The interest on \$75,000 five per cent bonds is \$3750 per annum, which is insignificant compared to the public improvements that will be effected by the policy proposed.

She can be found at the St. Charles until she can make suitable arrangements for a home, as she wishes to locate permanently.

A Mere Difference of Opinion.

The Oregonian says that the people of Prineville are anxious to secure connection with The Dalles. The Prineville people themselves say that they want railroad connection with Albany via the Oregon Pacific, which road will be pushed across Eastern Oregon this summer. In view of the fact that the entire distance to support is almost as short via Albany as a road would be from Prineville to The Dalles, it is no wonder that the people of Eastern Oregon are looking toward this city as the future outlet for their shipping.

The Mines of Oregon.

The Astor in Columbia says the Oregon gold and silver will soon become well known in the mines and jewelry factories of the country. Our mines are hardly touched as yet, and untold riches will be extracted from them within the next decade.

THE CENSUS.

The Numbering of The People to be Made on June 2d.

The preliminary work of taking the census of our country is already accomplished and the superintendent Robert P. Porter, with his army of clerks in Washington, D. C., are ready to codify the work of the immense army of enumerators who will take the field in June.

The enumerator is to start out on his inquiry on June 2. If he is to work in a city of more than 10,000 inhabitants, he must finish his canvass in two weeks. If he has a country sub-division, he will not be called upon for a return until the end of the month. The list of questions drawn up for him is given below. With this he must go to each family and, if possible get answers from each member of it to all the questions which fit the case. The first list sent out for the use of the enumerators contemplated the securing of information on these general points: Name, age, sex, race, color, birth and residence, citizenship, occupation, education, health and family ties. These are all questions more or less of social statistics, such as have been asked in almost every census, and answers to them ought to be easily obtainable. Less success may be expected with the last few questions, which are politico-economic in character. They try to draw on some information on a subject beset with difficulties—the relative proportion of owners and lessees of houses and farms, and the amount of incumbrances on farms and homes occupied by their owners. There seemed to be a widespread demand, however, for such information on these questions as could be got through the census-taker, and Congress at this session amended the census law so as to require the collection of statistics about homes and farms. Most of the prospective victims of the inquisitive gatherer will have to go through. Here is the list of questions.

1. Give Christian name in full, and initial or middle name, surname. 2. Whether a soldier, sailor or marine during the Civil War (United States or Confederate) or widow of such person. 3. Relationship to head of family. 4. Whether white or black, mulatto, quadroon, octoroon, Chinese, Japanese or Indian. 5. Sex. 6. Age at nearest birthday. If under one year give age in months. 7. Whether single, married, widowed or divorced. 8. Whether married during the census year, June 1, 1888, to May 31, 1890. 9. Mother of how many children and number of those children living. 10. Place of birth. 11. Place of birth of father. 12. Place of birth of mother. 13. Number of years in the United States. 14. Whether naturalized. 15. Whether naturalization papers have been taken out. 16. Profession, trade or occupation. 17. Months unemployed during the census year, June 1, 1888, to May 31, 1890. 18. Attendance at school in months during the census year (June 1, 1879, to May 31, 1890). 19. Able to read. 20. Able to write. 21. Able to speak English. If not, the language or dialect spoken. 22. Whether suffering from acute disease with name of disease and length of time afflicted. 23. Whether defective in mind, sight, hearing or speech, or whether crippled, maimed or deformed, with name of defect. 24. Whether a prisoner, convict, homeless child, or pauper. 25 and 26. Is the home you live in hired, or is it owned by the head or by a member of the family? 27. If owned by head or member of family, is the home free from mortgage incumbrance? 28. If the head of the family is a farmer, is the farm, which he cultivates hired, or is it owned by him or by all members of his family? 29. If the home or farm is owned by head or member of family, and mortgaged, give the position and address of owner. 30. Many of the questions, it will be seen, are not intended to be put to all the members of the family visited. From their general scope they are likely to furnish the Bureau with all the information that is needed in the treatment of population and social statistics. With the exception of the questions about mortgages, the entire list will be pronounced inoffensive. Possibly the few spinsters of uncertain age and the unlucky "grass" widows, who fall under the enumerator's cross-fire may regard the sixth and seventh questions as inquisitorial. But there is no law to compel such witnesses to make admissions damaging to themselves.

The work of the special agents who collect statistics of manufactures is not to be limited to the mouth of June and the facts they gather will not be put into shape until after the tables of population are completed. It may be added that Mr. Porter hopes to have a rough estimate of the population of the various states and territories ready early in August. He will complete the tables needed for the reapportionment of representatives in congress in time for use at the short session.

Affairs in the Okanogan.

East Oregonian.

H. A. Burroughs has received a letter from Doc Houser, dated at Pine Creek, Wash., February 1, which gives a gloomy report of affairs in that section. The writer states that the band of 700 cattle belonging to Houser & Black are nearly all dead, and there is little hope of saving those that remain. Every chinook is followed by a snowstorm, the snow at date of writing being three feet deep. In some places it is drifted to a depth of ten feet. They have been feeding the cattle on brush in faint hope of keeping them alive. Their saddle horses are poor and weak, and Doc observes with grim humor that he may soon tramp into Pendleton with his blankets on his back, looking for a job. He has made him a pair of castanets and sings and whistles to keep away the blues. A man who had charge of the stage stock was frozen to death on the reservation. He had started out to rustle feed, got lost in a blizzard and sank into the snow to sleep his last sleep. The two stage horses were left in the barn without feed, and froze and starved together. There is little or no communication with the outside world.
