MONTERO, Ill., July 7.—A train of fourteen cars, with the K. of P. excursionists from South Illinois, for Milwaukee was derailed, except the four forward cars, by a misplaced switch this morning.

The rear portion of the train ran on the siding, except a chair car with the East St. Louis contingent, which turned upside down. The occupants numbering fifty were hurled against the side of the car. The sudden stopping of the train prevented a long list of killed. J. H. Crowder of Waco, Texas, was killed. Half a dozen were hurt, but no others fatally.

Between the two walls there is almost ten feet of thickness, the lower six feet being quartz bearing free gold. OREGON CROPS.

The Oregon weather bureau has issued the following crop bulletin for the week ending July 5:

The extreme heat of the fore part of the week did very little injury to crops. The weather during the latter part of the week, was very beneficial to the growing crops. Fall wheat is now generally past the point that the weather could injure it. Spring wheat is doing remarkably well, and if no unforeseen causes interfere the yield will be much greater than anticipated. The warm weather was beneficial to corn which is growing well.

Columbia county reports hay a fair crop, on uplands very good; in Washington county hay is an average crop; in Clackamas county fall wheat will be ready to cut inside two weeks, the crop will be an average one or more, spring wheat and oats growing well; in Yamhill, Polk, Marion, Benton and Lane wheat outlook is very promising, spring wheat will make more than was expected, corn, oats, hops, and hay will average well. Cod in moth is doing some damage, fall wheat will soon be ready to cut, heads are well filled. In Douglas county good crops are now assured. Josephine and Jackson counties will have fair cereal crop. Fruit crop will be large, except peaches, melons promise to be plentiful, berries are in abundance. Clatsop Tillamook, Coos and Curry counties will have very good crops, fully up to the average.

Hay is quite generally reported to be short in Western Oregon and reported to be an average crop in Eastern Oregon. Wasco county has indications of a better wheat crop than for years, the same for Morrow county. Sherman and Gilliam counties report average crops. In Umatilla and Union counties reports indicate a yield from 30 to 50 bushels per acre. Wallowa, Lake, Crook Grant and interior counties bid fair to make average or more than average yields. The present outlook is most encouraging for a fine harvest throughout.

A SENSIBLE VETO.

Governor Nichols Denounces the Louisiana Lottery Bill.

A PATRIOTIC VETO MESSAGE.

He Says Louisiana is Selling Her Birthright for a Mess of Pottage—The State's Disgrace.

BATON ROUGE, July 7.—Governor Nichols this afternoon returned to the house without his approval the famous Louisiana lottery bill. In his veto message, which is of great length, he says:

"The persistent efforts which have been made to present Louisiana as a pauper, unable by and through her own legitimate resources to sustain and carry out the duties of her statehood, are literally without foundation. The state and the different parishes of this state were never, since the late war, in a better condition than they are to-day.

"Suddenly the dark shadow of a deep disgrace is thrown across her path, and the honor of Louisiana, maintained in the past, on the field and in the council, and the patriotism, valor and sacrifices of her sons, living and dead, is to be tarnished forever. Her position among her sister states is to be estimated, not by what she has been, but in the dust, as a degenerate partner in a gambling corporation, designed, organized and to be carried out, not for her good or her advancement, but, as I have before said, for the personal and selfish interests of a handful of men, many of them connected with the darker days of reconstruction period.

"I repeat it, as for them, and to them, we are selling our birthright for a mess of pottage.

"I say to this general assembly in all earnestness that should this measure be passed we will enter upon a period of strife such as has never been seen before in Louisiana.

"Let me say to you that should this measure be adopted and carried out, in my opinion, no good will ever come of money which we will get as the price of our honor and our liberty. Extravagance, profligacy and corruption will as steadily follow its receipts as night follows day.

"I believe at the end of 25 years we will not only find constitutional bonds outstanding to the utmost limit of the bonding law, but believe there will be in addition an immense interest bearing debt."

Gov. Nichols concluded with a most urgent protest against this assumed condition of poverty in the state, and says the bill will continue to meet with his most determined opposition.

The bill was made a special order for to-morrow evening.

THEY ALL NEED SLEEP.

Seven Hours Set Down as the Minimum for Healthy People.

There is not one man or woman in 10,000 who can afford to do with less than seven or eight hours sleep, says De Witt Talmadge in the Ladies Home Journal. All those stories written about great men and women who slept only three or four hours a night make very interesting reading, but I tell you, my readers, no man or woman ever yet kept healthy in body and mind for a number of years with less than seven hours sleep. Americans need more sleep than they are getting. This lack makes them so nervous and the insane asylums so populous. If you can get to bed early then rise early. It may be as Christian for one man to rise 8 o'clock as it is for another to rise at 5 o'clock. Physicians say that a sudden jump out of bed gives irregular motion to the pulse. Give us time, after you call us, to roll over, gaze at the world full in the face, and look before we leap.

FLAG PRESENTATION.

The Gift of President Harrison to American Students at Paris.

PARIS, July 4.—The American Art Students' Association to-day received the flag which was sent by President Harrison. Mr. Reid, United States minister, made the presentation. Mr. Anderson, president of the association delivered an oration, and Mr Reid and General Porter replied. Six hundred and fifty guests were present. Anderson expressed to the students a sense of Reid's kindness in presenting with his own hands the flag which recalled to them their country and charged Reid to transmit the students' thanks to the generous donor of the flag.

Returned With the Chinese.

SAN FRANCISCO, July 7.—Charley C. Gards, the Chinese interpreter for the custom house, returned to-night from Tucson, Arizona, with the 24 Chinese who recently tried to smuggle themselves into the United States through Mexico.

SIX MILLION ACRES.

The Largest Land Sale in the History of America

SAN ANTONIA, July 7.—Information was received here to-day of the consummation of the biggest land trade in the history of the American continent. The parties to the contract were John Hancock of Austin and Robert Summerlin of San Antonio, acting for the owners and representatives of an English and Holander syndicate. The land lies all in one body in the State of Tamaulipas, Mexico, and comprises between 5,000,000 and 6,000,000 acres, and also 75,000 head of cattle. The terms are private.

A DAM BREAKS.

A Mighty Flood Sweeps Over the Fields in Nevada.

CARSON, Nev., July 7.—The dam at Price's Lake, on the Virginia and Truckee railroad, between Washoe and Carson, broke last night, the water sweeping trees, rocks and deposits of earth before it. The flood was 30 feet high and a hundred feet wide. Three men saw the wall of water coming and rushed down the rocky ravine for their lives. A point of rocks jutting out at the sides of the ravine caught the huge boulders and debris, piling it up for some distance and temporarily stopping the water, which saved the men's lives.

The flume was carried by the water into fields two miles away, and sand was piled on the Virginia & Truckee railroad track, delaying the passenger train fifteen hours. The water flowed away into Washoe Lake, doing no further damage.

RAILROAD ELECTIONS.

The Elections in the Big Companies in Portland.

PORTLAND, July 7.—The N. P. Terminal company, of Oregon met to-day and completed its regular organization by the election of officers as follows: Henry Failing president, C. A. Dolph, vice president; Jas. Simon, secretary. Executive committee: C. P. Huntington for the Southern Pacific; G. M. Pane, Boston, for the Union Pacific; James B. Williams, of New York, for the Northern Pacific.

The Oregon Improvement company was re-organized to-day. Their election resulted as follows: Elijah Smith, president; C. A. Dolph, vice-president; W. T. Wallace, secretary; Roswell W. Smith, treasurer and assistant secretary.

The Oregon & Transcontinental re-elected Henry Villard president; Colgate Hoyt, vice president; Paul Schultz, second vice-president; T. H. Tindall, secretary and assistant treasurer; Geo. A. Edes, treasurer and assistant secretary.

More Chinese Smugglers.

SAN FRANCISCO, July 7.—Chan Foo, charged with knowingly aiding and abetting in bringing into the port and county of San Francisco certain Chinese not lawfully entitled to entry into the United States from certain port or port in China, from the steamer Albany, appeared before Commissioner Sawyer this morning, and was turned over to the custody of the U. S. marshal, in default of $50,000 bonds, to await examination.

First Steamship Line.

SAN FRANCISCO, July 7.—Mr. Johnson, Pacific coast manager of the Pacific Mail Co., said to day that if the subsidy bill now before congress became a law, and his company secure the contract for carrying the Japan and China mails, a number of new and fast steamers will probably be built. The steamers now in use will probably be run between Acapulco and Panama.

THE SILVER BILL.

An Agreement Finally Reached by the Committee.

WHAT THE BILL PROPOSES.

The House Discusses the Bill to Forfeit Unearned Land Grants, and Restore them to the Public Domain.

WASHINGTON, July 7.—An agreement upon the silver question has been practically reached. It will provide for the purchase of 45,000 ounces of silver a month, bullion redemption certificates to be redeemable in coin and to be full legal tender.

The full conference report drawn up by Senator Sherman was adopted. The report will be presented to the senate at once. Sherman gave notice that he would call it up for action to-morrow.

The house went into the committee of the whole for the consideration of the bill to forfeit certain lands heretofore granted for the purpose of aiding in the construction of railroads, with the house substitute therefor.

Payson explained the bill in its general provisions. It proposes to forfeit and restore to the public domain all the public lands wherever situated, which have been granted in aid of construction where the railroads have not been completed at this time.

There have been 37 railroads aided by the act of congress which have not been completed within the time fixed by congress. The grants of 12 of those roads have been forfeited, comprising nearly 50,000,000 acres. This leaves 25 roads which have not been acted upon. Nine have been fully completed. That leaves 16 roads now uncompleted, and the house substitute recommends the forfeiture of the lands lying opposite such portions of the roads as are not now constructed. Pending further debate the bill went over and the house adjourned.

SNOW SHED BURNED.

A Stretch of 250 Feet Burned on the Central Pacific.

SACRAMENTO, July 7.—Yesterday afternoon a stretch of 250 feet of snow shed on the Central Pacific railroad was destroyed by fire at Stony Canyon near the Summit. Several sections of the shed had been recently demolished by derailed trains. As the point of yesterday's fire is one of the worst on the hill for snow, the burned shed will undoubtedly be promptly rebuilt.

PORTLAND, July 7.—Robert Hall, the census enumerator of Harney county, who after starting his work found he was not adapted to it, and so turned it over to another, had his examination before the United States commissioner to day. It was found that Hall, not considering himself competent for the work, had placed it in the hands of one who was, and so far from intending to commit any offense had used his best judgment in endeavoring to secure a correct enumeration.
