20 CENTS A WEEK. ALBANY, OREGON, SUNDAY, JUNE 22, 1890. VOL. V.—NO. 27

**Notice for Publication.**

United States Land Office, Oregon City, Or., March 29, 1890.

NOTICE IS HEREBY GIVEN THAT IN compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington territory," Perminis P. Loub, of Port land, County of Multnomah, State of Oregon, has this day filed in this office his sworn statement No. 1977, for the purchase of the N E ¼ of section No. 19, in township No 11 south range No 1 east, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Oregon City, Oregon, on Wednesday the 20th day of August, 1890. He names as witnesses: A. Demorest, of Salem, Oregon, H. E. Rose, of Scio, Oregon, Wm. Teal, of Lebanon, Oregon, E. J. Cameron, of Lebanon, Oregon.

Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 20th day of August, 1890.

J. F. APPERSON, Register.

## ALBANY BRIDGE BILL

### It Is Passed by the Senate and Ready for the House.

**THE STORMS IN THE EAST.**

**Many People Killed and Much Property Destroyed—Sugar Takes a Tumble—Lottery Bribes.**

WASHINGTON, June 21.—The senate to-day passed a bill authorizing the city of Albany, Oregon, to construct a wagon and foot passenger bridge across the Willamette river at that city. The bill was introduced by Senator Mitchell, who had received a memorial from the municipal council of the city of Albany asking for the right to construct such a bridge across the Willamette river, a navigable stream.

**THE STORM'S RAVAGES.**

**Many People Were Killed and Property Damaged.**

AMBOY, June 21.—Reports from the surrounding towns show that the storm yesterday started at Harmon, Lee county, and proceeded to Sublet, Compton and Paw Paw. A great many were seriously injured. The storm's ravages were distributed over a distance of 30 miles. Thirteen are known to be dead, mostly children. The school house in Brooklyn township was completely demolished. The teacher and scholars were injured, two children meeting death. The loss so far as heard from is $100,000.

The report that the town of Paw Paw was destroyed and 17 killed is untrue.

**DOWN GOES SUGAR.**

**The Trust Holders Dismayed by Recent Legislation.**

NEW YORK, June 21.—Holders of sugar Trust certificates were dismayed this morning when they read of the unanimous vote by which the house adopted the conference report on the anti-trust bill, and long before the opening of business on the floor the exchange was surrounded by an excited crowd of brokers, discussing the effect of this action in congress. They soon realized what the effect would be, however, for when the chairman's gavel fell the entire crowd began to offer certificates.

At the close of business a decline of 7⅞ per cent. was noted. Many speculators who bought certificates above 80 last week are crippled, and it is feared they will have to liquidate on Monday.

**A Muddy Race.**

CHICAGO, June 21.—Uncle Bob won the derby, to-day, Sanitaga 2nd; Kinsburg 3rd; time, 2:55¾. The track was very heavy and the race was run fetlock deep in mud.

Uncle Bob, the winner of the derby was bred in Nashville, Tenn., and was named for the famous old darkey hostler at Belle Mead, "Uncle Bob." He was a colt so poorly thought of at a farm sale in the spring of 1888 that Uncle Bob bought him for $225. A few days afterward he sold him to Sam Pryor for $400. The next sale was by Bryant to Hawkins, of Chicago, three days ago for $15,000, two thousand more to be paid if he won the derby. The stakes which go to the winner amount to $18,000.

**ENORMOUS BRIBES.**

**The Lottery People Will Offer Ten Millions of Dollars.**

BATON ROUGE, June 21.—During the lottery discussion to-day Harris said he had received a letter from Morris which said that if the lottery bill was submitted by the legislature to the people he, Morris, would advance ten million dollars in 1890 for levee bunding and repairing in different parishes of the state and the same amount in 1891.

**No Chinese Need Apply.**

READING, Pa., June 21.—To-day Judge English refused the application of Chas. Ah Song for naturalization papers. Judge English held that there is no warrant in law for making a Chinaman an American citizen, no matter how respectable or worthy.

**Harvard and Yale.**

BOSTON, June 21.—The Harvard and Yale ball game this afternoon was very close and aroused much enthusiasm. 10,000 spectators were present. The score was Yale 8, Harvard 4.

**The Census Takers.**

PHILADELPHIA, June 21.—The returns of the census enumerators is almost entirely completed and the supervisions for the district gives the population of Philadelphia at 1,040,449.

## CHANGE IN TIME.

**SHORTENING THE TIME TO SAN FRANCISCO.**

**Important Changes on the Southern Pacific Railroad—The Oregon Express Train.**

SAN FRANCISCO, June 21.—On July first another important change will be made in the schedule of the Oregon express train. The time will be shortened three hours. When the change is made the train will leave here at 9 p. m. and arrive in Portland at 10 a. m. The reduction in time will largely be made by putting on a new train between Portland and Roseburg to accommodate the large local traffic and the making of the Oregon express a through train. By this arrangement twenty-three stations will be omitted.

**The Strange Beach off Portland Isle.**

From Chamber's Journal.

The curious natural breakwater of the "Caesil Beach" connects Portland with the mainland. A puzzle to the geologist, this wonderful beach is an example of the sea producing a barrier to its own encroachments, the destruction of one part of the coast becoming the means of protection to another. The heavy waves of the Atlantic are here barred; and during a ground-swell the ceaseless grinding of the pebble flints is heard, like the dull roar of thunder, for miles inward. In length about ten miles, its breadth at low tide is not above 200 yards, and at no place is it raised more than forty-four feet above high water. The pebbles which compose the beach increase in size toward Portland, and diminish to gravel where they merge into Brideport Sands.

From an antiquarian, as well as a geological point of view, the Chesil Beach is of the deepest interest, many curious relics being constantly thrown up—coins of gold, silver and copper, of mediæval or modern date, though those of the Roman Empire are most common. Sometimes antique rings are found, seals and gold ingots, with other spoils of the sea, wrested from the dead of ancient as well as modern times by the relentless storms raging in the dreaded bay.

**Oregon's Crops.**

PORTLAND, June 21.—The following was sent to-day by the Oregon weather bureau to the chief signal officer at Washington: The weather doing the past week has been cool and cloudy,. General rains prevailed, doing great benefit to the crops. The grain crop is now assured, except late sown and that will make good hay. The fruit prospects are flattering. Everything is thriving and doing well.

**The Oldest Marine Dead.**

POUGKEPSIE, N. Y., June 21.—Maj. I. T. Doughty, the oldest marine officer in the United States died to-day. President Jackson appointed him major of the marines and he served for forty years.

**Found Guilty of Murder.**

EUREKA, Cal., June 21.—The jury in the case of Chas. Bawden on trial for the killing of Lillie M. Price last January, after twenty hours deliberation, brought in a verdict of murder in the first degree.

### To Improve the Mail Facilities in the Northwest.

**LIGHT CROPS IN CALIFORNIA.**

**The Bankers at Spokane Declare in Favor of Free Coinage of Silver—Portland and Sound News.**

PORTLAND, June 21.—Thos. S. Stoddard, assistant superintendent of the postal railway service is now in this city, having arrived from the east yesterday.

Stoddard said to-day: "My instructions are to do all I can for the benefit of the mail service whenever I find a chance. I had a long interview with Postmaster General Wanamaker just before I left the department and he said he would like to have all complaints sent to him in detail, and for me to assure the people generally that these letters would be given his close personal attention and, if possible, he desired that assistance should be granted at once. If, however, it should impossible to bring about the desired result, letters would be filed and presented before a congressional committee for a plea for additional appropriations to cover the ground."

**WASHINGTON BANKERS.**

**They Heartily Favor the Free Coinage of Silver.**

SPOKANE FALLS, June 21.—At last night's meeting of the State Bankers Association, resolutions in favor of an increased coinage of silver were unanimously adopted as follows:

Whereas, the business interest of the entire country are suffering, a depression by reason of a too contracted currency; and

Whereas, it is the belief of this convention that an expansion can best and most safely be accomplished by the increased coinage of silver; therefore be it

Resolved that the action of our representatives at Washington favoring the coinage of silver to American production has our unqualified approval.

**MURDERED IN SEATTLE.**

**A Stranger Shot Down in a Down Town Dive.**

SEATTLE, June 21.—An unknown man was shot and instantly killed in the Sure Quelch saloon on Front street near Pike at 8 o'clock this evening by Geo. Wilk, a barkeeper.

The stranger came to the saloon with four other men, also strangers, and called for drinks which were placed on the bar.

The stranger then turned to the bartender and with an insulting air and an opprobrious name, said: "say, barkeeper, what do you do to a man who doesn't pay for his drinks?" Wilk replied pleasantly, whereupon the stranger repeated his inquiry in a more insulting manner and then asked what the barkeeper had to enforce payment with.

Wilk reached under the bar and pulling out a gun said, "I know nothing better than this."

The words had hardly left his lips when the revolver was discharged in the face of the stranger who fell over dead with a bullet through his head. His four friends rushed out of the saloon and have not been seen since.

Wilk at once gave himself up. He claims the shooting was accidental and that he was simply running a bluff. The identity of the man killed cannot be learned. The initials "C. K." were found on a shirt. He was about 35 years old.

**A BUILDING COLLAPSES.**

**Several Workmen Crushed by a Falling Wall in San Francisco.**

SAN FRANCISCO, June 21.—The falling wall of a building in the course of construction on Brannen street this afternoon resulted in the killing of John Killilie, 20 years of age, and the injuring of Michael Lynch and John Walsh.

These men with others were employed on the building, the entire number being seven, including Foreman Curry. A high wind and loose bracing is believed to have been the cause of the accident. The building was being erected for Police Commissioner Tobin and the contract was awarded to Francis Buckley. As soon as the crash was heard the streets were filled with people. A report has gone out that all the workmen were killed or severely hurt. Willing hands soon set to work to rescue the workmen. No sooner had one end of the wall been raised than the prostrate form of Killilie was seen lying on the joists, his skull crushed and life extinct. Lynch was jammed in between the joists, and the support given to the wall by his left shoulder prevented the entire frame from coming on his head. Walsh was found to be helpless and suffering greatly, and he was immediately removed to the hospital.

**Light Crops in California.**

SACRAMENTO, June 21.—The following weekly crop telegram was sent by Secretary Barwick to the chief signal officer at Washington to-day: Haying is finished and the yield is large. In Placer county peaches are coming in abundantly. The grain acreage of the state is below average; harvesting begins in a few days. A light crop is anticipated, but the quality is good. A full apricot crop is reported from San Diego county.

**A BRUTAL MURDER.**

**A Negro Coachman Who Cut His Wife's Throat.**

COLUSA, Cal., June 21.—Chas. Bell, a coachman and servant for F. W. J. Good, this morning stabbed his wife in several different places and then cut her throat with a large pocket knife. Both were colored. The woman will probably die. Bell escaped. The feeling against the man is intense and threats of lynching are made.

**EXCITEMENT IN FRANCE.**

**Over the Tariff Legislation in the United States.**

PARIS, June 21.—The excitement among French merchants arising from the difficulties caused by non-legislation concerning the importation of goods into the United States is spreading to the chamber of deputies and to newspapers. A few excitable people talk of retaliation. The government officials and the artistic community are both startled by the news that the finance committee of the American senate has stricken out a clause in the tariff bill putting works of art on the free list. There is a great outcry over this action.

**The Markets.**

SAN FRANCISCO, June 21.—Wheat buyer year 1891, $1.38½.

CHICAGO, June 21.—Wheat steady; cash 85½; July 86.

LIVERPOOL, June 21.—Wheat; red dem offer moderately; new winter 6s. 11d, steady; new spring, 7s, 1d, steady.

## MEXICAN UPRISING.

**A REVOLUTION THREATENS THE GOVERNMENT.**

**The Tyranny of the Government Daily Becoming Heavier—A Crisis Is Imminent.**

CHICAGO, June 21.—A Times special from the City of Mexico says information is given of an uprising in the mining state of Guanajuato, which is believed to be the beginning of a general revolution movement.

There are signs of uneasiness in government circles and a general feeling that a crisis is imminent. The tyranny of the government is daily becoming heavier, and it is almost certain that within a year Diaz will proclaim himself director. Only a revolution can prevent such a disaster to the republic.

**MOUNT SHASTA.**

**Ice and Snow Have Carried Away Rock From the Summit.**

San Francisco Chronicle.

Professor George Davidson of the Geological and Coast Survey gives a very plausible explanation of the new appearance of old Shasta.

"There is," he said "no crater at Mount Shasta. About 270 feet below the summit of the mountain there is an opening, from which hot sulphur vapors are constantly arising, but not in sufficient volume to be seen from the valley below. In 1875 the United States Coast Survey placed an iron cylinder twenty feet high and three feet in diameter on the summit of Shasta as a signal.

"In 1879, in July, Professor Colbona, who was my assistant at that time, made an ascent of the mountain and occupied the station there with two men for a period of ten days, the longest time any known being ever lived on the summit of Mount Shasta. Ice and sleet form in great masses around the signal some twenty or thirty feet high, and the atmosphere up there is very cold. Professor Colbonna told me that he could not place his heliotrope over the signal, but located it a little to the southeast on a ridge of the summit, the ridge being so narrow that he could 'straddle it,' as he expressed himself.

"My opinion is that a large mass of the accumulated ice and snow has fallen away from the mountain top, thus changing the appearance of things from below. In the summer time when the ice and snow melt away, masses of rock are continually falling away from the steep sides of summit. It is quite likely that an unusually large mass of ice had formed, and in falling carried with it a part of the rocky summit, thus changing the outline of the mountain top. The town of Sisson is only thirteen miles from Mount Shasta, and our signal on the summit can be seen from there, but not from Redding. A man at Sisson with an ordinary glass would be able at view the situation very distinctly."

The people of Sisson say that there is nothing wrong with the peaks, but it may be that their view is not the same as from Redding. The theory seems to be the accumulations of snow and glaciers have loosened a large quantity of rock on the apex, and that the crater which is known to exist on the north peak has swallowed it.

## THE DAY IN CONGRESS

### Congressman Hermann's Views on the Silver Question.

**AFFAIRS IN THE OLD WORLD.**

**The Czar of Russia Spelling for a Fight—Bulgaria Demands Recognition—Serious Complications.**

WASHINGTON, June 21.—In the house to-day Hermann, of Oregon, said the silver question was an issue of the election held four weeks ago in his state. He agreed to support the republican state platform, declaring in favor of the free coinage of silver. These, he said, were his sailing orders.

The silver bill now stands referred to the committee on coinage, weights and measures.

IN THE SENATE.

The senate to-day passed the house bill in reference to bigamy. It provides that all the funds and property lately belonging to the Mormons in Utah shall be devoted to the use and benefit of the common schools in that state.

**GERMAN AFFAIRS.**

**The Settlement of the African Territory Despute.**

(Copyright 1890 by the Associated Press.)

BERLIN, June 21.—During a prolonged selling of the Bundesrath to day Chancellor Caprivi, explained the aims of the government in concluding the Anglo-German agreement relative to the African territory. He dwelt on the great importance of Heligoland, and recalled the fact that during the war of 1880 it was necessary to detach a large force to guard against the French landing at the mouth of the Weser and Elber rivers and strong submarine engines to protect the water approaches to Hamburg and Bremen. He produced an opinion from Von Moltke that Heligoland would be so fortified that it would be equivolent to a large increase in the German army in event of war. The bundesrath unanimously approved the compact and congratulated the emperor and chancellor. The report that England spontaneously offered to cede the island is in direct variance with all reports here.

The opinion of the people of the island does not count with either government. Both know that the inhabitants are opposed to annexation to Germany, both on account of the dread of military service and customs regulations. Germany will make concessions on these points for twenty years.

The leading Hamburg journals regret the granting to England of a protectorate over Zanzibar, because it will place the whole trade in the hands of the English East Africa Co. Major Wissman has telegraphed similar views. All declare, however, that the acquisition of Heligland balances the losses elsewhere.

OMINOUS DEMANDS OF RUSSIA.

An ominous note was presented to-day to the porte by the Russian ambassador, Nelidoff. It suggests the intention of the czar to actively interfere in the Balkans. The note declines the request that the Russians wait until November for payment of the war indemnity by Turkey and demands immediate payment. The note declares that in the event of a refusal Russia reserves the right of taking all necessary measures to compel payment.

Yesterday the Bulgarian envoy presented to the porte a note from Stambouloff demanding the extension of religious liberty among the Bulgarians in Turkey and also the recognition of the Bulgarian government. Stambouloff is acting in concert with Russia without regard to the personal interests of Prince Ferdinand.

It is expected this action will develop a proclamation of the independence of Bulgaria under the prince, who will be agreeable to Russia, with the absorption of a part of Macedonia into Bulgaria.

**The Imprisoned Miners.**

PITTSBURG, June 21.—A dispatch from Dunbar late to night says the rescuing party have hopes of reaching the desired point this morning.

In Vienna practical philanthropy takes the shape of cheap eating houses for poor people. There are ten cooking kitchens throughout the city that feed an average of 1,000 people each and every day. The average cost of a dinner is 8 cents, and of a supper 4 cents, both meals comprising the varieties the common eating houses furnish.

A woman of Ionia, Mich., suffered with a pain in her side for twenty years. Last week a physician removed a needle that is supposed to have caused all the trouble.
