DOOMED CITIES. Hegira People From Their Destruction. OAKLAND, Cal., April 8.—The excitement among the followers of Mrs. Woodworth and other prophets etc. of the destruction of San Francisco and Oakland, grows more intense as the time named in the visions for the catastrophe draws near. According to the prophets yesterday was the last day to escape from the two cities, as the railroads should now be crippled so that no more trains can go out, so the believers made a rush to get away by last night's trains. This morning many Oakland families found themselves without breakfast, many of the cooks and servant girls having gone to the mountains.

The storm went west leaving a track about half a mile wide from the eastern limits of the city quite a long distance in the country.

The umbrella factory of Sprague & French, in which about thirty young women were employed was partially demolished. Many of the girls escaped, others were caught. Dora Palmer aged 17, received fatal injuries. A number of others were seriously hurt.

HEATHEN CHINEE. How the Wily Mongol Comes and Goes. GIGANTIC THEATRICAL TRUST. Constitution for Brazil—Finance on Wall Street—The Iowa Legislature Adopts Reform Bill.

WASHINGTON, April 8.—Secretary Windom, in response to a Senate resolution, to-day transmitted a tabulated statement showing the number of arrivals and departures of Chinese at San Francisco annually since August 1882. The annual arrivals ranged from 411, to 14,000, and the departures from 11,000 to 16,000. In 1889, after the passage of the exclusion act, 836 arrived and 3672 departed.

Secretary Windom says in respect to extensions of the law for the exclusion of Chinese laborers, that violation appears to consist mainly in the use of fraudulent certificates and smuggling across the northern frontier of laborers.

THEATRICAL TRUST. It is Likely Absorb the Whole Country. NEW YORK, April 8.—For some time past an effort has been made by theatrical men in this city and the West to form a gigantic theatrical trust that will take in all the principal theatres in all the big cities in the country. The trust soon took in two theatres in San Francisco, one each in Chicago, Kansas City, Los Angeles, Seattle and Tacoma. Yesterday the opera house of Denver, and the opera houses in Leadville, Pueblo and Salt Lake were added to the trust.

BRASIL ON POPULAR LIBERTY. It is Pushing Out for the Fall Measure. RIO JANEIRO, April 8.—The provisional government having decreed that all the great and popular measures so long demanded by the people, the abolition of slavery, the separation of church and state, freedom of the press, liberty of worship, secularization of public cemeteries, naturalization of foreigners, etc., is now trying to avoid the danger and inconvenience that may attend the adoption of a constitution. The men now at the head of affairs have nominated a number of well-known specialists to form a committee, which is to be presented to the constituent's assembly. The work of registering voters is being pushed rapidly.

The framers hope to present a constitution as much like the American constitution as is consistent with the character of the Brazilian people. It will then be submitted to a vote of the people. The constitution, which is partly finished, declares the fatherland one and indivisible. The republic is composed of states, federal districts, provinces and territories. The government is representative and federal and republican. Each state shall be governed by its own laws, and the federal government shall interfere only for the purpose of guaranteeing a republican form of government.

THE LOWER HOUSE PASSES THE AUSTRALIAN LAW. DES MOINES, April 8.—The house to-day passed the Australian ballot reform bill.

FAILURE AND STORAGE. NEW YORK, April 8.—The shortage and failure yesterday of G. K. Sistrer & Sons, brokers, is still the sensation of Wall street. H. S. Bennett counsel for the assignee says no one can yet tell the amount of shortage and that the deficit by Hilzer would amount to \$900,000.

DAMAGES ALL REPAIRED. SAN FRANCISCO, April 8.—General Superintendent Fillmore of the S. P. R. has arrived in this city having spent several days in a general inspection of the road through the state. He says that all the damage to the road by heavy rains during the past winter has been repaired. The grain is showing up beautifully through the San Joaquin valley, in fact it may be predicted with a degree of accuracy that this season will surpass many previous ones that have been thought good. Fruit bids fair to be an excellent crop.

STILL IMPROVING. WASHINGTON, April 28.—While Representative Randall's condition was serious for many months, he has been worse during the last two or three days and in a critical state, his mind at times being clouded. This morning he began to rally and improved during the day. He was said to be better at 11 o'clock to-night.

SPECIAL PLACE FOR STANFORD. SAN FRANCISCO, April 8.—It was learned to-day that while Senator

Stanford will retire from the Southern Pacific company he will by no means retire to insignificance as simple director. An office of prestige will be specially created for him.

PLANS OF SOUTHERN PACIFIC. Will Not Cross the Columbia River. SAN FRANCISCO, April 8.—"No, I don't think we will go across the Columbia," said C. P. Huntington, when asked about the future of the Southern Pacific company's intentions in the Pacific Northwest. "We will not build to the Sound if the other roads treat us fairly."

"You refer to the traffic arrangements, I suppose." "Yes, sir." Commenting on Huntington's view, the Chronicle will say: "It is understood that the Southern Pacific company is negotiating with the Northern Pacific company for a new traffic arrangement between Portland and Puget Sound, as well as for the coal lands. The Southern P. Co. is also trying for the privilege of running its trains through to Tacoma over the Northern Pacific track from Portland. It is expected the arrangement will be in operation in a few weeks. The Southern Pacific company will then run trains from San Francisco to Tacoma without change. It is anticipated that the Northern Pacific company will more than track its line between Portland and Tacoma. If the arrangement should be perfected the Southern Pacific company will this year devote a great deal of money to improving its lines in Oregon and building short new ones."

DUELING STILL IN VOGUE. WASHINGTON, April 8.—It is probable that a duel will be fought between Congressman Phelan, of Maryland, and Fleming, editor of the Knoxville Sentinel. It seems that in answering to some criticisms of Fleming on the Phelan school history he said they were due to pique, because Fleming had not been given advance copy. This Fleming denied, and Phelan wrote an apology to Fleming's paper. Fleming refused to accept the apology, and in a letter to the Commercial he said Phelan had practiced deception from the first. Phelan has sent the following message to Fleming: "J. M. Fleming—When I wrote from Aiken I had not seen your letter to the Memphis paper. You are a liar, a scoundrel and a coward. Will await your message here or come to Knoxville to arrange preliminaries." [Signed] J. PHELAN.

THE DAY-IN CONGRESS

The House Passes the Indemnity Land Bill. MONTANA CONTESTED CASES. More Cruisers Ordered—Randall is Better. Cincinnati gives 30,000 Democratic Majority.

WASHINGTON, April 28.—The house bill passed, providing that persons settling on second indemnity plat of the Northern Pacific grant between August, 1887, and January, 1889, may transfer their entry to other land subject to entry. Bill passed granting the right of way through the Golvile Indian reservation to the Spokane and Northern Pacific railroad; also a bill to prevent enlistment of aliens in the navy. A motion to reconsider the bill making an appropriation to supply the deficit caused by Silecut, was carried and the bill passed. The house then went into committee of the whole on the naval appropriation bill.

The house committee on elections to-day appointed a sub-committee to visit Arkansas and collect testimony relative to the contested election case of Clayton vs. Dreckerbridge, from the Second district, and the alleged assassination of Clayton.

The house committee on agriculture reported to the house, with amendment, the Butterworth bill to define options, and impose a special tax on dealers therein. In their report the committee says the bill in terms, does, and is intended to, apply to that class of transactions conducted in the bucket shops and grain pits of the country, known as puts and calls, including the whole range of mere speculative gambling in infectious farm products. It does not affect injuriously any legitimate dealer in farm staples.

SENATE. The senate resumed consideration of the Montana contested election cases. Spooner continued his argument in favor of the right of the Republican claimants, Sanders and Powers. Voorhees had read a telegram from Helena, Mont., stating that the Democrats elected Mayer by 30 majority, and the Republicans (who usually had a majority of from 400 to 600) carried only one ward.

The senate then took up the anti-trust bill as reported from the judiciary committee, and after some debate it passed. The vote stood 72 to 1.

Among the bills reported and placed upon the calendar was senate bill for a commission to determine the northern boundary of the Warm Springs Indian reservation. The senate then adjourned.

DEMOCRATIC MAJORITIES. CINCINNATI, April 8.—In yesterday's city election S. F. Hunt, democrat, for superior court judge, received 30,000 majority, and other democrats were elected. The council has a republican majority of two, and the board of education of six.

NICHAGUA CANAL. How The Work is Being Done and The Prospects Advanced. Edward Stubbert, chief surgeon of the Nicaragua Canal company, arrived in New York on Wednesday. He says that although he has been in nearly every climate in the world, there is none which he would prefer to that of Nicaragua. The thermometer ranges, he says, from 70 to 90 degrees the year around, and, in fact, seldom reaches these extremes. The formal opening of actual work on the canal was begun in the latter part of October of last year, and since last August there have been on an average 800 men at work on the canal. The death rate during that time has been only one person every six weeks. The diseases from which the men suffer are chiefly mild forms of tropical fevers, and Dr. Stubbert says that the death rate has only been one man out of every 219 cases in the hospitals. None of those who went from the United States have been fatally attacked by fever.

Work on the east end of the canal is well under way. The breakwater at Greytown already extends 502 feet into the sea, and is advancing at the rate of ten feet a day. When it reaches the extent of 1800 feet it will furnish protection for ships drawing fourteen feet of water. Dredging of the inner harbor will be begun on April 15th. A telegraph line has been built from Greytown to Castillo, which is on top of the divide between Lake Nicaragua and the sea. A railroad has already been surveyed between these two places, a distance of about seventeen miles, and the work of construction has been begun.

The entire line of the canal has been cleared of timber, and before the end of this month, there will be 2500 men at work on the actual construction of the canal. It is expected that Admiral Gherardi will start with the Dolphin, Keersarge, Galena and Yantic from Key West on April 15th for Greytown to inspect the canal.
