A STEAMSHIP BURNED.

Electrical Executions in New York Again Declared Unconstitutional—The President's Veto.

WASHINGTON, April 29.—Secretary Tracy recieved a long report to-day from D. E. Coon, Chinese inspector at San Diego in regard to smuggling Chinese into the United States from Mexico. He says a careful inspection of the towns and roads crossing the state line shows every opportunity for crossing to this country and that it is impossible with the present force to prevent all the Chinese from entering the United States. He says that smuggling of Chinese to the United States is a profitable traffic of no small dimensions, which is backed by very heavy capital, with principal quarters in San Francisco, and that Chinese evidence shows that contracts are made in China to deliver safely each man on American soil, and a guarantee is given, if delivery is made in safety, of the payment of $140 per head.

Garretson, of Sioux City, Iowa, are in this city in consultation with Armour and other big dressed beef men concerning a matter which promises to revolutionize the business on the Pacific coast. Hedges said in an interview: We expect to establish large packing houses in San Francisco and begin operation at once. We not only decided on the San Francisco plant but several smaller plants in different sections of the west. Perhaps we may do something in the state of Washington.

THE CHICAGO STRIKE.

The Plot Thickens and the Strike Will be Resumed.

CHICAGO, April 29.—To-day was comparatively uneventful in the carpenters's strike. STAY OF EXECUTION.

Judge Wallace Says Electrical Executions are Unconstitutional.

AUBURN, April 29.—Judge Wallace, of the United States court, has granted a writ of habeas corpus, returnable June 17, in the case of Kemmler, sentenced to be killed by electricity, on the ground that the act under which the execution was to take place is in violation of the constitution.

The future of the case will probably be one of protracted litigation. When Kemmler produced at Canandaigua the arguments it took some time, and it may be weeks longer before a decision of the court will be handed down. If adverse Sherman may appeal to the United States supreme court. Lawyers here declare that the application will not be successful, as they assert it is clearly within the limits of the decision of the supreme court case where it was claimed that the eighth provision of the constitution applied to the state laws to impose certain punishments. In that case the supreme court decided that the provision applied to national and not state legal violations, but should the federal courts decide the law not good there will be in prison a number of condemned murderers who cannot be put to death. The law providing for the rope as a means of execution, it is argued, has been supplanted by the electrical law. If the latter is ruled out the state will have no law for capital punishment, and the lawyers say a new statute that might be passed providing for the means of execution could not affect those sentenced prior to its passage.

The clerk of the U. S. court this evening put the official seal on the Kemmler writ of habeas corpus and sent it to Auburn. The petition on which it was granted sets forth that the punishment imposed by the statute is cruel and unusual, that it conflicts with the federal constitution, that the punishment imposed deprives him of his life without due process law, not only that the mode of putting him to death is unlawful, but also that the judicial function of fixing the time is taken from the court and delegates to the executive officer.

A GENENAL UPRISING

AMONG THE WORKINGMEN OF THE OLD WORLD.

A Revolution Threatened at the May Day Demonstrations—Many Anarchists Arrested.

PESTH, April 29.—The agitation among the workingmen of Hungary is assuming colossal proportions.

PARIS, April 29.—Forty or more anarchists were arrested to-day for trying to create disorder among the workingmen. Among them was the Marquis de Mores. The Temps says that the police discovered in the Marquis de Mores' house printed documents designed to incite the workingmen to disorder, and found in Dumont's house a secret press manifesto urging troops to meeting. They also ascertained that certain anarchists intended to throw dynamite in order to effect a revolution on May day.

JACKSONVILLE, Fla., April 29.—The steamer H. B. Plant of the St. Johns' river line was burned early this morning in Beresford lake, one hundred miles south of this city, causing the loss of three lives, all colored. When the alarm was sounded the forward part of the boat was ablaze. The passengers were half dressed; some jumped overboard. Capt. Hall had a lifeboat cast off and held beside the burning ship. With a revolver in his hand he then called for the women and children and put them in first, not letting the men approach. The captain's coolness saved the lives of all. The vessel was valued at $45,000.

DEADLY ENCOUNTER.

Rival Fishermen On the Columbia Shoot Each Other.

THE NEWS OF THE COAST.

Huntington Departs for San Francisco—General Alger Visiting the Washington G. A. R.

PORTLAND, April 29.—News was brought to this city this afternoon by the steamer Telephone that a shooting affair occurred this morning at Danby, a fishing station on the Columbia river near Kalama between union and non-union fishermen. J. Hayman was killed and Jas. Wilson and a man named Olson were seriously and perhaps fatally shot. Olson and Wilson were brought here this afternoon on the steamer Telephone and were taken to the hospital. A party of union fishermen came from Astoria to Danby last evening and when the two factions met this morning the shooting took place.

Morgan Bakus, who arrived on the steamer this afternoon which brought the wounded men to this city, says that J. Hayman, H. Olsen and C. Wilson, union men, who came from Astoria, were in a sail boat and passed a number of non-union men who were fishing. They ordered the non-union men to draw in their nets and quit fishing, claiming that they had been selling fish at 75 cents apiece which is 50 cents lower than the union price. After some words the union men sailed on and came near a scow anchored near the shore, when suddenly a number of shots were fired from the scow on them, striking Hayman in the head killing him almost instantly. Wilson who had a rifle returned the fire. The shooting was kept up for some time and Olsen recieved a shot in the back which will prove fatal. Wilson was shot three times in the legs but will recover. No arrests have been made so far as known, and it is impossible to find out who did the shooting, but it is supposed that it was done by non-union men, as threats were made at different times by the union men against the non-union men. Hayman's body was taken to Astoria in a sail boat.

The Eight Hour Movement.

The Bodies Identified.

PORTLAND, April 29.—It is learned that the names of the three men drowned near Woodland last Friday were J. Beltes, Thos. Beltes, and M. Wymore. RESCUED FROM THE SEA.

The Schooner Rudy A. Cousins Picks Up Five Men Adrift.

The schooner Rudy A. Cousins arrived yesterday from Eureka with 175,000 feet of rough clear redwood for the Oregon and California Lumber Company of Portland. The Cousins left Eureka April 19th, and when about sixty miles west by north of Yaquina bay, at 8 o'clock on Saturday evening picked up five men adrift in two boats belonging to the sealing schooner Rosie Olsen, which left Astoria a short time since bound north on a sealing cruise. The men were kindly cared for by Captain Cousins until Sunday morning, when their craft was sighted, and they were finally transferred on board of her. They state that they had left the Olsen on Saturday morning to hunt seals, and while engaged in this occupation, did not observe that the steamer had disappeared from their range of vision, having [illegible] reached her bearings, and leaving them alone without [illegible]. When picked up, the boat contained four seals, the result of the day's capture, and ten rounds of ammunition.—Astoria Columbian.

A LIVELY ACTRESS.

She Makes Things Very Warm for a Minstral Agent.

A Macon Miss., dispatch says that Miss Georgia Hamlin and troupe played here on Friday night. Her bills were also posted for the entertainment last night. Yesterday Mr. Lawrence, the agent of a minstrel troupe, arrived and proceeded to advertise his show on the bill-boards, covering up Miss Hamlin's display. Thereupon she provided herself with a riding-whip, and, with her assistants began to hide Lawrence's bills beoind pure white paper. Lawrence appeared on the scene, and the climax of the impromptu drama was the sharp cowhiding of Mr. Lawrence by the irate star. Lawrence danced his acknowledgments and emphasized his silence with defensive gestures. The drop-curtain was worked by the City Marshal.

THE DAY IN CONGRESS

The Land Forfeiture Bill Passed By the Senate.

THE TARIFF DISCUSSION.

Right of Way for the Spokane Railroad Across Indian Reservations—Pension for Mrs. McClellan.

WASHINGTON, April 29.—In the senate to-day the land forfeiture bill was taken up. Moody offered an amendment which was agreed to, declaring that the act shall not be construed to confirm any title of any state corporation or person to lands excepted in grants. The bill passed without division.

McPherson introduced a bill granting a pension of $2500 a year to the widow of Gen. McClellan, which was referred.

IN THE HOUSE.

The commerce committie has favorably reported the bill providing that the customs district of Puget sound be reorganized to comprise the state of Washington, in which Port Townsend shall be the port of entry and Tacoma and Seattle are each constituted as subports of entry, that deputy collectors be appointed by the secretary of the treasury, that Port Angeles and some suitable place on Bellingham bay and Gray's Harbor to be designated by the secretary of the treasury shall be sub ports of entry and that customs officers shall be stationed at these points.

The house concurred in the senate amendments granting the Palouse and Spokane railroad right of way through the Nez Perce reservation in Idaho, also concurred in the senate amendments granting the Spokane Falls and Northern railroad right of way through the Colville Indian reservation.

Grosvenor introduced a house bill adding to the inter-state act a section forbidding common carriers to transport oils, etc., in tank cars at a less rate than wooden packages or barrels in car loads. Sherman introduced a similar bill in the senate.

The house in a committee of the whole to-day considered a bill providing for the classification of worsted clothes as woolen. Dingley said the object of the bill was to make clear the question which arises in regard to the classification of worsted goods under the existing tariff and to correct all doubt and misapprehension. Carlisle said the effect of the bill would be simply to raise the compensation duty on worsted clothes from 18 and 24 cents to 35 cents.

After a long debate the committee rose and reported the bill to the house. On the passage of the bill no quorum voted, and being no quorum present, Dingley, in view of the fact that the republican caucus was called for this evening at 7:30, moved an adjournment, which carried.

Disarming an Unseen Foe.

"This was sometime a paradox," as Hamlet says. Since, however, the people of America and other lands have been enabled to pit Hostetter's Stomach Bitters against that unseen foe, malaria, it is no longer a paradox, but an easy possibility. Whatever malaria evolves its misty venom to poison the air, and decaying unwholesome vegetation impregnates the water, there, in the very stronghold of miasma, is the auxiliary potent to disarm the foe and assure efficient protection. Fever and ague, bilious remittent, dumb ague and ague cake, no matter how tenaciously they have fastened their clutch on the system, are first forced to relax their grasp and eventually to abandon it altogether. But it is preventive force that should chiefly recommend the Bitters to persons dwelling in malaria-cursed localities, for it is a certain buckler of defence against which the enemy is powerless. Cures, likewise, dyspepsia, rheumatism, kidney and billious ailments.

Not a California Bear.

Anybody can catch a cold this kind of weather. The trouble is to let go, like the man who caught the bear. We advise our readers to purchase of Foshay & Mason a bottle of Santa Abie, the California King of Consumption, Asthma, Bronchitis, Coughs and Croup Cures, and keep it handy. 'Tis pleasing to the taste and death to the above complaints. Sold at $1 00 a bottle or 3 for $2 50. California Cat-R-Cure gives immediate relief. The Catarrhal virus is soon displaced by its healing and penetrating nature. Give it a trial. Six months treatment 1 00, sent by mail $1 10.

Spring Jackets at Cost.

I have a small line of spring jackets in colors I wish to close out and have reduced the price to cost. They are the latest style and a bargain. I also have a line of spring stockinet jackets for $5.50 each, which is the nicest jacket for the price in the market. Samuel E. Young.

You Cannot Afford.

At this season of the year to be without a good reliable diarrhoea balsam in the house, as cramps, colic, diarrhoea and all inflammation of the stomach and bowels are exceedingly dangerous if not attended to at once. One bottle of BEGGS' DIARRHOEA BALSAM will do more good in cases of this kind than any other medicine on earth. We guarantee it. G. L. Blackman, druggist.
