Morning Daily Herald

SPECIAL. 12:30 A. M.

Not to see our stoves and ranges before buying is a mistake. Mistakes are always costly. In heating stoves we have the largest as well as the most carefully selected stock in the city. The stoves we offer were not bought as an experiment but as a certainty. We know what each stove will do, and they were bought for cash, so the price is right. We have specialties in heaters, beside our regular lines of Garland, Argand and Superior stoves and ranges.

A PLAN FOR PUBLIC IMPROVMENTS.

How A General System Could Be Carried On in This City.

At the Board of Trade meeting at the opera house Tuesday evening the question of establishing new manufacturing and other enterprises was acknowledged to be the prime factor necessary to the promotion of the growth of Albany.

A gentleman of this city is in receipt of a letter detailing a plan that is in successful operation in several of the growing cities of the West, also in some of the southern cities.

The town in question which has adopted the plan is Winchester Virginia. The general plan is to organize a company of local business men, who subscribe stock, to be paid in as required, for the establishment of different factories and enterprises, which on either operated by the company, or they simply put in half of the capital stock for a given enterprise, which it abundant inducement for capital from abroad to put in the other half.

The Winchester plan in detail is as follows: This company is altogether co-operative. The capital stock is formed from popular subscerptions, and the shares are placed at the par value of five dollars, to enable as large a number of persons as may be possible to become interested in the company, and the amount subscribed is made payable at the rate of one per cent per month, to enable the persons who may be receiving the lowest wages to become subscribers to the stock.

It is considered that the small savings of a large number of persons, thus capitalized, and placed under the management of competent and reliable directors—who are to be selected by the stockholders can be made remunerative to the subscribers by being invested in such industrial enterprises as the board of directors may, from time to time decide upon, to be operated and conducted by skillful and experienced persons.

The immediate object is to raise by such subscriptions, the sum of one million dollars or such sum as may be desired.

When the capital stock has been subscribed it will be called for at the rate of one per cent. per month until it is all paid in.

Subsciption to the capital stock may be made payable in work, labor or material, to be furnished to the company, and accepted by the board of directors.

Among other enterprises, which it is proposed to establish, may be mentioned:

A big hotel.
A steam brick factory.
A steam door, sash and blind factory.
A paper mill.
An agricultural implement factory.
A canning factory.
A boot and shoe factory.
A pork packing establishment.
A Ladies underwear factory.
A gas company.

These establishments must, from their character, be reasonably expected to afford a new market to the products of the country; while indirectly, by the necessary increase they will cause to the population, they will greatly stimulate the production of all article of food.

It is estimated that the establishment of the enterprises here mentioned, will add not less than 5000 souls to our population, in the hands necessary to the operations of the enterprises, not to mention the yet greater number who will cosstitute the families of the operatives.

One million dollars, invested here in permanent industrial enterprises, profitably conducted, will, it is reasonably hoped attract, without solicitation, fully as much more from those regions of our country, where of late, such enterprises have proven unremunerative.

The advantage afforded here to the small wage earner, of saving each month, the balance he may have over, after supporting his family, cannot be over estimated. The man who has one dollar or ten dollars over, has but small encouragement to save it, because so small a sum cannot usually, be profitably invested, and the temptation is strong to waste it in some needless dissipation or extravagance.

Should the company be once faily launched, no excuse will remain to any man, woman or grown child in the country for being any longer idle. There will be remunerative work for all, and the hopeless despondency of the farmer will disappear before the importunate and growing demand for all the articles of food which his land and labor can produce.

The plan could be modified, and such a company formed with say $250,000 capital stock. The organization could then invite capital from manufacturers from abroad, offer as an inducement to put in a given amount of capital stock in any desirable enterprise, on condition that such manufacturers put in an equal amount, which would double the amount to be invested to $500,000. The plan would be a good one for the business men of Albany to think about.

A Fearful Fall.

The Oregonian says that last Saturday afternoon Professor Redmond, now with McMahon's circus, gave a balloon ascension at Chehalis, Wash. In making his decent he lit among a clump of tall trees, tearing his balloon badly, and giving the professor a fall of fifty feet to the ground, injuring his back and spine severely. He was picked up and carried into a house, where he is receiving the best of care and attention. So far as could be learned no bones were broken, and he is doing as well as could be expected under the circumstances.

Go to Lange's for your groceries.

NOT TRUTHFULLY STATED.

Arriving in your city last evening, I was informed that one Dr. Taylor and Ward reported that the Gold Mountain and Dry Gulch Co.'s and the Gold and Silver Mining Company of Salem, Oregon, had had trouble and disbanded. The parties reporting the same lied, the condition and unanimity of the company and future prospects of a grand paying success were never better. Although I resigned the office of assistant secretary and treasurer, I still control the office of vice-president and as a director, as does Mr. Cannon retain his position as president. By the change it gives me an opportunity of working on the outside, and with our capital invested with those who have invested with us, we are confident of the results being obtained, and sooner than the public may be aware of.

R. H. MILLER,
Vice-President and Director of the G. M. & D. G. Co.'s, G. & S. M. Co.

The Best Threshing Outfit Ever Brought to Linn County.

Messrs. Burkhart & Cox of East Albany bought of Knapp, Burrell & Company the most complete threshing outfit ever brought into this county consisting of a thirty-six inch Buffalo Pitts separator, baggar & sacker. Coffees automatic swinging stacker and Anderson's Band cutter and self-feeder, something new to threshermen in this valley. Burkhart & Cox are to be congratulation for taking a step in advance of the old and slow way of threshing. They will add a complete cooking outfit making the farmers wives leap with joy. Burkhart & Cox are known to be the best threshermen in the county and the farmers who want a good job of threshing done should not loose any time in engaging them to do it before it is to late.

The State of the Water.

In Portland last evening at 6 o'clock the water stood 14 feet and 9 inches above low water mark, and was still rising steadily, as it has been for the past two days, at the rate of 1½ inches an hour. Captain Scott, of the steamer Telephone, is of the opinion that the water will reach a much higher mark this May than the February flood. The Columbia is reported booming, and in many of the narrow places is a raging torrent. The lower north end docks are all flooded, as are many of them more centrally located. No damage to freight of any kind has yet resulted, so far as known, and everybody is taking things easy, hoping for a few cooler days, which would put a quietus on a further rise.—Oregonian.

Republican Speaking.

Hon. B. B. Beekman, of Jacksonville, will address the citizens of Albany on Wednesday evening, May 21, at 7:30 o'clock on the questions before the people in the present campaign.

Newkirchner, Herman,	

BURTS THOMPSON, P. M.

After Water.

The Farmington, (Washington) Register says that near the M. E. church is a hole which is two hundred feet deep. It was bored there for the purpose of striking artesian water. The drill and boring outfit still stands where it was last used, ready to go on further if the citizens so desire. As it is down two hundred feet (and no water) why not chance it another hundred.

DOWN BY THE SOUNDING SEA.

Daily Astorian.

Nearly another week of the second month of the fishing season has gone by, and the boats are idle, and men earning nothing.

The new life boat for the Fort Stevens life saving station is defective in several points, and Capt. McLean has refused to accept it, and has written to the department headquarters for instructions.

Captain Thomas Latham, of the steamer Puritan, on Sunday morning accidentally fell backwards over the side of the vessel to the ground as she was on the beach being painted. He was very badly bruised and one wrist was broken.

The base ball game at Fort Canby on Sunday between the Astorias and Columbias was quite lively, an immense number of runs being made by the former, eleven in one inning. The score was 36 for the Astorias and only three for the Columbias.

Moss is being gathered from the rocks and trees up the river, brought here in sacks, then packed in crates and shipped to San Francisco. Thirteen crates were taken to the U. P. dock yesterday, to go down on the steamer to-day.

At Tacoma recently one of the city belles, a victim of fashion, was parading along the water front, when a sudden gust of wind carried her hat into the bay. In trying to stop it she lost her balance and fell in, but fortunately lighted in the hat and thereby saved her life, although the strange craft nearly wrecked a steamer by collision before it was steered ashore.

Fleece-Mowers.

The sheep shearing business is thus spoken of by the Lexington (Morrow county) Budget: The Jones & Ashbaugh shearing crew, most of whom are from Eight Mile, are E. C. Ashbaugh captain, G. R. Jones, L. P. Jones, A. Cantwell, I. Miller, R. Gaunt, Wm. Rix, John Cox and Henry Fisher—and are all high rollers, and the last named has a record of 180 strings. They also have the reputation of first-class work. W. H. Rush's band of 1000 on Juniper canyon was their first job this season, the next being his band of 5,000 on Sanford canyon, which was commenced yesterday. The band of I. C. Large, in the same neighborhood, will be the next to occupy their attention. They have so far about 15,000 engaged. The fleeces of Rush's lower band, being pretty sandy, averaged about nine pounds. The ruling price this year for shearing is six cents for ewes and yearlings, and seven for two-year-old wethers.

Decoration Day.

The committee on programme for decoration, appointed by McPherson Post G. A. R., Relief Corps, and Sons of Veterans, are requested to meet at the HERALD office at 3 p m to-day to make out the programme.

Prof. R. C. Palmer's Conservatory of Music.

Tweedale's block, First street, Albany, Oregon, opened January 20, 1890. The course of instruction will consist of classes for piano, organ, harmony and voice culture. There will be a normal class and diplomas furnished to teachers, specifying capacity and experience. Students participate in monthly recitals, and are graded to insure equality in rendition. This conservatory will be conducted on the same basis as those in Boston, New York, etc. This is the only recognized successful system known for a thorough musical education. Send for circulars and references. Office hours from 1 to 3.

Golden Rule Bazaar.
