Morning Daily Herald

SPECIAL, 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city. The stoves we offer were not bought as an experiment but as a certainty. We know what each stove will do, and they were bought for cash, so the price is right. We have specialties in heaters, beside our regular lines of Garland, Argand and Superior stoves and ranges.

Mark Drum, advance agent of the Caroline Gage Company, was in the city yesterday. This excellent company will be in this city in about ten days and play for a week. The company made a great hit in Portland in Mr. Barnes of New York.

E. G. Beardsley returned from a trip to Vancouver last evening. He was in Portland when W. G. Bradley, who was recently in his employ in the real estate business in this city, committed suicide, an account of which is given in our dispatches this morning.

Ask your grocer for the "Columbia" flour, the best brand in the market. This extra fine quality of flour is manufactured by the Jefferson Flouring Mills Co., at Jefferson, Or. The mill has recently been refitted and supplied with all the latest and most improved machinery. Ask for the "Columbia" and take no other. Every sack warranted.

At Her Old Tricks.

Mrs. Miller, an aged woman who recently made a spectacle of herself in this city while intoxicated, and who was sent to the hospital in Portland at the county's expense, returned on last night's train. She claims to be looking for a relative, supposed to live near Lebanon. She had not been in the city half an hour until she was picked up drunk on the sidewalk and was lodged in the city jail.

New embroideries, flouncing, lace flouncing in cotton and silk, black and cream. Laces in imitation point, also new designs in black and white lace, including Vandyck and Eiffel Tower. New ruchings. Samuel E. Young.

ALBANY'S GROWTH.

The Record for 1890 Will Be a Healthy Showing for the City.

Enterprises are already on foot in this city which will contribute to make the season of 1890 one of marked activity and growth.

The Albany & Astoria Railway, it is generally understood, will be in the field early during the summer with 1000 men constructing the line from Albany to Astoria. Their plant is already purchased for this purpose, and the surveyors to make the permanent location of the road, are to be in the field within a few days.

The Oregon Pacific Co., is only waiting for the snow to disappear in the mountains, when they will push the road across into Eastern Oregon and on to an eastern connection.

The city government has taken the matter of public improvements in hand, and in accordance with the recent vote of the citizens will expend $75,000 in public improvements, the city to be bonded for this amount. These improvements will be a three story city hall, the completion of the city's sewerage system and the construction of a free wagon bridge across the Willamette river.

All these undertakings will be followed up by undertakings of a private nature which will add wonderfully to the material growth and prosperity of the city. The street railway company is arranging to build not less than four or five miles of new track this summer and will make the road a motor line.

Several fine brick blocks and hundreds of residences will show a healthy record in building for the season. Many of these are already under way. There is a healthy movement in real estate, and all lines of business are prosperous, as they should be with the city's steady growth.

Domesticating Chinese Pheasants.

When Captain Bogardus, the great shootist, was in Oregon lately he purchased a pair of Mongolian pheasants from a man who had raised them from eggs placed under a hen. A party who saw these birds in Butte, Montana, has written for a pair of the birds, and orders have been received for pairs and trios to send to North Carolina, Arizona and many other places. The man who raised these pheasants saved three pairs and they are now laying and the prospects are good that he will raise a large number this season, and will have no trouble in obtaining a good price for them, say $10 or $15 a pair. Another man has a trio of the pheasants, which were captured last winter while nearly starved. These birds are uneasy in confinement, and wear themselves out in trying to escape, while those reared in confinement are quite tame, and young ones hatched from their eggs and reared by a motherly old hen will probably be quite domesticated, and will find a ready sale to visitors to this state. Persons who can make a success of rearing these pheasants can make more money than by raising chickens. The pheasants are hardy and handsome, and are admired by all who see them, and in a few years, notwithstanding that they have been much abused, the birds will be found in every state in the union, and are likely, in years to come, to furnish more sport for the hunters than any other bird in the country. Judge Denny will long be remembered as the man who introduced them into this country, out of pure love for his state, and at his own expense.

Oregon Postal Matters.

Representative Hermann has had the name of Ellensburgh, the county seat of Curry county, Oregon, changed by the postmaster general to Gold Beach, pursuant to petitions from the people. W. G. Kenny, of Jacksonville, Oregon, was a bidder for the mail service between that place and Medford and was surprised when an eastern bidder, by name Edwin Worman, had the bid awarded to him. He at once addressed Representative Hermann to look into the matter. The congressman directed an investigation in the department and found that a serious error had been made and that Kenny was the lowest bidder. An order was at once made rescinding acceptance of Worman's proposal and accepting Mr. Kenny's bid. The error was occasioned through erroneous punctuation. The sum of $4 was construed to be $400.

For Spring and Summer.

W. R. Graham, the tailor, has just received another large invoice of elegant patterns for mens' suitings and trouserings for spring wear. His stock embraces a large line of the finest fabrics for mens wear to be found anywhere. He employs skilled work, and is enabled to make up suits promptly and at a very moderate cost. Oregon Fruit Pests.

At the recent session of the state board of horticulture in Portland, the members devoted the greater portion of the time to the discussion of fruit pests and preventives. Different winter and summer washes were recommended and a bulletin will be issued at an early day, giving the result of experiments and offering suggestions by which the fruit growers might profit. The San Jose scale has caused considerable trouble in southern Oregon and is beginning to make itself felt in Eastern Oregon, but none have as yet made their appearance in the valley. The codlin moth and green aphis will next demand the attention of fruit growers. The forthcoming bulletin will deal with all of these pests.

The Scio Branch Railroad.

Messrs. Edward Goins, Dr. E. O. Hyde, R. Shelton and P. O. Smith, directors of the Scio Railway Co. were in the city yesterday. They will go to Corvallis this morning to interview the managers of the Oregon Pacific Railroad Co. concerning the construction of the proposed branch from Scio to Munkers's. The Scio company recently elected Dr. E. O. Hyde president and S. M. Daniels vice president of the company.

Auction Sale of Lots Saturday.

Owing to the non arrival of the auctioneer of Lehenweber & Goodenough's sale of Astoria property, the sale has been postponed until Saturday at 2 o'clock. At that time the lots in Powell's addition will be sold to the highest bidder and in addition each tenth lot will be absolutely given away. The sale will take place at Burkhart & Malin's real estate office.

NORTHWEST NOTES.

Work on the Oregon Pacific road will be resumed as soon as the snow in the Cascade range will permit.

Several Willamette valley towns are already making preparations for holding grand 4th of July celebrations.

Owing to the diseased condition of many sheep in the country, shearing will begin earlier this season than usual.—Ochoco Review.

Some wood choppers near Tillamook, recently cut down a tree that was only a foot in diameter at the butt and measured 120 feet in length.

Burnett G. Haskell, who figured in the Willamette valley as a violent anti-Chinese agitator, has become prominent in California as a land grabber.

Wes Caviness' smoke house near Baker City was destroyed by fire recently, and about 69,000 pounds of ham and bacon valued at $4000 was destroyed.

The elk were so thick in Jackson's Hole this winter that the settlers had to guard their haystacks at night. They came in by thousands.—Kaintuck, Idaho Bugle.

An industrious Siwash came into Blaine from Port Roberts recently bringing 20 sacks of clams and 1000 pounds of codfish. He cleared nearly $100 on his goods, and went home rejoicing.

The people of Burns are talking of incorporating a bank at that place with a capital stock of $100,000. About $80,000 of the stock has been subscribed, and it is expected that the bank will be ready for business about July 1st.

News comes, says the Prineville News, that a man living on Buck creek near the southeast corner of this county actually wintered forty head of cattle on willows. He mixed salt with the feed, and every hoof of his stock got through in fine shape.

There has been a general advance of passenger and freight rates by all the steamboat companies doing business on Puget Sound. Freight rates are advanced 20 per cent. while the increase of passenger rates is from 30 to 50 per cent. More competition is needed.

There is no doubt about the existence of coal in large quantities only a few miles south and west of Eugene. Coal has been taken from several points less than five miles from that city, and the quality has been tested by the blacksmiths and foundrymen and pronounced good.

A light wool clip is expected both in Oregon and Washington this spring. The hard winter not only proved disastrous to the carcass but to the fleece as well. Dispatches from Red Bluff are to the effect that 70 per cent of the spring lambs have been lost and that losses of old sheep have been almost as heavy. The wool crop in that section will not be much more than one-third of the usual amount.

Sunday Excursion to Albany.

The Salem Statesman says: The boys of the Second Regiment band have secured the fine Columbia river steamer Bonita, and have decided not to have their excursion to Albany until Sunday, April 20th. The steamer will leave the Union Pacific dock at Salem at 7 o'clock, returning in the evening at about 7 o'clock. There will be good music and everything first class.

Stricken With Paralysis.

Miss Cassie Montgomery, of this city, was stricken with paralysis yesterday afternoon. She had been engaged with Mrs. Backensto in the dressmaking business, where she was at work. She was taken to her home and medical assistance summoned. She was lying in a semi-unconscious condition last evening, but it is hoped will recover.

Beautiful Millinery.

For the next three months I will sell from 25 to 50 per cent cheaper than any millinery store in Oregon. Everything in the latest eastern styles. All grade of goods from the cheapest 25 cent sun hat to the finest bonnet. None but first-class hands employed. IDA M. BRUSH.

Best of All Bargains.

Twenty-four fine lots in Shultz Front addition to South Albany are now in market for ninety days. These lots range in price from 150 to 225 dollars apiece they are only ¾ mile from the court house and are cheaper than any lots according to distance from town. We wish to draw the attention of the public to this fact.

Parasols! Parasols!

I have just received my spring stock of parasols direct from the manufacturer in New York in all the latest styles and prices, cheaper than ever before. Samuel E. Young.

The Fruit Outlook.

It is said by fruit men that the prospects are very favorable indeed for the biggest crop of the finest quality of all kinds ever known in Oregon. It is true the season is late, but the outlook is dimmed none by that fact. There have been a good many cold nights in succession, with direct sea breeze, chilled to frost in the valley by passing over the snows of the Coast range, but they have done no injury to the buds, which were not far advanced. It is something unusual to have so much cold wind from the west at this season, but as this is an off year in everything else it is not to be expected the breezes will be of the accustomed kind. The frosts have been light, but they could be readily observed on the roses and tender garden plants. At this time a year ago the gardens were all made and pretty well advanced, but mid-April this year finds but little work done on the garden plats. This section of the valley banks on its fruit crops and a failure would be something never before known. But instead of a failure this year there will be one of the heaviest yields known for years, unless some heavy frost should play havoc later on.
