Inquiries are being made from both eastern and western states regarding the prune crop in Oregon this year. No doubt there will be a very good crop, which will find ready sale at good prices. As a prune country, Oregon cannot be beaten, and ought to raise more of this saleable fruit than she does.

The State Press Association, which meets at Portland next month, will no doubt be an interesting and pleasant convention, as the officers of the body are using all efforts to make it a great success. A lady passenger on the west-bound train, says the East Oregonian, gave birth to a child while en route between Huntington and Baker City. The little one, which entered this world under such peculiar circumstances, hardly lived long enough to explore its new surroundings, as it started on a journey taken from the train at Pendleton and interred in the cemetery here. The mother is doing well.

SALEM INCENDIARIES.

They Proved to Be Three Small Boys Tender Years.

Friday morning Marshal Ross located the barn burners, and by a little rest at work he wrought a confession from one of the culprits before noon, and by three o'clock he had the youthful incendiaries under guard in the office of the city recorder. They were Tommie Townsend, aged 12, son of Thos. Townsend, 342 Summer street; Walker Tasker, aged 10, son of William Tasker, 335 Summer street; Dick Eley, aged 9, son of Hiram Eley, 397 Summer street.

These boys seem to have been organized, under the leadership of young Townsend, for the purpose of creating a little excitement and occasionally by burning barns. They say they were fond of excitement and set fire to the buildings solely for the purpose of seeing the fire engines and steam cars run and see the excitement attendant upon a lively blaze.

Tasker said he fired the Plamondon and Hall barns himself, for which he said he was to be paid ten cents by young Townsend. He said he and Dick Eley set fire to the McFadden and McAfee barns, Tasker striking the match and Eley holding his hat over it to keep the wind away. For this, according to their story, they were to receive twenty cents. The Watsons and Shivers' barns of Thursday had the same origin as the others, the price of the job being a white rabbit.

The boys' parents were sent for and in the evening at 8 o'clock they appeared before Recorder Conn, to see what punishment had been given the youngsters for the great crimes they had committed. After much deliberation, in which the matter was discussed in its several phases, it was decided to return the children to their parents, to be punished or reprimanded by them as thought best. The boys being so very young—the oldest scarce 13 and the youngest but 9—there could be found no just law covering the case.

It is to be hoped that their punishment will be severe as to make an example of them to other lads who might have thoughts of setting fire to houses or barns and to deter them from repeating the expensive experiment they have several times attempted.

Eastern Oregon Wants a Senator. If the river and harbor bill does not pass this session of congress some-body will be blamed, and if Mr. Mitchell comes up for re-election he will very likely receive no support from Eastern Oregon. Our necessities are such in this portion of the state that we are tired to remember our friends and not forget our enemies, and furthermore, we are entitled to a senator. Western Oregon has controlled the congressional delegation long enough, and it is high time that a change should take place. This part of the state has been too long subservient to Portland, the Cascade locks to the south of the Columbia and the upper river to the Willamette, and we should study our own interests in the future in preference to any other. The next senator should be from Eastern Oregon, and we should work with this single purpose in view.—Times-Mountaineer.

Albany is Alive. Though real estate is not as lively a sale as it was last fall, Albany is pushing ahead in the building line. The three-story bank building of the Bank of Oregon is nearing completion and with its stone and pressed brick front will be the finest appearing building in the city. Mr. Baltimore is erecting a large three-story brick block just across from the Russ House. Ex-district attorney, H. H. Hewitt, banker Kalsow and Mr. Conn are all erecting beautiful residences for themselves. The M. E. church, has the foundation for its new \$10,000 church-house laid, the formal ceremony of laying the cornerstone taking place this evening.—Brownsville Times.

A Fatal Accident. Mr. L. F. Rich was the victim of a fatal accident at Junction Wednesday. He was in the employ of the Junction Mill Co., driving the man which delivers the mill product. He was in the act of getting on the seat when the horse became frightened and ran away, throwing him from the seat which was a very high one, to the ground, breaking both jaw bones, the nasal and frontal bones. He died Wednesday night at 12 o'clock. Rich was in poor circumstances and leaves a wife and five children.

Farmers' Names on their Gates. Mouth Democrat: "Naming the roads and numbering the country houses is no a bad idea. The name of the proprietor on the front gate is a great help to find a farmer who wants to be found."—Journal. Yes, it would be a good scheme. It would assist the county editor considerably when he goes out with a number of bills of delinquent subscribers. Oh, yes, we are in favor of putting their names on the gates, and if there is to be a tax imposed for the same just count us in.

He Was Accommodating.

Yreka Journal: A Chinaman some days since, discovered a large California lion in the woods overlooking a large sized buck he had captured on Humbag creek. The lion would not let John pass, hence he returned to the camp, when a large crowd of Chinamen came the creek and drove the lion off. After securing all the good meat, they left for their homes, leaving the rest for the lion.

Low Taxation a Virtue.

The East Oregonian says the best way in the world to depopulate a city or county is to keep up expenses and thereby make it necessary to levy and collect exorbitant taxes. That system has been in vogue here long enough, and Pendleton and Unatilla county have had their full share of the trouble arising from it. Low taxation is the best virtue that a city or county can have, the only way to have this virtue is by cutting down expenses.
