Exploded.

A strange and somewhat unaccounted for accident occurred in the machine of George Smith, while threshing on the farm of Mrs. Allen near Eola a few days since. While the machine was running at her usual speed an explosion took place in the cylinder and a flame flashed out of the mouth of the machine and set fire to the lee side of the thresher, and it was only by hard work that the thresher and and threshed grain were saved. The cause of the explosion is unknown. The straw had considerable fern in it and some think it was the dust from the fern which they say is combustible under favorable circumstances.—Salem Journal.

The Appropriation for Yaquina Bay Is $185,000—Oregon Stands Third.

BROWNSVILLE NOTES.

Mines Being Worked and Show Good Prospects—The Hop Crop.

BROWNSVILLE, August 19.—The woolen mills in this city have signed a contract to have an electric plant put in their works immediately.

The work on the trail to the mines is progressing, and inside of another week it is expected to be in daily communication with the camp.

Mr. J. W. Moore made a flying trip to the mines this week, and brought down some good looking quartz from the Poorman mine. The tunnel is now in something near forty feet, and the ledge is widening out very fast, and prospects well. Several parties here are going to the camp as soon as the trail is open.

Hops are looking very well in this section, and buyers are offering 20 cents per pound, but not many are being sold.

The Eagle Flouring mills in this city are behind with orders, and are running day and night.

Crops here are turning out well.

Professor Garland, who has been on the Calapooia trail at work, is again in the city. He reports the trail nearly completed.

The past week Mr. Thomas Kay, of Salem, and F. F. Croft, Esq., of Albany, were on a flying trip to this city, to make the necessary arrangements about the new road that is to be opened north of here parallel to the railroad.

Yesterday Dr. Lawrence and son, of Coquille city, passed this place on their way up the Calapooia to the mines. The doctor is an old resident of Calapooia, and is an expert and assayer, and will examine and test many of the mines before returning

The Cordray-Wass Company.

It was another delighted audience that witnessed the presentation of the thrilling drama "The Danites" at the opera house last evening by the Cordray-Wass Co. The play exhibited a scene of mining life during the days of '49 in California, and abounded in spirited and clever acting. Miss Essie Tittle, the leading lady, as Nancy Williams and Billy Piper, played a double role most admirably. Mr. R. E. French left nothing to be desired in the character of Sand, while Phil Ray, as "The Judge," kept the audience in good humor. The entire company is one of talent and merit. To-night they will conclude their engagement with the great spectacular success "A Sea of Ice," for which they carry their own scenery, and which is said to be one of their best productions. There will doubtless be a large audience.

Faults of indigestion cause disorders of the liver, and the whole system becomes deranged. Dr. J. H. McLean's Strengthening Cordial and Blood Purifier perfects the process of digestion and assimilation, and thus makes pure blood.
