop weather bulletin of the Oregon state weather bureau, co-operating with the U. S. Signal service, Central Office, Portland, Oregon. For the week ending Saturday, March 22d.

Weather.—The temperature and sunshine have been below the average; the rainfall about the average. The temperature has generally been above the freezing point. The weather has been partly cloudy to cloudy. The rainfall has been light but generally well distributed.

Soil.—The soil, except on uplands, is too wet for plowing, hence the spring seeding is retarded. The snowfall and the rains of the past winter have been such as to moisten the ground to a greater depth than has been known for years.

Crops.—The winter wheat crop is generally reported in good condition, but a few days of warmth and sunshine are much needed to give it a good start. Grass is growing finely and stock is recuperating from the effects of the short feed. Where soil operations can be pushed a large spring acreage is being prepared.

Fruit.—Fruit and ornamental trees and shrubbery are developing their buds, on the latter, leaves are beginning to show. Peach trees are in blossom in Lane county. The cold winter has injured the peach crop to some extent. Several weeks of fair weather and sunshine are needed to allow of spring work, the starting of the grain and the development of the buds of trees, etc.

On March 22d, 1889 apple and cherry trees were in full bloom, leaves on ornamental trees were out. Flowers were blooming and many varieties of vegetables were in the market in many parts of the state. B. S. PAGE.
