It is said that some of the Portland highlanders are in the city, and have been stirring up trouble among the Chinese.

THE GRAIN BAG BUSINESS.

A Campaign Lie Mailed As Attempt to Deceive the Farmer.

The State Rights Democrat is trying to help Mr. Weatherford out of the hole into which he fell when he said that the McKinley bill proposes to double the duty on grain bags. The Democrat on the tariff proposition helped to cut down Cleveland's plurality in Linn county to only 30 votes, and it will find that the people have not changed their minds on the subject.

The statement that the bill increases the tariff on grain sacks is simply a campaign falsehood. A comparison of the existing tariff law and the changes proposed by the McKinley bill is given in the report of Charles H. Evans, of the treasury department, which can be relied upon. The tabulated statement in the report is as follows: "Existing law 40 per cent., proposed law 2-10 cents per pound. Equivalents: Existing law 40 per cent., proposed law 40 per cent."

These figures are official and authentic. Mr. Weatherford took the pains yesterday morning to look this report up, and found it correct. The learned editor of the State Rights Democrat, however, manufactures figures of his own on the hypothesis that "if a pure grain sack weighs one pound and if the price ranges from 2 1/2 to 4 cents each in the market, or some other place, the duty will be exactly as the answer required."

Will these gentlemen have the courage to acknowledge their misquotation of the grain sack business, or will they go on trying to pull the wool over the eyes of the farmers?

Looking into this matter further we find in the same report of Mr. Evans that the manufactured grain for grain bags under the existing law is 35 per cent., and under the proposed law is 30 per cent., and further the raw material entering into grain sacks is absolutely placed upon the free list, which is done for the purpose of encouraging the manufacture of grain sacks in this country, a thing which the farmers of Oregon need.

Why Judge Bean Did Not Resign.

As indicated in the dispatches recently Judge R. S. Bean, of the second judicial district, after a full conference with the members of the state central committee for that district, held at Eugene, decided not to resign prior to the election. Chairman Lotan explained that the terms of the electoral circuit counts in Judge Bean's district came to close together at this time of the year, that he would not have time to examine a large number of equity cases, that have been argued and submitted to him in the several counties of his district in time to decide them before the election. Therefore, in case he should not resign, many litigants would be put to cost and delay, which might be avoided by his continuance in office until the next term of court in June. The committee is informed that Judge Bean has some fifteen or twenty important equity cases under advisement, and that in justice to himself and to the litigants, he could not pass on these cases without taking further time for their examination. The members of the state central committee for Judge Bean's district, after full consultation with him, conclude that it is his duty not to resign at this time.

Governor Penneyver.

Governor Penneyver will address the people of Albany today. It is a suggestive fact that he will speak here on an unlucky day, Friday being Langman's day.

When asked yesterday by a reporter how Penneyver was making it in his canvass, an old acquaintance of his, a democrat by the way, remarked: "If he were kept under a bush he would be a whole swarm of bumblebees, and would probably win, but let him have some and make a public canvass and he will hang himself."

In Linn county he has taken the top and is doing the work as predicted in his free-trade speeches.

Forest Pest—Insects From Lane County. West—Killed a Bear.

Forest Pest.—The fruit trees in this vicinity are badly afflicted with borers this year and no doubt the dreaded codling moth will soon get in its work. It was hoped the severe winter had destroyed many of these pests but it seems it did not. A great many trees have already been killed and others are nearly destroyed. They seem to take a particular liking to peach trees and as many as a dozen have been found around the roots of a single tree.

Catherine Farley, aged 24 years, unmarried, was examined before Drs. Cornack and Shelton last week and committed to the asylum for the insane. She was taken down Friday morning by sheriff Sloan.
