Morning Daily Herald

Reconverting Heat and Light.

From the Pittsburg Commercial Gazette.

It is quite notable that in the course of time we will be getting our electrical energy from the power stored in the water and air. If not from these it will come direct from the heat of the sun or from artificial heat. In the course of four years of experimenting M. Mouret Norton has established the fact that when the sun's rays fall upon an irregular iron surface, metal or carbon, they communicate thereto a positive electrical charge which increases with the intensity of radiations and decreases with the hygrometric state of air. At Paris the electrification is greatest at about 1 P. M., when the air is clear and dry, but it disappears as the clouds pass nearer the sun. The accomplishment of an hitherto impossible feat—the useful transmission of mechanical work directly into electricity—is claimed by Professor Braun, of Tubingen. He winds nickel wire into spirals, and, as each spiral is elongated or compressed, a current of considerable strenth is generated. This is increased by putting a number of spiral in parallel. Such positive results are stated to have been attained that the professor is hopeful of being able to construct a practical generator on this principle. The sun is the prime source of electrical energy, and the nearer we can get to the fountain head the better will be the results. At present we have to go a very roundabout way to get at the sun's energy. When the earth was being formed vast quantities of this were deposited in the form of coal, and there being continually deposited in the growing wood. In order to utilize it we have to connect the coal and the wood into heat, energy, then change it into steam, which, by means of an engine, is converted into motion, which, by the aid of a dynamo, is converted into electrical energy, which in turn, is changed back into heat and light. The loss in energy in this long process is more than one-half.

Take Simmons Liver Regulator One Dose

WORTH

100 Dollars!

DEAR S. L. R: I consider one dose of Simmons Liver Regulator worth $100. I was constipated, had Headache, could eat nothing with satisfaction or appetite had the blues, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinine, and every remedy suggested, but only obtained temporary relief. One dose of S. L. R did me more good than $100 worth of doctors and doctoring. Resp'y, J C MARTIN.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely cured by Simmons Liver Regulator. I found it to be of so mild a character in its action as not to interfere, in the least with my duties in the school room. To those similarly situated and subject to the same, I cannot too highly recommend Simmons Liver Regulator.

The Pride of Woman.

A clear pearly and transparent skin is always a sign of pure blood, and all persons troubled with dark, greasy, yellow or blotched skin can rest assured that their blood is out of order. A few doses of BEGGS' BLOOD PURIFIER and BLOOD MAKER will remove the cause and the skin will become clear and transparent. Try it, and if satisfaction is not given it will cost you nothing.
