An Active Mining Season.

This year is destined to be a great one in mining. Already the prospectors are out in the hills following up the snow and carefully scanning a large extent of country. The rise in the price of silver has had a wonderful effect in stimulating the mining industry, and there is now a greater interest manifested than ever before. Every man who has a prospect is anxious to develop it, and those who have none are more than willing to secure some. It is a little early yet for prospecting in the high mountains, on account of the snow, but in three or four weeks it will have disappeared before the summer sun, and hundreds of new discoveries will be made and developed into mines.

Oregon Good Enough.

Mr. W. W. Thompson, assistant secretary of the board of immigration, has returned from an eleven days' visit to Chicago. The world's fair, Mr. Thompson says, has caused a big boom in Chicago. Oregon is well represented in the way of exhibits of cereals or fruits in the various railway offices. Seven of the eleven days he was in the big city Mr. Thompson had to wear his overcoat. The rain came down in sheets and the cold was disagreeable. He says: "After all, Oregon is good enough for me."—Oregonian.

THE APPROACHING CENSUS.

How It Will Be Conducted—Interesting Questions That Will Be Asked.

Yesterday morning the HERALD published the list of the census enumerator for Albany and the several precincts of Linn county. In response to inquires at their office as to the modus operandi of the census taking the following information is published:

Under the provisions of an act of congress "to provide for the taking of the eleventh and subsequent censuses," a census of the wealth, population, and industry of the United States on the first day of June, 1890, is to be taken next month. The enumeration must be completed on or before the first day of July, and in any city having over ten thousand inhabitants the enumeration must be taken within two weeks from the first Monday in June. It will be the duty of each enumerator to visit personally each dwelling in his sub-division, and each family therein, and each individual living out of a family in any place of abode, and obtain every item of information required by the law, it being the prime object at the name and requisite particulars as to personal description of every person in the United States, except Indians not taxed.

By a provision of the act it is made obligatory upon every person over twenty years of age to give true information to the enumerators under the penalty of a fine not exceeding $100. It is also provided that no census supervisor or enumerator shall give to an unauthorized person any information which has been gained by him in the pursuance of his duties, under the penalty of a fine not exceeding $500, and any census official found guilty of willfully making false returns shall be fined not exceeding $5,000 and be imprisoned not exceeding two years.

The schedules of inquiries will be: (1) Relating to the population, (2) to agriculture, (3) to general manufactures and particular industries, (4) to persons who have died during the census year. Supplemental schedules will relate to persons mentally or physically defective, crippled, maimed or deformed, or temporarily disabled by sickness or disease; also to homeless children, prisoners and paupers.

The special schedule will relate to surviving soldiers, sailors and marines in the war of the rebellion and widows, of soldiers, sailors and marines of the war.

There will be an enumeration made of all Indians in the United States, with such information as to their condition as may be obtainable.

In special instruction to enumerators relative to entries made on their schedules they are ordered to number the dwelling-house in ordered of visitation, number of families in this house; number of persons in the family; christian name in full, initial of middle name and surname. The relation of the head of the family must be reported, also color, whether white, black, mulatto, quadroon, octoroon, Chinese, Japanese, or Indian; age or nearest birthday and if under one year, the age in months; whether married, single or divorced; birth of individual and that of the parents. No child born after June 1, 1890, shall be entered, but on the other hand every person who has died between that date and the date of of the enumerator's visit shall be entered as though still alive. All information in regard to naturalization and time of immigration to the United States will be noticed; profession, trade, or occupation, and months employed during census year, attendance at school, illiteracy language spoken, and ownership of homes and farms must be faithfully and accurately entered in the proper schedule.

Eastern Oregon Wool.

The Ochoco Review says that wool is now coming in in great quantities, and the crop will be on the move toward The Dalles soon. The sheepmen and dealers say that the Eastern Oregon wool clip this year is of the best quality that has ever been produced. The fleeces are light and unusually free from dirt. The people over there, however, are complaining of low prices. This same wool is worth 20 cents per pound now in Albany.
