The New Northwest.

A seven week's tour in the Northwest has convinced the writer that there should be a redivision, or reclassification of the states of Washington, Oregon, Idaho Montana and Wyoming, classed as the northwestern states, and Iowa and the others hitherto classed as the northwestern should be called middle states. It is high time the geographies and political divisions should recognize that there is a new northwest that is making rapid strides toward being one of the most important sections of the union. The new northwest is a young giant and it will have a greater influence in the commerce of the word than all New England within the next twenty-five years. —Iowa State Register.

THE SHOOTING AT LEBANON.

Officers Searching for Banta—Further Particulars of the Trouble.

No arrests have yet been made of the participants in the shooting affray at Lebanon Tuesday evening. A warrant was issued for Banta's arrest on the evening of the shooting, but the officer did not attempt to arrest him until the following morning, when he was found to be conveniently absent. Sheriff Scott, of this city, went out yesterday morning to search for Banta, but late last night he had not been caught. There is a conflict in the reports as to whether Banta or his father-in-law, Williams, shot first.

S. H. Walpole, a young man who was with Banta, was in this city yesterday, and said that he had been run out of Lebanon since the shooting, because, according to his story, he would appear as a witness for Banta. He said that he was warned to leave town, and barely escaped with his life by leaping from a window at the hotel after a mob had broken into the room. He has the reputation of being a tin-horn gambler and was very much afraid he would have to go back to Lebanon and kill somebody. He appealed to the district attorney for warrants to arrest certain persons at Lebanon, but this was not granted. He then wanted a long article in his defense published in the HERALD. He said that unless protected he would be forced to go back to Lebanon armed and ready to kill three or four men.

All this fuss seems to have been made over the simple fact that Banta and his wife had separated, and that the husband had tried to see her against her will at the home of her parents, and a shooting affray followed, in which Banta was slightly wounded in the hand.

The Elliott Voyagers.

This celebrated company, including the famous Elliotts, together with a talented company of artists and the Imperial Troupe of nine Japanese, arrived in this city yesterday on their own special train. They have a large and expensive company. In the afternoon the Japs, in their oriental costume, were exhibited in a street parade. A HERALD reporter was, through the courtesy of Mr. Chas. Dunn, the popular manager of the Voyagers, invited to visit the Japs at the opera house during the afternoon. There are nine of them—four men, two women, two girls and a boy. They are remarkably brilliant children and the little girls are very pretty. They were dressed gorgeously in Japanese costumes and wore wooden shoes. They were as lively as crickets. They have been in America only a short time and cannot talk our language. As contortionists and athletic performers they are certainly wonderful.

The performance was one of the best ever seen in Albany. After an opening comedy sketch, the real performance began. It was simply marvelous. The contortion acts, juggling and seemingly impossible feats of the Japs was of itself a great performance, as was also the bicycle riding, hat spinning and other specialties. This evening the company will give another performance, with an entire change of programme. There should be a large audience.

Samples of New Wheat.

Samples of the new wheat crop are being received by shippers in Portland. The wheat from the Willamette valley is magnificient—never better—and the crop is turning out beyond all expectations. It will not be going too far to say that the wheat crop of the Willamette valley this season will be the best and largest ever harvested in that garden spot of the Pacific Coast. Samples from the Eastern Oregon crop are very satisfactory, being far superior to the crop of last year, but, in some instances, not so good as the crop of the year before. There have not been samples enough received yet from the Inland Empire to enable a judgment of the whole crop to be formed.—Oregonian.
