CAREFULLY INVESTIGATE. In matters pertaining to the business and financial relations of the people, it is always best to move with care and thoroughly investigate all the bearings of the question.

For instance in the matter of trusts, which are known to be pre-eminently the foe of the producer and working man, and as a general thing are to be safely made the objects of waged warfare, it may sometimes happen that it is safer to retain the apparent trust than it is to invite conditions that might be even worse.

This is illustrated in the action in California in the sugar trust business, just recently reversed by the decision of the supreme court of that state.

The Chronicle says that in granting the writ in prohibition asked for by Havemeyer and others against the superior court and Judge Wallace the Supreme Court of that state has not touched upon the legality or illegality of trusts.

That question will come up in another case, that of the people against the American Sugar Trust Company, which has not yet been heard on appeal.

Now comes the supreme court and grants an absolute writ of prohibition, and decides that the Superior Court had no jurisdiction to appoint a receiver in the case.

The result of the decision is to restore the property to Havemeyer and to reopen the American Sugar Refinery, the more remote consequences being a decline in the price of sugar to the consumer and setting to work of a large number of men who were thrown out of employment.

Trusts are no doubt an evil under certain circumstances, but that does not justify a court in exceeding its jurisdiction in seeking to cure that evil.

In the present case the practical and immediate effect of an attempt to suppress an alleged trust was to create an actual monopoly; and between trusts and monopolies it would be hard to choose.

It is a matter of pride for the entire Pacific coast, that the Union Iron Works of San Francisco, made the excellent job it did upon the United States cruiser Charleston.

When it received the contract for doing the work, it was predicted that the company would make a dead failure of the Charleston, as so large a piece of work could not be turned out successfully on this coast.

Now it looks very much as though the leading Eastern shipbuilders had been left behind in the competition for the construction of the two new cruisers.

From the position of an unknown shipyard the Union Iron Work has advanced to a place among the foremost in this country.

older boys who have drifted to this coast will remember the gallant Colonel during the time when all responded to the call of Father Abraham for six hundred thousand more.

It is useless to deny the fact, that a predominating majority of the people of Oregon are in favor of the free coinage of silver. They consider that silver is the poor man's money, that there is a shortage at present in the necessary amount of circulating medium for the use of the people, and that the free coinage of silver would help to fill that shortage.

These are facts, and all of the specious arguments that can be piled up cannot gloss over or cover those facts.

AFTER all the New York murderer Kemmerer is likely to be lightened into eternity by the use of the electric current.

The dynamo men with their utmost efforts tried to keep their constant and alternating currents from taking his life, but they could not succeed for their patents could not entirely hold the electrical currents. The lightning was too strong for them.

It will gall the Mormons to have the fruit of their tithes spent in the cause of Gentile education, yet this is what Senator Edmund's new bill provides.

Unless the senate gives assistance from their democratic sympathizers in congress the measure will be sure to pass. If Brigham Young is permitted any glimpse of the empire that he founded such a proposition as this would lead him to curse the men who have so successfully crippled the power of the Mormon Church and stripped it of wealth and influence.

Ignorance was the corner-stone of Mormonism, as of slavery, and free education will not be long sapping this bulwark against new ideas and customs.

Take Simmons Liver Regulator One Dose

WORTH 100 Dollars!

Dear S. L. R.: I consider one dose of Simmons Liver Regulator worth \$100. I was constipated, had headache, could not eat, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinine, and every remedy suggested, but only obtained temporary relief. One dose of S. L. R. did me more good than \$100 worth of doctors and drugging. Resp'y, J. C. MARVIN.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely cured by Simmons Liver Regulator. I found it to be of so mild a character in its action, as not to interfere, in the least with my duties in the school room. To those similarly situated and subject to the same, I cannot too highly recommend Simmons Liver Regulator. K. E. CHEEK Campbellville, Ky.
