A COLLISION NEAR AURORA

A misplaced Switch Caused an Accident to the Albany Road Train.

As the Albany road train from Portland approached Aurora last evening a misplaced switch caused the train to take the side track. The engine, which was in some freight cars and almost demolished the engine.

The passengers were badly shaken up, but no one was seriously injured. The passengers were conveyed to the overland train a half hour later, and were brought to this city last night, arriving about 1 o'clock.

A Pioneer Woman Gone. Mrs. Dr. R. C. Hill died at her home in this city yesterday at 12 o'clock at the advanced age of 81 years. She came to Albany from Tennessee in 1838 and with her husband, who still survives her, although in feeble health, has resided here respected and beloved by a wide circle of friends.

She leaves four sons, John W. Lair Hill, author of Hill's annotated code of Oregon laws, G. F. Hill, a prominent attorney of Seaside, Dr. L. Hill, of this city, and Taylor Hill, who resides in Eastern Oregon, all of whom except the latter were present at the time of her death and all of whom are well known throughout the Northwest. In the woman of Mrs. Hill a noble pioneer woman has gone to her rest. She was a member of the Baptist church and has spent a long and useful Christian life. The funeral procession will leave the residence at 3:30 and the funeral services will occur at the Baptist church at 4 o'clock, and will be conducted by President Brownson of the McMinnville college. The remains will be interred in the Masonic cemetery.

THE HOP CROP

The Yield Will Be Lighter Than Last Year, but the Quality and Price Good.

The New England Homestead's carefully prepared report of the hop crop of the country shows that the yield in New York state, particularly in the western part, is an average yield of all hop-growing territories of a full crop. In New York state only three quarters of an average crop will be harvested.

Massachusetts, which grows 70 per cent of the crop, will yield 75 per cent of a full crop, or 30 per cent more than last year. Wisconsin, 60 per cent, and California, 90 per cent. The hop crop alone is sufficient to send us up, but added to this is the fact that most of the hops have passed out of the hands of growers. Prices have reached 40 cents a pound in New York and 27 1/2 in California. Prices offered in these two states govern the sales in other states. One-third of the crop was contracted for early in the season at prices ranging from 16 to 25 cents. Growers generally held their crop for an advance and are sure one will come. While the crop is so good, the quality is better than usual. The yards are free from lice and nothing has injured the quality of the crop. Dry weather has checked the making of the vine, which accounts for the high yield.

In the Willamette Valley it is now almost to quote hops at 30 cents, for sale at that figure are reported from every direction. Offers have been made in several instances for fields at a still better price. The market on the Sound is about showing almost no advance, clearing out at 10 to 12 cents, that as much as 40 cents will be paid before picking commences. The Oregon hop growers will make money this year.

MR. FISHER REPLIES AGAIN.

TO THE EDITOR OF THE HERALD: Please permit me to state in the Daily Herald, in defense against the slanderous assault made upon me by D. M. Jones in the HERALD of Aug. 27th.

In referring to me, Mr. Jones says: "At the recent conference session his term of office expired." The Dr. has not stated his discipline very well, or else he would know that my term does not expire until my successor is appointed, and as for "sounding my retreat" I would say, the house belongs to the Evangelical association, and I am happy to say we are in good hands, not suffering, but well cared for. This, I have said, that there are only five or six of the members of the A. M. society who hold with the position of "A" or "B" or "C" or "D", and I say so yet. The Dr. uses the names of sixteen persons who he claims hold that position, some of it, if not all of those names, he uses without any authority whatever. I know where I speak of Jones, let us now this matter stands. Dr. McGregor and Mrs. Clara Deinger with withdrawal soon after the opening of the Oregon conference in May last, hence I, of course, do not count them among the five or six, they are no members of the A. M. society, who lives beyond the math was formerly a member, but his name has long since been stricken from the record, marked "moved away." The same is true of Mrs. H. M. Jones, who lives at Lebanon. I do not know how these parties stand, did not concern myself about their opinion, as they have not been members for more than a year. Mrs. Augerbright has moved to Halvey about a year ago, and I have given her a good letter to unite with a sister church, and she has done so. As for Eliza M. Trux, I have not been able to learn her position since she lives in the country, and has not been attending church for about a year. As for Mrs. Ross and Loggins, both of them claim to be neutral, as do several all other considered. Esther Warner as neutral, hence I did not count these three, so then there are left those who hold with the opposition D. M. Jones, Mrs. D. M. Jones, Susan Purdon, Leona Purdon and Harriet Helton, five, and Father Parsons, when living made the sixth. Reader, who has misrepresented the fact? As for Father Purdon, all I have to say is this. He and I were warm friends until the matter came up, there existed no shadow of a personal feeling between us of my knowledge. I respected Father Purdon, and his opinion which differed with mine, he had a right to. I considered him a good man, the leaders of the rebellion in our church are responsible for deceiving him. I am sorry he did not live to witness the grand victory of the church in the near future, and the complete overturn of this wicked rebellion. Peace to his ashes.

As to the Doctor's misrepresentation about that "key" with which he locked the door of the church on that memorable Thursday night May 31, 1890, while the opposition men were somewhere in secret session whipping into line the "weak brethren." I have this to say. There were two locks on the church door, a key to each of them were in my possession, nobody was "tampered" with the lock, nothing was done with them. The large lock, which has only one large brass key, which was then, and is yet in my possession, is the key that barred the door against the seceders on Friday morning May 31. Anyone wanting this can be convinced by calling at my home, and I will gladly prove to them that it was the big brass key that did the work. All honor to the big yellow key, it will be a relic when the war is over. The Dr. says "Mr. Fisher has been seen dropping." Where Dr.?
