A TERRIBLE TRAGEDY

A Sheep-Header Stabs His Associates With a Pair of Shears.

A WOMAN IN THE MIDDLE

The Narrow Gauge Road Formally Terminated Over to Mr. Huntington—The Portland Strike Nearly Ended.

PORTLAND, May 19.—Joe Genivieve, aged 17, son of Chas. Genivieve, a well known stockman, was killed this morning twenty miles south-west of here by being stabbed to death with a pair of sheep shears in the hands of a sheep header. The name of the murderer is not yet known. It is said the boy and his mother had got the sheep header in the corner of the fence and were beating him with a club while the father stood by and exclaimed, "kill him, kill him!" The header finally freed himself, reached up to the top rail, made a pair of sheep shears, and crashed them and fatally stabbed the boy. He then turned on the woman, inflicting several severe wounds. Mr. Genivieve escaped unhurt.

A PRETTY STATE OF THINGS

A Son Shoots His Father Because He Wants to Be Merry.

The cause that led to the shooting is not known, but it is said that the excited pointed strongly to his son. He claims that he will be able to assign an alibi. One motive assigned is that the father, who is possessed of considerable property, was about to marry against the wishes of his family.

A TERRIFIC STORM IN OHIO

Immense Damage Done to Crops—The Erie Ring Women Threatened to Raid the Saloons in Kansas

WASHINGTON, May 19.—The supreme court of the United States today rendered an opinion of vital interest to the Mormon church. In a suit of the church of Latter Day Saints against the United States, which comes here on appeal from a decision of the supreme court of Utah in favor of the United States, this court affirms that judgment. The case grows out of the Edmunds anti-polygamy law, which dissolved the Mormon church corporation and escheated to the United States the real estate owned by the church. The Mormons entered suit to have the law declared unconstitutional.

THE DAY IN CONGRESS

Senator Mitchell Discusses the Salem Bill.

OF INTEREST TO OREGON

Dolph and Mitchell Cannot Agree on the Silver Coinage Question—The Tarif Measure.

WASHINGTON, May 19.—In the senate today Hale, from the committee on appropriation, reported back the annual naval appropriation bill. The silver bill was taken up and Dolph addressed the senate. He thought that international bimetalism was desirable. In considering the various plans he was satisfied the plan proposed by the secretary of the treasury was open to less and to fewer objections than any others, if the purpose was to keep both gold and silver coin in circulation. He argued against the free coinage of silver as something that would stop the coinage of gold, but remarked that what he said in regard to free coinage did not, of course, apply to free coinage under the international agreement which established the ratio between gold and silver.

A FATAL FALL

A Man Who Stopped Off a Railroad Train at Ashland.

ASHLAND, May 19.—A man about fifty years of age, with a club foot, was found this morning covered with blood on the railroad track near Ashland. His skull was fractured and the man is not expected to live. Papers on his person showed that he was an agent of the Eastern Floridist and was named R. H. Brown. It is supposed he arrived here on the night train last evening and while the train was on the trestle stepped off, not knowing the distance to the ground, which was 23 feet below.

THE PRIZE KING

Peter Jackson Falls to Knock Out Ed. Smith.

CHICAGO, May 19.—Six thousand people witnessed the great five round match with four ounce gloves between Peter Jackson, the colored Australian champion, and Ed. Smith, the champion of Colorado. Smith made a good showing against the big colored man, standing up five rounds without suffering a knock out. In the first round Smith was knocked down three times, but in the second he landed repeatedly on Jackson's jaw and wind.

IN THE HOUSE

The house went into the committee of the whole on the tariff bill. The amendments offered Saturday by McKinley to the international revenue bill were adopted, as were also a number of others. The McKinley amendments affected the tobacco and snuff tax, among them being one that the international tax on smoking and manufactured tobacco and snuff be four cents a pound, and reducing the bond of cigar manufacturers from \$500 to \$100.

DIET KNOW TWAS LOADED

A Misdemeanor Made in the Auditorium Building.

It does not do for any one to fool with the Auditorium, by the way. A young participant in one of the komoi dances has been brought to a realization of this. The other evening he attended the full-dress rehearsal of the dances, and while he was free from the rehearsal he strolled into the upper regions to smoke what he considered to be a good cigar. This is a great illusion to represent thunder to the people in the audience, but to those on the stage it sounds more like a cyclone crash. When it started on this occasion the dancers quit and made a break for the orchestra. Part of them hopped over the footlights. Every one on the stage thought of the "demon sealer" and believed that the roof was falling in. It took a long time to reassure them, but they were finally quieted. The identity of the young man who had started the crash has never been discovered, but if he is found out before the komoi ends the chances are that they will take him up to the top of the chute and drop him down, just for luck.

A STORY WITH A MORAL

There is a moral in the following story, says the St. Paul Pioneer Press. It is true, and it is applicable to every position in the commercial, literary or professional world. It will apply to the most eminent lawyer and to the clerk in a corner grocery. A young St. Paul man applied to a well-known merchant in this city for the position of assistant bookkeeper. He was asked what salary he expected and replied: "Eighteen dollars a week."
