There may be persons in this community who are at times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost immediate relief, and when reduced with water is pleasant to take. If taken as soon as the first indication of the disease is felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25 or 50 cent bottle may be obtained from Foshay & Mason, druggists.

The Astorian says: An almond-eyed denizen of the land of Confucius, arrayed in gorgeous attire yesterday, created quite a sensation near the postoffice and for a long time held an interested party of men, women and children, many of whom belonged to that race whose eyes are cut on the bias. He was "alle same Melican doctor," for he was selling medicine. He had several short iron bars which he would flourish mysteriously, then strike his leg hard until the flesh was all beaten and bruised, and would turn "black and blue," then he would take his all-healing preparation, rub it on the bruised limb, and as if by magic, the flesh would resume its natural saffron hue and the swelling would disappear. Of course he sold plenty of medicine.

MACHINERY SENT FORWARD.

The Santiam to Be Developed as Soon as Machinery Can Be Erected.

The Albany Milling and Mining Company started the machinery to their mining camp, in the Santiam district, yesterday. It will go as far as Gates, on the Oregon Pacific, from which place it will be taken by teams under the charge of Mr. John Leedy, who has taken the contract to transport it and a large quantity of lumber from his mill to the mines. The old Quartzville road has been put in repair for the purpose.

The machinery consists of a latest improved concentrator, one equivalent to a five-stamp mill, and a steam boiler, an engine having been already placed on the ground.

The trucks also for a 1000-foot tramway have been constructed, and will be sent on, with enough steel rails to lay a double track for that distance, so that a loaded car down the grade will haul the empty car up the grade.

A thoroughly posted man in manipulating ores will come from San Francisco and take charge of the work at the mines.

The work will be prosecuted with vigor, and from indications already ascertained the results will be eminently successful. If expectations are consumated an unprecedented growth of business in Albany may be looked for. Certainly the developments already made point to that desirable result.

Harry Preston Arrested.

Sheriff Jas. S. Birdsey, of Jackson county, came down yesterday morning from Jacksonville and went to Corvallis after Harry Preston, a printer, wanted at Jacksonville on a charge of stealing clothing. A dispatch was sent to the sheriff of Benton county, Tuesday, to arrest Preston, and he awaited the arrival of the Jacksonville authorities in jail. He was brought to this city last evening and went down on last night's train. Harry protests his innocence very emphatically. He says his arrest took him by surprise and thinks there must be some mistake. He has been residing in Jacksonville for nearly a year, prior to coming here about ten days ago.

Lodge Organized.

Pig Iron Lodge, No. 135, A. O. U. W., was organized Monday evening at the Oswego iron works, with twenty-eight charter members. The following officers were elected for the term: Albert Walling, P. M. W.; Henry Gans, M. W.; P. Jarnsch, foreman; A. J. Thompson, overseer; R. F. Straus recorder; W. S. Hallnan, financier; George Shepley, receiver; W. S. Smith, guide; John McGrath, I. W.; A. C. Walling, O. W. Pig Iron Lodge is a very appropriate name, as that is the principal production of Oswego.

Why Not.

It is reported that Mr. Huntington has offered the use of the iron and rolling stock of the narrow guage road, as soon as the change is made to the standard guage, to build a road from Brownsville to the Calapooia mines. If such is the case the offer should be accepted and the road built. Or the same lay out a road might be built from Lebanon up the middle fork to the Santiam mining district, and become a paying venture. The matter is worth looking into and taking action upon.

A Needed Record.

There is lacking in our county records one book that is very essential and should be immediately procured and properly kept, which heretofore has never been accomplished. It is a concise record of the justices of the peace for the different precincts. The election returns are inadequate for this purpose and very unsatisfactory sources to gain a knowledge of those officials' standing—a knowledge that is very often in demand.

Painful Accident.

John Dick, while working on the Baltimore building yesterday afternoon, had a narrow escape from being killed. A brick fell from the upper story, a distance of forty feet, striking Mr. Dick on the head, cutting a severe gash. He was stooping over at the time, and the brick struck the top of his head, glancing off, or he would probably have been killed instantly. The brick was broken by its contact with the man's head.

Commendable Enterprise.

Miserable Miscreant.

There was a fellow who gave his name as Baker and claimed to live in Polk, whereby thanking his stars for the lenient manner in which he was handled by a justly angry and indignant crowd near Stayton Saturday night, according to reliable information received by the Journal. He, among a large crowd of pickers, was working at the hop yard of Mr. Bilyue, near Stayton, and all of course occupied sleeping tents in such groups as were convenient. One tent was occupied by two young ladies alone, and about 11 o'clock the night in question, the wretch Baker stole to crawl into this tent before his approach was discovered. The girls were frightened almost out of their wits and the fellow threatened them with instant death if they stirred or made an outcry. But they did not parley nor heed the threat, but shot out under the tent and ran for life to neighbors not far off. They had recognized the ruffian and told the camp what had happened. The men gathered and a dangerous disposition existed for a short time, but they finally sought him out and gave him very short notice to leave that part of the country and keep a safe distance away. The only mistake they made was in not donating him an overcoat that would make him look like a shanghai rooster. —Salem Journal.

Land Surveys.

Hon. R. A. Irvine has been interesting himself in the matter of having the public land survey extended, and is in receipt of the following from Senator Mitchell upon the subject:

UNITED STATES SENATE,
WASHINGTON, Sept. 9, 1890.

Hon R. A. Irvine, Albany, Or.:

My Dear Sir—I beg respectfully to acknowledge receipt of yours of September 1, enclosing letter to you from Mr. J. C. Mayo, of Butte, Mont. I have been doing, and will continue to do, all in my power to secure the surveys referred to in your communication.

Yours very sincerely,
JOHN H. MITCHELL.

A Ripe Old Age.

J. H. Holcome and wife, of Belcherville, Texas, have celebrated their fifty-fifth wedding anniversary, and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid serious sickness. Like most every one else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's Pills in preference to any other, because, as Mr. Holcomb says, "They are a mild pill and, besides keep the whole system in good order. We prize them very highly." For sale by Foshay & Mason. Druggists.

Motor Line at Coos Bay.

The Coos Bay region is bound not to be behind in the matter of street railway facilities. A company has been incorporated to build a motor line from Marshfield to Yarrow, while a ferry will connect with Glasgow City and thence on to South Bay, a beautiful spot on the coast near Cape Arago, where there is a fine beach for bathing and which is a favorite summer resort for the people of that section. The line, when completed, will be about ten miles in length and will place Marshfield and Empire City within ten minutes of each other.

A Short Tether.

Julius Schmidt, the unprincipled villian who induced Miss Mary Schlosser to go away with him, found the end of his rope very quickly. A telegram to Chief of Police J. N. Hoffman yesterday inquired if he was wanted here, and stated that he was on trial for polygamy at Jacksonville. Later reports say that not enough evidence was produced to hold him, and he was turned loose.

The Rev. Phillip Brooks is loyal to Boston even in his lines of travel. He is now on his way home from England on the steamer Cephalonia, which runs to Boston directly, instead of coming on a finer and more fashionable boat by way of New York.

Miss Amanda Anderson, of Georgia, is 60 years of age and has never traveled more than a mile and a half from the spot where she was born. Though there is a railroad within three miles of her house she has never seen it. She has never seen a brick house.

The presentation to Field Marshal Von Moltke on his approaching birthday, from the Fatherland which he served so faithfully, will take the form of a general address from all the town in Germany. The signatures of each separate province are to be bound in a book and all the books are to be placed in a splendid carved cabinet, which is to be made for the purpose.

An Enjoyable Entertainment.

The Oakes Swiss Bell Ringers and Comedy Sketch Club, which occupies the opera house in this city on the evening of Sept. 22d, gains the following encomium from the Lincoln, Neb., Journal: "A very enjoyable performance was given by the Oakes' Swiss Bell Ringers and Comedy Sketch Club at the People's Theatre last evening. The audience that greeted the first appearance of this company here was large and enthusiastic, and for nearly three hours the house rang with the plaudits of the crowd. The Sketch Club came to Lincoln unheralded with glittering and overdrawn press notices but the entertainment of last evening fully demonstrated the fact that the company travels on its merits, and the sign of approval manifested on all sides was evidence enough that the performers were artists in their line. The bell ringing, by John and Alice Oakes, made a decided hit, each rendition being met with a storm of applause. The wonderfully sweet music brought out by them from tumblers partly filled with water was duly appreciated. Frank Hollister exhibited his powers as a specialty comedian in his act "The Yankee Farmer from Squashtown," in a manner that fairly convulsed the audience; he introduced old-time dances, songs and stories of candy pullings, parn' bees, corn huskings in irresistible down east twang. Mr. Hollister is an actor of experience and unlike many comedians of the day, he does not overdo his acts. Harry Eades also appears in a number of sketches in which he displays to a remarkable degree to what uses the facial muscles may be put. His imitations of different characters in every stage of physical development, in which the face largely figures, were marvelous exhibitions. His sudden facial changes were most humorous and grotesque. The violin playing by Mr. Korn and the harp solos by Alice Oakes were very good. The performance was a good one and proved a success.

The Oakes Swiss Bell Ringers and Comedy Company which pleased the citizens so much on their appearance here about a year ago, are coming again. They will be here on the 22d of this month, and will be greeted by a full house, for they are good. On their appearance at Huron, Dakota, the Leader of that place said: "Those who attended the vocal and instrumental treat at the opera house last Saturday night pronounced the Oakes Swiss Bell Ringers and comedy Sketch Club a little out of the common order of traveling troupes. They frequently stirred the house in attendance, who favorably expressed themselves in relation to the entire exercise. The solos were excellent. The English comedian, Harry Eades, with his mirth-provoking melody and his funny faces, interested the crowd amazingly. Frank Hollister, the artistic banjoist and character vocalist, was encored to the echo. It was an acceptable and interesting affair. The company will do well to come again."
