We will have a meeting of the board of directors of the Southern Pacific company on Monday in this city."

On being questioned as to his Congo railway and other African schemes, he replied: "I have not been interested in Congo, and have invested no money there, reports to the contrary notwithstanding."

After the meeting of the railroad directors Tuesday he will inspect certain portions of the Southern Pacific roads.

AN ATTORNEY IMPRISONED.

Adjudged Guilty of Contempt of Court in Portland.

PORTLAND, April 7.—James Gleason an attorney was to-day adjudged guilty of contempt of court and sentenced by Judge Shattuck to be confined in the county jail until he consented to answer certain questions before court. The contempt of which he is alleged to be guilty consists of his refusal to obey an order made by Judge Shattuck requiring him to answer two questions before referee Muir, namely: What money or other property belonging to J. Bigne he had in his possession on the 19th day of February, 1889, and what disposition he made of it.

Gleason declined to obey the order of the court on the ground that he would not be acting in good faith towards his client Bigne. Gleason moved for two days stay of proceedings in order to prepare an appeal from the decision which was granted on his filing bonds in $250.

DRIVEN TO THE WALL.

A Well Known Broker of St. Louis in Financial Trouble.

ST. LOUIS, April 7.—Moze Fraly, a well known broker, is again in financial trouble. Fraly has been a strong bull, and a firm believer in higher prices, but as the market did not go his way he suddenly turned bearish. The market has been going against him, and culminated to-day in advance of two cents. The news of his failure caused considerable excitement. The margins to-day run on him to almost $210,000. This was more than he can stand. He is short, however, at least 2,000,000 bushels in transactions in futures. It is expected he will settle at about 79 cents.

Prophetstown is in Whitesides county, and has a population of 1300.

POSSIBLY NOT SO SERIOUS.

BURLINGTON, April 7.—The first report obtained through the rail road people, was that a stock train was just leaving the town when the storm struck it and that 40 cars of stock were blown away. Reports also stated that the town was destroyed. It seems doubtful if the report can be verified to-night. The railroad people now think the situation is not so serious as has been reported.

VOTE ON THE PENSION BILL.

Opposition to the Enumeration of Chinese in the Census—Legislation for Washington.

WASHINGTON, April 7.—The president has approved an act to provide for times and places to hold the terms of the United States courts in the state of Washington, and an act to enable the secretary of the treasury to gather full and authentic information in regard to the Alaska seal fisheries.

The secretary of the treasury today appointed H. W. Elliott special agent of the treasury with a compensation of $10 per diem, to obtain full and authentic information in regard to the Alaska fishing interests.

The house committee on railways and canals ordered a favorable bill, providing for the construction by the United States of a ship canal around the Niagara Falls. A million dollars has been appropriated to begin the work. The total cost is to be $23,600,000.

The house committee on pensions ordered a favorable report on the bill granting a pension to Mrs. D. Parnell, mother of C. H. Parnell. It originally provided for $100 per month, but was amended to $50.

Morrell, of Kansas, moved to suspend the rules and pass with a substitute the senate bill granting soldiers and sailors incapacitated from performing labor, and providing for pensions to widows and minor children and dependent parents. Morrell explained that the substitute provided for a service pension of $8 a month to soldiers who had reached the age of 62, or who are dependent. In answer to a question he stated that the estimated senate bill will require an annual expenditure of $36,000,000, and with the house substitutes, $39,000,000. After a debate the house refused to suspend the rules and pass the senate pension bill with the house substitutes. Yeas, 169; nays, 87. It was necessary to have a two-thirds vote in the affirmative.

The service pension bill introduced to-day in the house by Bootham, provides as follows: It grants a service pension of 1 cent per month for each day of service to every man who served in the war without regard to age, and provides that these soldiers who now receive disability pensions may, if they choose, relinquish their disability pensions and accept the service pensions. The widows of those drawing service pensions are placed on the roll at $8 per month during the widow's life. The bill grants a pension of $3 per month to minor children under 16 of soldiers who died while drawing a pension.

IN THE SENATE.

In the senate Evarts presented a resolution from the New York chamber of commerce, protesting against the bill in regard to the census enumeration of Chinese as absurd, barbarous and cowardly, and a memorial on the same subject from the American missionary association was presented.

In the senate to-day Senator Squire, of the new state of Washington, introduced a petition from 450 citizens of Fairhaven, setting forth the commercial advantages and growth of that city and praying for legislation in making Fairhaven a port of entry.

He also introduced a memorial of the state legislature concerning the navigability of the Columbia river for 700 miles, and urging an appropriation for the completion of the great work at the Cascade Locks, and for improvements to Priest, Cabinet and Rock rapids.

He also introduced a bill to provide the state of Washington with a battery of light artillery, and authorizing the secretary of war to make details accordingly.

The senate committee on territories to-day favorably reported a bill to reimburse the state of Washington for the expenses of the constitutional convention of July, 1889, with an amendment appropriating $6076 instead of the $16,000 asked for in the original bill.

The Montana election cases were then taken up, and after speeches by Vance, Spooner and others, the senate then adjourned.

WILL CLOSE ITS DOORS.

The Equitable Bank of New York Notifies Its Depositors.

NEW YORK, April 7.—The directors of the Equitable bank have decided to close its doors. One of the directors claims that of late the bank has been losing money. The depositors have been notified to withdraw their money.

IMPORTANT LAND RULING.

A Land Officer Dismissed for Neglect of Duty.

WASHINGTON, April 7.—Secretary Noble rendered an opinion to-day on the board appointed by Commissioner Graff, of the general land office, to examine into the facts and circumstances concerning the issue to Thomas Reed of a patent to 112 acres of land, said to contain valuable mineral deposits, in Duluth, Minnesota, land district.

The investigation was based on the fact that at the time the patent was issued the question of the title to the land was pending before the department.

The secretary concludes that W. B. Douglass, the general land office clerk, who approved the entry for the patent, neglected his duty and must be dismissed from the service of the United States; that the recorder of the general land office, James M. Townsend, in conducting this business violated a strict rule that should have controlled him. He therefore orders the patent to be impounded by the commissioner general's office as the property of the United States.

Strike in Chicago.

CHICAGO, April 7.—A carpenters' strike took place this morning according to programme. It is estimated that between five and six thousand men are out. Carpenter work on nearly all the large buildings is brought to a standstill. The strike is for 8 hours as a days work. To-night it is estimated that about 7000 men are out. In some some places brick layers went out also, out of sympathy. Nearly all the other building trades will have to stop work soon unless the carpenter strike is settled. Some contractors, wishing to complete work on hand, have offered to accept the terms, but they are after the builders association and refused to let them go to work unless that body recognized the union.

The Oldest Engineer Dead.

BALTIMORE, April 7.—Wm. Galloway, who ran the first locomotive on the Baltimore & Ohio road, is dead. He was probably the oldest engineer in the world. At the time of his death he was 87 years old.

The Billiard Tournament.

CANADA'S DEMANDS.

CONCERNING THE BEHRING SEA CONTROVERSY.

Conditions Which the Canadians Are Willing to Accept—Firearms to Be Excluded.

NEW YORK, April 7.—The Telegram to-day prints a special from Ottowa with reference to the Behring Sea controversy:

A correspondent says he is semi-officially informed that the Canadian government is willing to accept the following conditions:

First—The isolation of Seal Islands by the exclusion of all sealing vessels and pelagic sealing within the limits of a belt twenty-five miles in width, more or less, drawn around the Seal Island group.

Second—Absolute prohibition of sealing in Behring Sea, or in passes leading thereto, between well defined dates, when the breeding of seals annually occurs, and to retire from the breeding grounds.

Third—Prohibition of the use of firearms in Behring Sea sealing operations.

Attempted Riot in Peru.

LIMA, Peru, April 7.—Senor Piriola, ex-dictator, finding that he stood no chance of winning in the presidential election, attempted to stir up a riot. He was promptly committed to prison by the government.

Kemp and McLean Will Race.

SYDNEY, April 7.—Kemp to-day accepted McLean's challenge to row a race on the Paramatta river.

Left for Brussels.

CAIRO, April 7.—Stanley left to-day for Brussels.

NEEDS MORE MONEY.

The Duchess of Marlborough Comes Home for Funds.

A New York dispatch says that the Duchess of Marlborough has come to New York for the purpose of inducing the trustees under the will of her first husband to sell some real estate which is yielding no revenue, and reinvest the proceeds of such sale so that her present income may be increased.

The Duchess simply has a life interest in the property left by her first husband. Her income from the estate is stated to be over $125,000 a year. Out of this taxes on other real estate has to be paid, and various other expenses, so that her entire income is $100,000, or perhaps even less.

If the duchess is able to make the rearrangement she desires and the $2,000,000 arising from the real estate sales are well invested, she expects that about $75,000 a year will be added to her present income.

As she will be relieved at the same time from the necessity of paying taxes upon unproductive property, her aggregate income will reach nearly $200,000.

THEY GO DEMOCRATIC

Sweeping Democratic Victories in Eastern Cities.

WOMEN AT THE POLLS.

The City Council a Tie in Helena Montana—The Democrats Successful in Indiana and Ohio.

HELENA, Mont., April 7.—In the municipal election to-day Bradford, democrat, was elected mayor. The city council stands seven republicans and seven democrats.

IN INDIANA.

INDIANAPOLIS, April 7.—In the township election to-day the democrats were successful. They also swept everything at Fort Wayne. At Evansville they elected a majority of the councilmen and city and probably the entire township ticket.

IN OHIO.

CLEVELAND, April 7.—In the municipal election to-day the democrats elected the municipal ticket, composed of committeemen, various boards and justice of the peace. The republicans elected 22 of the 40 aldermen. The board of education is a tie. The city government is still in the hands of the republicans except two departments.

THE WOMEN ELECT IN KANSAS.

EDGERTON, Kansas, April 7.—After one of the most hotly contested campaigns ever known here, the women's ticket was elected as follows: Mayor, Mrs. W. H. Kelly; police judge, Mrs. T. Greer; council, Mrs. S. Ewarts, Mrs. Stellart, Mrs. Holden, Mrs. Nat Ross and Mrs. Brown.

AGAIN THE DEMOCRATS WIN.

COLUMBUS, Ohio, April 7.—The Columbus city election was quiet. Not more than 60 per cent of the vote was polled. The democrats elected the entire ticket and have secured substantially the council.

WOMEN TAKE A HAND.

KANSAS CITY, April 7.—Municipal elections were held in this state in cities of the 4th class. Reports from several indicate that the women cast about two-fifths of the vote.

REPUBLICANS WIN IN MICHIGAN.

DETROIT, April 7.—City elections were held in this state to-day. In many instances the issues were of a purely local nature. The larger places, Kalamazoo, Ypsilanti, Marshall, Munroe and Hillsdale, went republican, while Lansing, Grand Rapids, Jackson and Muskegon, have gone almost solidly democratic.

CINCINNATI GOES DEMOCRATIC.

CINCINNATI, April 7.—In the municipal elections the republicans at midnight seem to have a majority of one in the board of education and two in the board of councilmen, both of which were heretofore overwhelmingly republican. The democrats elected all the other officers, except clerk of the police court.

CROP WEATHER BULLETIN.

Following is the crop weather Bulletin No. 4 of the Oregon Weather Bureau, co-perating with U. S. Signal service central office Portland and Oregon, for the week ending Saturday April 5th, 1890.

Weather—The temperature has been higher, but yet below the average for this period of the year. The rainfall was in light showers and well distributed. Snow fell in Wasco, Sherman, Gilliam, Morrow, Grant, Crook, and counties to the south on March, 30th, but generally disappeared the same day. Snow also fell on the higher elevations of western Oregon on the 30th. The amount of sunshine has increased, but is yet less than is usual the fore part of April.

Wheat—The most encouraging reports as to the appearance and prospects of the winter wheat crop are received. But little of it was frozen out. Some spring sown wheat is already up and is promising in appearance.

Fruit—Trees are backward in budding and blossoming through Benton Co., blossoms are plentiful Wasco Co. along or near the river, has also blossoms on peach, pear and cherry trees. The peach were generally slightly by the hard winter, but other fruit and berries promise bountiful yields. Warmer weather, and more sunshine is needed to develop the fruit blossoms.

Grass.—The grass is growing finely in all parts of the state, but like other growing vegetation needs warm sunshine.

Soil—The soil continues to be so wet, especially on low and bottom lands, as to regard working it. Plowing and seeding are being rapidly rushed when possible. The wet soil will necessitate much summer fallowing. The stock is rapidly recovering from the effects of the severe winter. Though a late season, yet tha prospects for excellent crops were never better.
