ON SALE. The Daily Herald will be on sale each morning at H. J. Jones book store, where it can be procured at 5 cents per copy.

NOTICES ABOUT TOWN.

W. R. Bishop, of Portland, is in the city. Mr. W. F. Crosby has returned from San Francisco.

A baby gives gas for the painless extraction of teeth. The very best full cream cheese is Blackburn & Pironi's.

F. Hulbert and family have returned from a trip to Sodalville. Mrs. Humphrey, of Olympia, is visiting her old home in Harrisburg.

Capt. Patton of the steamship Willamette Valley was in this city yesterday.

A large invoice of our celebrated "Engineer" shoes just received at E. C. Searls.

Will & Link received this week a fine assortment of new sheet music and books.

Special prices made on all dress goods to make room for fall stock at G. W. Simpson's.

Miss Sadie Whitmer, of McMinnville, is visiting in the city, the guest of Mr. and Mrs. H. J. Sower.

Mr. R. A. Rumpy, banker of Harrisburg, accompanied by his daughter, was in the city yesterday.

F. W. Bowen, formerly superintendent on the Oregon Pacific railroad, returned to San Francisco last evening.

Cash paid for baler hay and oats at L. Senders' stables. Good prices will be paid for large or small quantities.

Look at gent's and boys' hat display in G. W. Simpson's window. He has just received his fall stock of the latest styles.

If you feel unable to do your work, and have that tired feeling take Dr. J. H. McLean's Sarsaparilla; it will make you bright, active and vigorous.

Mr. Arch Monteith came up from Portland Sunday evening. His wife and little son have been visiting at the residence of Mrs. Thomas Monteith for some time.

An intoxicated individual, claiming to be a pianist, created a disturbance in front of G. L. Blackburn's drug store yesterday, and was promptly taken off to the city jail by a policeman to sober up.

You cannot accomplish any work or business unless you feel well. If you feel tired, tired, tired, take Dr. J. H. McLean's Sarsaparilla. It will give you health, strength and vitality.—Foshy & Mason.

By the number of stoves and ranges going out from Matthews & Washburn's store, it is an easy thing to see that they have fully doubled the number of stoves and ranges sold last year, and they sold over three car loads last year.

The Roseburg Plumber says it is pretty definitely settled that the Coos Bay & Roseburg railroad will be built from Marafield eastward, and completed by December 31, 1891, so that Roseburg and Marafielders can exchange visits on New Year's day, 1892.

Mr. W. J. Hubbard, the veteran California hop man, with headquarters at Salem, has been transacting business in this city. He made one offer of 17 1/2 cents but whether or not it was accepted we are unable to ascertain. He entrusted his interests here with E. J. Daley.—Scio Press.

W. H. Settlemier, of Tangent, has just finished threshing a field of wheat lying on the south side of the public road, which turned out 40 bushels per acre. While this is a good field, it is duplicated in many fields in Linn county. Oregon is the only non-falling grain state in the union.

Donald McLeod arrived at Salem Saturday from Prineville, Crook county, in charge of a drove of 2800 sheep he had been pasturing on the mountains. They were six weeks in making the trip. They came the McKenzie route, crossing to the west side of the Willamette at Eugene and coming down on that side. At Salem they recrossed on the steam ferry and were driven to the Ankeny place, seven miles south of Salem where Mr. Leod will fatten them, after which they will be sold. The sheep of this large drove were all wethers.

Some Further Particulars. Some new developments have been made in the recent burglary in the residence of Dr. J. S. Hill. On Sunday Mr. Ulysses Hale found some surgical instruments buried near the Southern Pacific railroad track south of the city. They were found to be the property of Dr. Hill. The latter had not missed them until a day or two after the robbery. The traps evidently could find no use for the instruments, so they buried them together with some cartridges belonging to one of the stolen pistols. Some women saw the burglars about the house, but thought nothing of it at the time. It is learned that burglars also burglarized the residence of C. W. Watts. Mrs. Watts is absent from home, however, and Mr. Watts does not know how much was stolen.

Death of Dr. Sedgwick. Dr. Edward T. Sedgwick died at his home in Benton county, of poxite this city, on Monday morning, after an illness of two weeks, aged 57 years. The deceased came from Oregon from Minnesota a year ago, and until recently has been practicing medicine at Mill City. He was born in New York and was a graduate of the Bennett Medical College, of Chicago. He leaves a wife and five children.

WHY NOT A UNION DEPOT?

The Oregon Pacific Arranging to Erect a New Depot Building.

It is announced that the Oregon Pacific Co., is arranging to build a new depot building in this city this season, on which work is soon to commence.

If arrangements could be made between the Oregon Pacific and the Southern Pacific companies to build a union depot the interests of this city would be much better served. It does not seem that there is any reason to prevent this.

The trains of both companies already stop very near together, and a union depot would seem to be the natural thing to follow. It would add not only to the convenience of the people of Albany, but the public in general. So many trains arrive and depart from this city each day, and so many passengers change cars here on the different railroad lines leading from the city that a union depot would be a great public improvement.

The city council and the Board of Trade could not do better than to influence toward securing it if petitions were properly presented to the companies. It would at least be worth trying. The time to do this is before the Oregon Pacific's permanent depot is established.

Salmon Not Paying Out. People who think that the famous Columbia river salmon is becoming scarce are not disappointed. The pack of 1890 will be of good size, although several weeks of the best part of the season were lost by reason of the dead-lock between the fishermen and the cannerymen. The pack might have been 300,000 to 400,000 cases, but the market justified an extra effort.

As it is, our cannerymen have put up a good average pack and this, too, with a comparatively small number in operation. It is large enough for the market, under present conditions, although the general situation is not so bright as last year, on the whole. There has been a surfeit of cheap and trashy salmon, but this can hardly depress the market for our fine pack very long. Everything now indicates a heavily reduced pack elsewhere, as compared with that of last year, while reports thus far received from the north speak of small and poor grade fish. In contrast we have on the Columbia, as has been stated heretofore, the finest pack ever put up. Cannerymen are justified in holding it firmly, for there will be a market at fair prices for every can of it.—Columbian.

The Famous Elliotts. The Elliotts are as celebrated for the amount of traveling they have done as they are for their marvelous performances on the bicycle and unicycle. They have played in every country on the face of the globe, including England, Ireland, Scotland, France, Spain, Norway, Sweden, Germany, Denmark, Portugal, Russia, Italy, South Sea Islands, China, Japan, Australia, Brazil, Mexico, United States and Canada, and have been granted a special performance before Queen Victoria and others of the royal family. The famous Elliotts, together with a most excellent company of twenty-five artists selected from the leading theaters throughout the world, including the Imperial Japanese troupe, nine in number, will appear at the opera house Wednesday and Thursday night, August 6 and 7. The prices for this excellent attraction will not be increased but will be placed at 50 and 75 cents. Seats on sale at Will & Link's opera house music store.

He Was Enumerated. "Enterprise is what gave Tacoma such a seemingly large population as shown by her census," said a drummer for a well known California business house yesterday. "I was there shortly after the enumerators commenced work. Counted? Of course I was counted, and in a great shape, too. The first time an enumerator saw me I was on board a boat. I had to give not only my own name but also the names of my wife and four children. They were counted with the population of Tacoma. Two weeks later I returned and I was enumerated again. Now this is what I call enterprise. The Tacoma enumerators had the enumeration business down fine, and I presume those in Seattle did the same. Portland, as usual, is behind the time in adopting modern enumeration tactics and must suffer the consequences."

Oregon Press Association. On the 14th, 15th and 16th of this month the Oregon Press Association will hold its annual session in Portland, and the editors of the state will be entertained by their brethren of the city press. There are about 125 papers in the state, and the majority of them will be represented by the actual editor or publisher. This is an association meeting for business purposes, and not a mere pleasure excursion, consequently the responsible heads and controlling forces of the state press will be present.

Oregon Pacific Changes. Mr. J. Stevenson, superintendent of the Oregon Pacific railroad, has retired, it is said, and his place has been filled by Mr. Denham, recently from the East. Mr. J. R. Abby, the popular train dispatcher of the road has also retired, his place being filled by Mr. Charles Clark. Mr. Abby and Mr. Clark are both among the most popular of the company's officers, and Mr. Abby's retirement is to be regretted. Mr. Stevenson, the new superintendent, went to Corvallis, Sunday, on a special train to confer with the manager of the road.

LETTER FROM YAQUINA.

Pleasures at Oregon's Popular Summer Resort—The Delightful Surf Bathing.

Newport, Aug. 3, 1890. That this popular summer resort of Oregon is now receiving a lion's share of seaside visitors goes without saying. The hotels there are all filled, but the numerous cottages built for summer residences and the many white tents that dot the low hills overlooking the bay and ocean furnish ample accommodations for all that come.

The sources of pleasure and interest here are so many and varied as to make a veritable whirl of enjoyment for those so inclined, while those who desire rest can get it absolutely among the quiet retreats to be found about Yaquina, and an excursion of about 150 people came over from Albany last evening and spent the day here to-day. The points of interest that never fail to attract interest are the jetty and government work, the light house, the beach and the surf bathing.

The steamship Willamette Valley arrived from San Francisco to-day. The sight of a full rigged ship sailing into harbor was watched with intense interest by many. Your correspondent was visible from the deck of four who went out in a sailboat and met the steamer coming in, approaching the big ship near enough to speak to acquaintances on board as the vessel rushed by.

"The tide runs right for bathing at 2 o'clock," was a legend posted about Newport to-day. The number of hundreds of visitors lined the beach at the bathing houses near the end of the jetty. None of the indecorous or grotesque spectacles so often accredited to sea bathing was visible. Pretty, plump maidens, in pretty colored bathing costumes, elderly ladies in modest black and blue suits, and their escorts, plunged into the cool surf and disported among the breakers. It was a pleasing sight and was enjoyed even by those who had not the courage or inclination to try it themselves. The sea at Yaquina is very good, but the bathing is attended with an invigorating effect and this healthful pastime is becoming more popular each season.

Newport has had a week of theater and several pleasant dancing parties. There have been moonlight promenades on the beach, boat-riding, and numerous excursions to the lighthouse and down the beach to Seal Rocks, there being a steady party at Newport to carry passengers to the south beach.

Good hotels, an essential to comfort at the seaside, is possessed by Newport, where it costs only \$2.00 to \$2.50 per day to enjoy the best rock oyster, cold beer, or the favorite flounder, along with the regular menu.

Yaquina is pre-eminently the popular summer resort of Oregon, and with the growth and development of the great Northwest it will become more metropolitan, enlarge its hotels and other accommodations, improving its natural advantages to accommodate the thousands of visits who will seek rest and enjoyment there.

At Yaquina City are the Oregon Pacific and Oregon Development Company's offices, the machine shops, and the great freight depot where the steamer was unloading wares for nearly every city in the state. Through the courtesy of Capt. Patton and Mr. W. F. Crosby the writer and party were permitted to go through the steamer Willamette Valley, which is a right staunch and elegantly appointed vessel. She runs exclusively between Yaquina and San Francisco.

A Long Bicycle Ride. Chauncey M. Lockwood left the Journal office in Eugene last Wednesday morning, July 30, a few minutes after 4 o'clock, on his bicycle, and arrived at the Postal telegraph office in Salem, by way of Junction and Corvallis, at 6 o'clock the same evening, the distance being eighty-four miles, as registered by the roadometer on his wheel. He stopped at Junction for breakfast and at Corvallis for dinner, so that after deducting the time lost in stopping, he made the time of eighty-four miles on the wheel, over the dusty and uneven roads, in ten hours, being a little more than eight miles per hour.

Yaquina Passengers. YAQUINA, Or., Aug. 3.—The steamer Willamette valley arrived at 12:45 Sunday with the following passengers: A. B. Williams and wife, Dr. Jackson, Major Houghton, Mrs. S. M. Madison, F. M. Niles, Wm. Brenner, Charlie Brenner, C. Henderson, D. W. Rhoades, Farnth at Geo. M. Holdsworth, wife and child, G. R. Johnson, W. F. Gunther, O. W. Sanders, Mrs. Stanley, Miss E. Stanley, Miss B. Stanley, Brons Stanley, H. D. Stanley, C. E. Stanley, W. L. Jordan and wife, W. F. Crosby, W. S. Gilbert, P. Hornor, S. Honer, Mrs. C. Howard and four children.

Was He Murdered? The Scio Press publishes a long article, in which the writer says that the Chinaman recently found hanging to a tree near Munkers, did not commit suicide but was hanged by the Mongolians who found the unfortunate an unprofitable laborer, he having been sick for some time. There was some such suspicion at the time the body was discovered, but the circumstances go to show that he killed himself, and those who found the corpse came to that conclusion, which is probably correct.

THE HARVEST IN OREGON.

The Wheat Crop More Beautiful Than Was Expected—A Proliferous Fruit Yield.

The weekly crop bulletin of the Oregon Weather Bureau for the week ending August 2d, issued by B. S. Fague, observer, says: "The crop, partly cloudy weather was very favorable to harvesting operations which have continued during the week. The weather conditions have also been favorable to the crops not yet matured and to the ripening of fruit."

The wheat and oats are generally yielding better than was expected. The hay crop was much larger than was expected. The crops continue to be most promising. As was expected the peach crop is poor, the apple yield will be fair, the cordia much has done considerable injury. Plums and prunes will be especially plentiful. The grapes give promise of an abundant yield and vineyards are reported to be in a healthy condition. The yield of corn will be good. The yield of wheat on account of the dry nights when seeded and cool nights during the growing season.

Wheat yields of 40 bushels per acre are reported from various localities. Senator E. T. Hatch, McCoy, Polk county, has done thirty acres which yielded forty and a half bushels per acre. This may be considered an indication of what summer-fallow will average in this locality.

From the Willamette valley fruit reports set to yields have not been recorded. The number of bushels per acre from Eastern Oregon will average well. Waco, Sherman, Gilliam and Morrow counties have very satisfactory crops. In Umatilla to the west of Pendleton the wheat is poor, some will not yield over 10 bushels per acre, to the north and east of Pendleton it will average fully 35 bushels per acre. Union Co., will average from 30 to 40 bushels per acre. The most satisfactory reports are received from all counties.

A MIDSUMMER ITEM. Some Pointers That Will Save Money to Housekeepers. Go and see that beautiful gold watch at the "Golden Rule Bazaar." OREGON FRUIT.

A Demand for More Fruit Growing in the Willamette Valley.

Orders have been sent to parties in this vicinity to purchase all the Bartlett pears that can be found. The demand for green fruits of all kinds for shipment, promises well this season, and when farmers learn that the lack of market for their fruit is occasioned by a lack of fruit to supply the demand, this valley will be one vast orchard and thruit and prosperity will be at every farmer's door. Pears are reported worth from \$6 to \$8 per bushel in Chicago at this time, and with fast freights four or five days would place Oregon's products there; but unfortunately we have none to speak of for shipment. Anyone who will take the pains to ride a few miles out of the country in any direction, cannot fail to forcibly impress upon him the productiveness of this state for fruit—to see large apple and pear trees heavily laden with fruit, growing wild in the fence corners and in the forests and on the hillsides, coming from seeds that have had a chance to fall in the fertile soil.

The day is not far distant when the man who has a deed to 10 or 20 acres of good fruit land in Oregon will have a lucrative business. Fruit has been sold more than 1000 in California and the gold mines, and in a few years the new orchards that are being put out in this state will write "cancelled" across the face of many pages in the recorder's books.
