All Want the Pheasants. The fame of the Mongolian pheasants brought here by Judge O. N. Henry, has spread far and wide, and people from all parts of the country are writing for information about them and wishing to get some of the birds for their localities. The latest party comes from William L. Campbell, of Denver, who wishes to procure a number of the pheasants to turn loose near that city. The pheasants have increased wonderfully in the Willamette valley, but whether they would thrive in the plains around Denver is quite another thing. It is rather a difficult matter to get a lot of live pheasants to ship, for the law does not allow of them being caught. There are a number of people in this section who have raised pheasants from eggs set under a hen. Perhaps some of these people will correspond with Mr. Campbell, and may be able to supply him. After the law protecting the pheasants has expired there will probably be no trouble in getting all the birds any one may want in Oregonian.

The Oregon Pacific. The people of this city who are interested in the progress of the Oregon Pacific railroad, have been expecting to hear the result of the election of the company, which, it is said, took place in New York last week. Thus far nothing has been heard from such election. The keen-scented news-gatherers in New York are evidently in the dark regarding it, as the dispatches we have received inform us about it. The Oregon Pacific Co. are usually very reticent about their plans, but they also go forward with their undertakings in their own good time. It is safe to say that Col. Hogg is still at the head of the company, and that before the summer is over they will again have their forces at work pushing the road eastward.

Another Grakeman Decried. Dr. G. W. Maston received a telegram yesterday from Philadelphia, stating that Grakeman Williams, from the Oregon Pacific, had been from a car at that place, receiving serious injuries. The telegram was taken to the hospital in Yaquina.

For a Permanent Gymnasium. Arrangements are now being perfected by the business men and others connected with the athletic club of this city to organize a permanent gymnasium. It is proposed that a country lot, situated near the city, be purchased to be used for a first-class gymnasium, which will be fitted up and managed in connection with the military company at the academy. It will be provided with beds and all the modern requirements for physical culture. Over half of the required stock is already subscribed. It will be a splendid, meritorious organization, and deserves a most successful success.

L. Smith, of Langdon, Idaho county; and John J. Brown, of Brownville, Linn county. There were over 500 competitors from various states of the union, and Linn county ranked all with two out of the five prizes.

An Albany Production. A new song, "Bright as a Starbeam," by Prof. H. C. Palmer, of this city, has just been published by Wiley B. Allen, of Portland. It is dedicated to Mrs. A. B. Seal, of Albany, and is pronounced by our critics to be a very pretty and brilliant composition. Prof. Palmer has also written a grand march for the musical instruction exercises on Tuesday night. Arrangements are being made to place them both on sale in this city.

Repairing the Bridge. A raft of piling was brought down the river from Seattle yesterday, to be used in putting in the false work and breakwaters at the Oregon Pacific draw-bridge at this city, which was damaged by the flood last winter. A force of men will be put to work at the same at once.

The Pendleton Eastern Oregonian reports that grasshoppers and crickets are overrunning the Umatilla reservation. The garden of Mr. Plucker, who leased the ranch of the chief of the Indian police, has been totally destroyed and his grain, every blade being stripped by the pests. The crickets are of the gray variety and are of immense proportions, while the grasshoppers make up in numbers what they lack in size. Jacob Reith reports that the grasshoppers are cleaning out his garden at his ranch seven miles down the river.
