SPECIAL, 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city. The stoves we offer were not bought as an experiment but as a certainty. We know what each stove will do, and they were bought for cash, so the price is right. We have specialties in heaters, beside our regular lines of Garland, Argand and Superior stoves and ranges.

The Caroline Gage company passed through this city Sunday enroute to Eugene, where they will play for a week. One of the ladies of the company was taken violently ill at Independence, and nearly died from hemorrhage caused by the laceration of her jaw by an unskillful dentist.

The Contracts Signed.

It is announced that Dr. Alfred Kinney, of Astoria, has signed contracts with J. H. Smith, the well-known railroad builder, for the construction of the first thirty miles of the South Coast railroad out of Astoria. This is the projected line from the "city by the sea" to Hillsboro. Dr. Kinney states that the first thirty miles will be fully completed, and that cars will be running over this portion of the road within sixty days from date.

A Lively Knock Down.

Yesterday the city marshal had quite a time in trying to arrest three tramps. He was compelled to knock one of them down, he showing fight and had to be hauled to the calaboose in an express wagon. A few minutes later a truck was seen coming from the O. P. depot loaded down with fresh fruits and vegetables for Mueller & Garrett which will be displayed to-day.

Fast Time.

The Willamette Valley it is claimed made a very fast trip making it from port to port in about forty-eight hours. From the appearance of the fine cabbage, cellery, asparagus, oranges, etc. received by Mueller & Garret it must be true as everything came in fine condition.

ORPHANS' HOME AND HOSPITAL.

Committee Appointed and the Work Commenced in Earnest.

At the regular meeting of the Ladies Aid Society held yesterday afternoon steps were taken to carry to immediate completion the enterprise of erecting the proposed orphans' home and hospital buildings in this city.

A committee, consisting of three ladies from the society, Mrs. L. E. Blain, Mrs. S. S. Train and Mrs. C. C. Kelley, also Mayor J. L. Cowan and Judge L. Flinn, on behalf of the citizens, was appointed to secure a site for the proposed buildings.

About $1000 has been subscribed toward the enterprise, and the committees already appointed for this purpose will now proceed to complete the subscriptions, in order that the buildings may be erected this summer.

The undertaking is one of importance to Albany, and deserves to meet with hearty encouragement. The plan of combining a public hospital with the orphans' home is one that has met with general approval, and will make it doubly beneficial to the city.

The members of the committee from the society will go to Portland next week to examine into the workings of similar institutions there. The Ladies Aid Society is the oldest organization of the kind in Albany, and under their management and influence the orphans' home and hospital will be conducted in a successful manner.

Flag For The Public Schools.

The Salem Statesman says that D. W. Matthews, of the Grand Army committee appointed to secure a flag and raise it over the High school building, has been up to the school building and finds everything in readiness to receive the stars and stripes. Mrs. Grubbe, city superintendent, is heartily in favor of the enterprise and will do all she can to make the occasion of the flag-raising a success. The flag is now on the way, and the programme that will accompany its raising is in course of preparation. The date as arranged now is May 9th.

Southern Oregon College.

At a most interesting session of the Presbytery held last Thursday evening the question of locating the proposed Presbyterian academy and resultant college was thoroughly discussed, and after examining the relative advantages offered by Roseburg and Jacksonville as a site for the location of the institution, by a unanimous vote the claims of this place were given precedence and the academy will be located on the "three buttes" on the Cardwell place south of town.—Jacksonville Times.

A Plumber's Pointer.

A retired plumber thus gives a point in the Sanitary Engineer for the relief of householders: "Just before retiring at night pour into the clogged pipe enough liquid soda lye to fill the 'trap' or bent part of the pipe. Be sure that no water runs into it until the next morning. During the night the lye will convert all the offal into soft soap, and the first current of water in the morning will wash it away and clear the pipe clean as new."

An Incipient Blaze.

A fire alarm was sounded at 2:30 yesterday afternoon, which quickly brought the fire department out. The fire was located in the residence of George Anderson on Second Street between Broadalbin and Elsworth. It proved to be a small blaze, which originated from the explosion of a lamp attached to an incubator in a rear room. The fire was quickly put out, the damage being nominal. The building was owned by Judge R. S. Strahan.

Crook County Democrats.

Following are the democratic nominees for county offices in Crook county: For representative, T. J. Stephenson; for county judge, J. C. Sumner; for clerk, Arthur Hodges; for sheriff, W. A. Booth; for commissioner, G. Springer; for assessor, W. A. Gero; for treasurer, Ed N. White; for school superintendent, C. M. Hedgpeth; for surveyor, Knox Huston; for coroner, Linn Woods.

The Salem Excursion.

About 180 excursionists from Salem came up on the boat Sunday arriving at 12:30. The Second Regiment band furnished some fine music and the people enjoyed themselves in viewing the sights about the city. They remained until 4 o'clock, when the boat left on her return to Salem.

Pleasant Birthday Party.

A pleasant birthday party was tendered Miss Nina Parker at the residence of her brother, Virgil Parker Saturday evening. About 25 of her friends were present, and the evening was pleasantly spent with games etc. A lunch and ice cream was served.

THE INSPECTORS AT YAQUINA.

They Investigate the Charges Preferred Against the Captian of the Walluski.

Captain E. S. Edwards, and Mr. F. McDermott, the United States local inspectors, have returned from their business jaunt to Yaquina bay. They went to Newport to investigate the charges of non-compliance with rules and negligence through drunkenness," which were preferred by an engineer named Sackett, against Captain Blake, of the Steamer Walluski.

A dozen or fifteen witnesses were examined, and the testimony submitted made a bundle of manuscript of such proportions that the transportation companies came very near making the inspectors pay freight charges to bring it to Portland.

Captain Edwards said that the result of the investigation proved conclusively that not only had the captain of the Walluski violated the rules, as charged, but that the complainant, Sackett, who is half owner of the Walluski, was also guilty of great indiscretions. The inspectors considered the case to be six of one ond half a dozen of the other. They will suspend the license of both the captain and the engineer for sixty days, and will impose a fine of $2800 on the steamer.

The Walluski, which is only worth about $1500, is in charge of the collector of customs, who, on the 17th of the present month, tied the steamer up and placed a watchman on board. The boat will not be allowed to be taken away until the fine is liquidated. Considering the large sum necessary to secure her release, which is $1300 more than the value placed upon the boat, it is very likely that the Walluski will be allowed to rot against the piles before the owners take any action in the matter.

The Circus To-morrow.

As can be seen elsewhere in our columns, the famous New United Shows, an aggregation of world-wide celebrity will visit this city to-morrow. It is said the whole show, from first to the last, is of unusual excellence. The horses are splendid specimens, while the artists are culled from the best on every continent; that, together with its new features never before seen with other shows cannot fail to interest. It is vouched for that the above combination exhibits the largest known animal, Queen Jumbo, whose history is identical with the Zoological Gardens of London, and is recognized as the undoubted mastodon of mastodons.

To The Public.

As we have not closed out our stock, we have concluded to stay until the 1st of May and no longer. We have the following goods left which we will sell below cost to save packing and freight. Four bed room suits, one parlor suit, four kitchen safes, fourteen stands, four wash stands, and also some glassware, crockery, boots, shoes, clothing, etc., F. Wise & Co., Portland Branch.

Miller's Writing.

Joaquin Miller is credited with writing the worst hand in the United States, which serves to veil certain eccentricities of spelling. He is a spare-built, sharp-featured man of weird appearance, with a broad, bald forehead, and suffers his tangled mane of hair to fall carelessly on his shoulders. He affects a semi-clerical style of get-up, and says abrupt things in a hollow voice.

The Youngest Conductor.

The youngest railroad conductor in Oregon is said to be Richard Blew, who is freight conductor on the Southern Pacific on the division between Junction City and Roseburg. He is a native-born Oregonian, and has the hardest division on the route, the run being made in the night. He has filled the reasonable position for almost a year.

Building Stone.

The Jacksonville Times says: The fact that Contractor Ayers will ship five carloads of building stone from the Tolman quarry near Medford, to be used in the construction of the new bank building at Albany, but illustrates the fact that in our numerous deposits of fine building stone the county has a source of wealth as yet not utilized

Resisted an Officer.

Two drunks were arrested yesterday by Marshal Hoffman. One of them resisted an officer and was promptly knocked down by the latter's club. Both prisoners were hauled off to jail in a hack.

"The Deestrict Skule."

The ladies of the First Presbyterian church are preparing to give this popular entertainment in the near future.

New invoice of gold rings at French's.

History of Oregon.

Everybody has heard of Herbert Howe Bancroft's History of Oregon, published during the present year, in two volumes. Oregonians are justly proud of the early history of this state, and they can likewise be proud of the manner in which that history has been recorded by Mr. Bancroft. It presents a complete record of the events a as they occurred from the times of the earliest settlement to the present, setting forth the material interests and progress of the state fully and faithfully. Mr. J. V. Tait is now engaged in canvassing the city for these desirable books. The two volumes form a work that every Oregonian will want.

Good Investment.

A few reasons why the Goltra Park addition is the only sure and safe investment around the city of Albany. 1st. Because it is the closest addition platted to the city. 2d. Because it is at least 15 feet higher and is more sightly, and commands a better view of the city than any other addition. 3d. Because it is the only addition that has a proposed motor line to it, which will be in operation within 60 days. 4th. Because it is the only addition that has a public park laid out in it. 5th. Because all the business men who want to make good investments buy in this addition. And last but not least because every lot in this addition will double in value in the next 90 days. EX-COMMITTEE.

This is the time of year when the young woman with a complexion makes you conscious of it by walking around with her head muffled up in a veil so that the spring wind may not reach it. And every night and morning use Hubbard's Elegant Lotion. Then she will have a complexion to be proud of.

Disarming an Unseen Foe.

"This was sometime a parsdox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-cursed localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and billious ailments.
