SPECIAL, 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city. The stoves we offer were not bought as an experiment but as a certainty. We know what each stove will do, and they were bought for cash, so the price is right. We have specialties in heaters, beside our regular lines of Garland, Argand and Superior stoves and ranges.

IMPORTANT MATTER.

Will Be Looked After in a Satisfactory Manner.

Hon. Geo. G. Bingham, deputy district attorney and the republican candidate for the principalship, was in the city yesterday on his way to Corvallis to consult as an attorney for Marion county with the officials of the Oregon Pacific railroad with a view to securing the construction of a highway along the track of that company through the upper Santiam valley, where the road and trail have been occupied by the track of the railroad.

That upper country is settling up rapidly, and people want a chance for ingress and egress. There has been an immense petition filed with the county court of Marion asking for the establishment of a highway, and the court has been hunting up the law. Recognizing the fact that the Oregon Pacific officials are men of brains, and desirous of doing what they believe to be right, the court has employed Mr. Bingham to consult with them and if possible obtain amicable action, and it is hoped he will be successful, as those mountain settlers are entitled to all the privileges the law guarantees.

The railroad company has occupied the old trail through the Minto pass in many places and occupies with its right of way the only available avenue of travel, and yet it is said from official sources that no legal right of way has ever been obtained through the government lands in the upper Santiam valley.

Mr. Bingham went to Corvallis and consulted with the Oregon Pacific officials and returned to this city last night.

He informed a HERALD reporter that the matter was amicably settled by the railroad agreeing to send a man with a man sent out by the Marion county court, and view the road through, and wherever the railroad has intercepted the Minto Pass trail to put it in as good condition as it was before. The force of men now at work repairing the railroad above Gatesville will be used to put the road in repair.

It is thought that a wagon road will be laid out, and by Marion and Linn counties joining one can easily be constructed to the summit, probably by building about two inexpensive bridges across the Santiam. The work will be of great importance to the many settlers going into that region, and should be pushed through immediately.

The work on the trail will be done within the next 30 or 40 days.

THRIVING LEBANON.

LEBANON, May 1, 1890.

To the Editor of the Herald:

Lebanon is becoming of sufficient importance to be entitled to a little notice. There is a marked improvement in all kinds of business. The business houses are assuming more of a metropolitan air. Among the merchandise stores I noticed the one presided over by Mr. J. A Roberts, whose courteous bearing makes it a favorite resort for all who need anything in their line. In the furniture line Mr. Goan showed me an immense stock for a place of this size, and is working four or five men all the time manufacturing more. Mr. Goan is about ready to start a large planer and will soon be able to supply builders with the finest lumber in the market. The hardware line is well represented by our jolly comrade G. W. Cruson, and so on through every department of business. All seem in a thriving condition. The five, ten and twenty cent counters of the Moses Bros., are really worth mentioning and the City Restaurant is a very nice place to go and refresh after a half day's walk about the city. A good hotel is very much needed, but I understand there is a prospect for that in the near future. This and the paper mill which is an assured fact, will give Lebanon a boom that will not slack up until she is one of Linn county's substantial cities.

Lebanon is provided with a solid moneyed institution in the Bank of Lebanon, which is managed by Charles Ralston. It is one of the best small banks in the country.

G. B.

Probably Settled.

Concerning the Jefferson flouring mill failure the Salem Journal says: There has been filed in the county clerk's office an assignment and bill of sale by H. Barendrick, warehouseman of Jefferson, to F. M. Miller, G. B. Hoyt, F. Bagley, D. H. Looney and Eli Vaughn, of all the accounts due the mill, amounting to $6,863.27; all the flour on hand, some 300 barrels, and some three tons of feed, the assignees being trustees for farmers and the document being intended to cover a shortage of 23,000 bushels of grain. The history of the case was given in Monday's Journal, and it is now believed that an amicable settlement will be reached and the farmers lose nothing by the transaction. Mr. Barendrick will do everything in his power to see that they are reimbursed, the shortage being the result of an error in judgment with no desire to swindle.

Probably Incorrect.

Dispatches have been stating lately that the Oregon Pacific railroad was likely to pass out of the hands of the present owners into those of the Southern Pacific or some other company. These statements are undoubtedly incorrect, and the road will be pushed through under its present management.

Good meals can be had at the City Restaurant for $3.50 per week. Ice cream and cake, 15 cents. Private boxes.

THE EVANGELICAL CONFERENCE.

The Preliminary Meeting Yesterday—A Stormy Session To-day Probably.

The annual conference of the Evangelical church will meet in this city at 8 o'clock this morning. The preliminary meetings were held yesterday. All the members of the conference were present.

The educational association occupied the morning period. The Lafayette Seminary was represented as being in a most promising condition. C. C. Poling and W. E. Woodward were elected trustees. The officers of the association are: President J. Bowersox; secretary E. P. Bollinger.

The missionary and tract societies occupied the afternoon session.

Thomas Bowman, who was suspended by a disciplinary body of elders of the church at Chicago on March 7th, 1890, is present and expects to preside.

All concessions seem to be out of the case, and, applicants for the ministry were refused examination because they believed that Thomas Bowman is a suspended Bishop.

The session this morning will no doubt be a stormy one. The seat for presiding officer will be contested.

MATTERS IN LANE.

Searching For Hatch—Coal Mines—The Crops.

Eugene Register.

James Wycoff and some other gentlemen have made several trips up in the mountains recently in search of the body of Mr. Hatch who was lost while trying to reach the summit last winter. On a recent trip they found some leggings that had been worn by Mr. Hatch. These they found above the yew tree and it is thought if found at all his body will be found near the top of the mountain. Mr. Hatch left one relative, a sister, who resides in Michigan, and she has requested that if found, his body be buried at Eugene.

Work in the coal digging south of town will be pushed this week. At Dr. Taylor's diggings a car track has been put in to haul out the coal and all the men that can conveniently work in the tunnel are now crowding into the hill. They expect to go in about fifteen to twenty feet further this week and by that time it is expected something definite in regard to the extent and value of the find can be learned. Coal has been discovered in several places in that vicinity and if Dr. Taylor's prospecting is favorable all the other finds will be worked at once.

Winter wheat is generally reported to be in good condition. Early spring grain is doing nicely and a large acreage has been sown. The effect of too much rain on the wheat in the lowlands is shown to have been slightly injurious. Some people fear the strawberries and other fruit has been injured by the late frosts. The present outlook is that peaches will be a short crop. Grass is growing rapidly and affords good grazing.

From Quartzville.

Mr. Cannon, of the Dry Gulch Gold Mining Co., is in receipt of a letter from Mr. H. W. White, stating there is still two feet of snow at the cabins. It goes off very slowly, there is so much trash on it from the trees. The snow at the head of Gold creek is six feet deep and twelve to fourteen feet at Stampede Gap. Herbert Ames of the Albany Mining and Milling company came over the road a few days ago and and makes substantially the same report. He says there are 250 trees fallen across the trail along Canal creek.—Salem Journal.

THE OREGON PACIFIC.

It Is to Be Built to Boise City Within Eighteen Months.

A dispatch from Boise City says: The arrangements concluded between the committee of directors of the Boise Central Railway Company and the vice-president and manager of the Oregon Pacific, were in general satisfactory to the people of this city. The Oregon Pacific is to be built to Boise within eighteen months, and the people here will furnish about fifty miles of right of way and property in the heart of the city of great value including depot grounds, freight and train yards, and site for extensive car shops. The only disappointment is that work and completion and operation of the road from this end cannot commence at once. The Oregon Pacific is an independent company, and is unable at present to secure transportation of rails or rolling stock over the Union Pacific.

Late indications reveal plans of a secret nature for the building of a railway from the East into Boise City, possibly reaching us before the close of 1891. So far as facts as yet are ascertained, this road is to cross the Utah Northern above Eagle Rock, and skirts the base of the hills from Arco south. west past Martin, to a crossing of the Wood River branch of the Oregon Short Line at the little station called Picaboo. At this point heavy purchases of real estate have been made by a firm of railway contractors, well known throughout the northwest. It was greatly hoped that the coming Eastern road would go north as far as the towns of Bellevue and Hailey; but the engineers say they can only accommodate them by spur roads—the conformation of the country absolutely forbidding the main line to touch either town without a wholly unjustifiable expense.

The committee of the Great Northern, which began its investigations here eight days ago, have completed their labors and returned. Their inquiries were thorough and business-like, reaching every detail of the resources and capabilities of this region.

The publication fund recently inaugurated by the Board of Trade now reaches about $5,000. Eight citizens are down for $400 each.

Money to Loan.

We are agents for the Minneapolis National Building and Loan Association and can offer extra inducements to parties who wish to obtain loans for building purposes or other purposes with real estate security. On this plan of retiring money for building purposes it is much better than other building associations, as it matures in five years, and is one of the most substantial institutions in the country. Call at our office and examine the plan.

BURKHART & MALIN.

This is the time of year when the young woman with a complexion makes you conscious of it by walking around with her head muffled up in a veil so that the spring wind may not reach it. What a silly goose she is! If she really wants to keep her skin in good condition, let her cast aside the veil, and let the wind and sun alike kiss it. And every night and morning use Hubbard's Elegant Lotion. Then she will have a complexion to be proud of.
