No Higher Up.

The Salem Statesman says: The Modoc reached Salem yesterday evening on her way up the river. She proceeds south this morning. This is probably her last trip above Salem this season, although it is the intention of the Union Pacific to keep her busy between Salem and Portland during the entire summer. The Hoag also came up yesterday. She goes to Corvallis this morning, and when she reaches that city on her next trip will tie up there until higher water.

Keep Off.

All persons are hereby warned to keep off from my premises for hunting purposes of any kind. The destruction of stock from the careless handling of shotguns has become unbearable, and as the only recourse I desire hunters to keep entirely off of my land.

THE NEW M. E. CHURCH.

The Corner Stone Laid Last Evening with Impressive Ceremonies.

The corner stone of the new M. E. church edifice at the corner of Third and Ellsworth streets was laid last evening in the presence of a large number of citizens.

The exercises began at 6:30. There were present Rev. S. P. Wilson, presiding elder; Rev. H. P. Satchwell, of Corvallis; Rev. H. Gould, of Shedd and Rev. F. H. Calder of Lebanon, who assisted the pastor, Rev. S. E. Memminger. The exercises, which were held in the open air upon a platform erected on the site of the church building, were opened with an anthem by the choir, followed by prayer and readings by the several ministers.

An address was delivered by Rev. S. P. Wilson, and remarks were made by the pastor and others. Several names were added to the subscription list to the building fund, which was increased several hundred dollars.

A tin box, containing the following list of articles, was then deposited in a receptacle cut in the center of the corner stone:

The bible.
Discipline of the M. E. church.
Hymn-book.
New York Christian Advocate.
Pacific Christian Advocate.
Christian Standard.
Sunday School Journal.
Morning HERALD.
Evening Democrat.
List of members of the church.
Names of trustees.
Names of subscribers to the building fund.
Names of the building committee.
Names of the pastor and presiding elder.

The corner stone was then placed in position, the box being placed in its receptacle by Wm. Ralston, the oldest member of the church and the stone being put in place by the pastor, assisted by members of the congregation and the ministers present.

The stone will be inscribed with the word, "First Methodist Episcopal Church, 1890."

The building will be a beautiful edifice. It is 76x68 feet, and will seat 600 people. The ceiling will be 29 feet high, and the spire will be 100 feet in height. The cost of the building, when completed, will be $9,000. The builders are Messrs. Conn & Cougle.

The Huntington Line.

The thirty-six Chinamen and one white man who were grading on the proposed Huntington, Silverton-East Portland line, on Butte creek, the Marion and Clackamas county line, six miles north of Silverton, have been drawn off. They finished grading one thousand feet, five hundred feet in each county. It is understood that a large force of men will be put on each end of this line, from East Portland south, and from Coburg to Springfield, Lane county. The writer heard it stated on good authority a few days ago that if the right-of-way cases in Lane county were settled, the force at Butte creek would not be increased, but would be pulled off; but if the right-of-way cases were not settled, the force would be materially increased and the work pushed. These cases were settled, and the work will be pushed at each end of the road. The same authority stated that the whole line from Spingfield to East Portland will be finished next year including the widening of the narrow guage from Silverton to Woodburn, which work is now in progress.

Fishing on the Santiam.

The people living up the Santiam above Brown's mill entered complaint to the fish commissioners some time ago about the manner in which saw-dust was thrown into the river, driving away the fish, also because of a dam constructed across the river at Brown's, preventing the fish from going up. The commissioners have returned from a tour of inspection up to that point on the Santiam, and will doubtless take some action in the matter. It is understood that they will recommend the construction of a fish ladder at Brown's mill. Large numbers of fine salmon trout are now in the river below the dam. Some ingenious fishermen have placed a net composed of gunny sacks just below the fall, and fish in attempting to jump over fall back in the net and are caught. They do not take to the most tempting bait of the anglers which has resulted in the fish trap scheme of pulling them out.

Oregonian Railroad Offices.

The Portland Oregonian says: The former ticket office and baggage rooms of the Southern Pacific in their headquarters building are the scene of the labors of busy carpenters these days. The rooms are being thoroughly rehabilitated for the use of the Oregonian Railroad Company's general offices. The front room, hitherto used as a waiting room, will be fixed up for the company's accountant, Mr. Williams; the next two rooms will be for Superintendant Scott. The back part of the building is being made into a large and very light draughting room, well furnished with windows and painted white inside. Here will be Chief Engineer Taspiera, and there will probably be a great deal of work in his department of Mr. Huntington's railroad lines.

The ruling passion in Agent Applegate's bosom prompted him to corral the Indians on the Klamath reservation on the glorious Fourth, in order to spread the eagle before them. The red men worked off their depression of spirits with an exciting game of base ball after the oration was ground out.

Elegant Lotion renders the skin soft and beautiful.

FROM UP THE CALAPOOIA.

Harvest Weather—Ladies Hurt by the Bridge Accident

CRAWFORDSVILLE, July 21.

This is as good harvest weather as was ever seen in any country, and the farmers are happy. Haying is nearly over, and while the crop is not quite so heavy as some years, the quality is good.

The two ladies who were so severely hurt in the bridge accident a few days ago, are both at Crawfordsville. They are getting along as well as could be expected, and it is hoped they will both recover.

The bridge across the Calapooia at Brownsville was finished last week, and after being without one for nearly six months the people appreciate the convenience of a good bridge once more.

Mr. Russel and family, of Ohio, arrived at Brownsville late Saturday night and were serenaded by the Brownsville cornet band. Mr. Russel is a son-in-law of Rev. A. LeRoy, of that city, and has come to reside in Oregon.

Last week a crowd of a dozen or so men went up to work on the Calapooia trail to the mines. It is the intention to put this trail through to the mines on the head of the Calapooia this fall. The Calapooia & Blue River M. & M. Co., of this city, have some men at work on one of their claims in the Calapooia district taking out ore, and other companies are preparing to work their claims, so that a very busy season is expected this year in this camp. Portland parties now have some good looking prospects in this section, and are preparing to work them. Another party starts to morrow to help work on the trail, and it is the intention to finish the work before the men return.

At the Opera House.

The presentation of the farcial comedy "A Pair of Jacks" at the opera house last evening was witnessed by a large audience. R. G. Knowles, as Judge Jack, and W. J. Russel, as Dr. Jack, are clever comedians, and delighted the audience. The support of the company is good, and they give a most enjoyable and surprisingly humorous entertainment.

RESOLUTIONS OF CONDOLENCE.

Resolutions passed by Oak Plain Grange upon the death of Brother William Cyrus Past master of the Oregon State Grange.

WHEREAS it has pleased God in His infinite wisdom to call from life unto death our worthy brother and past master of our State grange and

WHEREAS it is but a just recognition of his many virtues that we pay this last tribute to the memory of our departed brother; therefore be it

Resolved, That while we humbly submit to the inevitable we deeply mourn the loss sustained by our order.

Resolved that in the death of Bro. Cyrus his family has sustained the loss of a kind and indulgent husband and father.

Resolved, that in the death of Bro. Cyrus the community has lost an honest upright and conscientious citizen, a man untiring in his efforts to promote the welfare of his fellow man.

Resolved, that these testimonials of our heartfelt sympathy and sorrow be spread upon our minutes, that a copy be sent to the family of the deceased, that a copy of the same be sent the HERALD and Democrat for publication.

For the world's fair, says the Kitsap Pioneer, "the Tacoma mill proposes to cut and load on the cars at the mill gratis, the prize stick of the world. They have turned out a stick 150 feet long, squaring 30x30 inches, and claim that they can do much better than that. The three big mills of Kitsap county—Blakely, Madison and Gamble—are getting up a bit of rivalry among themselves although they are a unit in the matter of 'doing up' the Tacoma mills on the prize stick."

Mr. E. H. Morrison, superintendent of the Seattle & Northern railroad, states that the road is now in operation beyond Sedro and is being rapidly extended to Hamilton. Before this season ends he hopes to have the line continued up the Sauk river, a distance of seventy-five miles, where it will reach the gold and silver mines of the Cascade range

Richard Jones, an old and highly respected citizen of Long Tom precinct, Lane county, died recently, aged 55 years. He was a widower, his second wife having died several years ago. He leaves two grown sons by his first wife and a son and daughter by his second wife, aged 10 and 12 years, respectively.

The waterworks reservoirs at Grant's Pass were completed last week, and pipes and pumps will be in position for use in a short time. The electic light plant is also on the ground or en route from San Francisco, and before long will furnish the city light.
