EDITORIAL NOTES.

THE working men are clamoring for eight hours per day as the days work, with a spirit that seems likely to win.

CHICAGO husband's privileges are becoming abridged. Lately a Chicago wife recovered $5000 from her husband for slander. Since the world's fair is going to that village there is no limit to the demands that her citizens may make.

EX-SHERIFF FLACK, who languishes behind the bars of the New York prison he formerly presided over will probably find that the Sickles regime will not admit of even the high priced prisoner's street airings that he established and waxed rich out of.

A CALIFORNIA highwayman's nose gave him away. That prominent feature protruded through the masque he wore, and was subsequently identified by the driver whose stage he held up and robbed. When he emerges from the prison cell he will probably not exhibit his proboscis when he goes on robbing expeditions.

FATHER RYAN, of the Lowville, New York, Catholic church, was wont to collect the church dues by the application of blows even subjecting ladies to castigation; but the bishop very quickly changed that order of proceedure by suspending the advocate of corporal punishment collections.

THE indications from congress are that the several bills before that body; upon the silver question, will eventually have to consolidate into a measure that will practically mean free coinage of that metal. That is a situation devoutly to be wished for and one that can be contemplated by the the people with a great deal of satisfaction.

THE political honesty and equity of the editor of the Alta California may be surmised, from the fact that he has been denouncing the McKinly tariff bill as a monstrous iniquity, but he now says: "One of the largest iron manufacturers in Boston, and a leading republican, says if the McKinley bill pass it will make New England permanently democratic. This is the only good argument yet made in favor of the bill." So in his eyes this monstrous iniquity will be very good if it only conduces to a democratic victory. Verily his candor is refreshing.

THE question of sugar is one in which every person in the country is interested, for all from the oldest to the youngest are consumers of that article, and therefore interested in its production, and the economical placing of it within reach. Political aspiration or advantage should not be allowed to blind the judgment upon the subject, but the general welfare of the people should be the controlling thought with every person in consideration of the subject. The Chronicle gives a very good presentation of the matter as far as this coast is affected in the following: "Several Eastern importers and refiners of sugar when interviewed expressed the opinion that the new tariff schedule so far as it affects sugar would be highly beneficial to this coast. They base this belief on the fact that a bounty of 2 cents a pound on beet sugar will greatly stimulate its production in California. At present, owing to the Hawaiian reciprocity treaty, the profitable production of beet sugar is impossible. No sane body of men would think of seriously competing with Hawaiian coolie raised raw sugars which come into the country free, and in such quantities that the wants of the Pacific coast are supplied and about one hundred and fifty million pounds spared for shipment East, where, after paying a heavy freight, it comes into successful competition with sugars which have paid a duty of 2½ cents a pound. The recent display of enterprise in the beet sugar line in this state was simply meant to humbug the people and to use as capital against the abrogation of the sugar duty. There has been no time since the Hawaiian reciprocity treaty went into effect that it has not been possible to crush out all attempts at beet sugar culture. The failure of the only genuine competing beet sugar plant proves this conclusively, and those who contend that the retention of the duty on raw sugars would build up a beet sugar industry on this coast, in the face of Hawaiian competition, are either interested in foreign sugar production or hopelessly misinformed."

THE mineral resource of China, it is said, will make a wonderful stir in the world when they come into active market. In the matter of coal according to a Chinese paper, that country is known to contain coal-fields of twenty times the extent of all the coal-fields in Europe. Human alone, it is said, contains as much coal as all Europe. Shantung has gold, silver, lead, iron and coal mines. South Manchuria, Chihli, and Shantung have coal-fields stretching under 250,000 square li of their area, and Shansi 14,000 square li. It is calculated that the coal therein stored would last the world 2,433 years at a yearly consumption of 300,000,000 tons. Hupeh, Kiangsi and Mongolia are all said to contain coal, copper, and iron mines.

Have you heard what Mr. G. L. Weast, of Cambridge City, Ind., says of Chamberlain's Colic, Cholera and Diarrhœa Remedy? Put in alkali water, it imparts a pleasant taste and prevents the painful diarrhœa, which alkali water produces. Take Simmons Liver Regulator One Dose
WORTH
100 Dollars!

DEAR S. L. R.: I consider one dose of Simmons Liver Regulator worth $100. I was constipated, had Headache, could eat nothing with satisfaction or appetite, had the blues, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinine, and every remedy suggested, but only obtained temporary relief. One dose of S. L. R. did me more good than $100 worth of doctors and doctoring. Resp'y, J. C. MARES.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely cured by Simmons Liver Regulator. I found it to be of so mild a character in its action, as not to interfere, in the least with my duties in the school room. To those similarly situated and subject to the same, I cannot too highly recommend Simmons Liver Regulator.
