NOW

Our buyer has got us in a muss a tin, and to get out we have got to make close prices on heating stoves. To our stock and we are bound to unlead it price will do it.

Garland, Monitor, Argand and Superior Ranges. Cooks and Heaters, Hardware and Cutlery:

AN INDIAN WAR.

Captain Trimbleton Thinks It is Inevitable. TO SELECT OTHER LANDS.

The Opium Story Denied. Envoys Just Expected in Large Number. Appropriation Received.

PITTSBURG, Sept. 26.—Captain Trimbleton, of the Seventh U. S. Cavalry, commandant at Fort Sill, passes through Pittsburg to-day. He says the greatest Indian uprising of the present time is certain to come soon. The whites have got an idea that a great medicine man is coming to wipe out the whites and restore to them the ownership of the country. The result is they have entered with the fever of Indians upon a series of incantations and religious exercises. Five thousand Indians about Fort Sill have renounced Christianity, and he is certain that in a short time somebody will be deluded to be their expected great medicine man and then the trouble will begin. He thinks all the U. S. garrisons should be doubled.

CAN TAKE OTHER LANDS.

In Lieu of Northern Pacific Identity Lands. WASHINGTON, Sept. 26.—The bill which the house has finally passed, after the conference with the senate, for the relief of the settlers on the Northern Pacific identity lands applies to four hundred settlers, who entered upon the land in northern Minnesota. It allows those who made settlement upon the lands in good faith, and were qualified to do so to make settlement on other lands within a year, and be allowed upon those of other lands the benefit of the length of time they resided, as settlers, upon lands upon which it has been decided they had no right to make entry.

SEVERAL APPROPRIATIONS.

Congress Pushing the Work Along Rapidly. WASHINGTON, Sept. 26.—In the senate to-day Sherman introduced a bill which was referred to the committee on appropriations, appropriating \$133,000 for the purchase for the use of the senate, of a building house, for the crossing of New Jersey avenue and B street, northwest, with vacant lots on the north side of it. He said the reason why its purchase had been so long delayed was that there had been litigation as to the title. The report for the establishing of a 200-acre park in the District of Columbia was passed. House bill jointly appropriating \$1,000,000 for the purchase of nickel matter for naval purposes was received from the house. Cameron offered an amendment providing that such nickel ore or nickel matter so purchased shall be equitably distributed among the contractors of nickel steel armor plating.

Denies the Charge.

Victoria, B. C., Sept. 26.—U. S. Consul Meyers emphatically denies sending any dispatch to the treasury department in reference to the Victoria schooner Haleyon. A telegram under a Port Townsend date gave him authority for the statement that the Haleyon is now on her way to China with a full cargo of opium, to be smuggled, if possible, into the United States. Meyers also denies sending any reports referring to the return of Victoria schooners to the Behring sea for the winter sealing, which the correspondent credited to him. Both statements were made in connection with the conjectures of the Port Townsend correspondent as to the destination of the cutter Wolcott.

A Large Immigration Expected.

New York, Sept. 26.—Hebrews here expect a great influx of Russian Hebrews. The committee which has charge of Baron De Hirsch fund for this country, \$10,000 per month, will hold a meeting in about two weeks to consider the probable increase and take steps for sending immigrants to western points.

A TREE'S INSTINCTS.

A Santa Barbara Man Discovers Intelligence in a Tree. A story of one of the most interesting freaks of vegetable life is told by Ellwood Cooper, of Santa Barbara. As coming from, and, moreover, having happened to him, the story cannot be anything but strictly in accordance with facts. Verily may we ask ourselves, "Do plants think?" Mr. Cooper believes they do, and here are some of his reasons.

Through Mr. Cooper's care a sewer was run, some years ago, a sewer made out of redwood timber. This sewer was again caused by an outside sewer, which in course of time had partially decayed. Across the sewer was built a brick wall many feet high, and in such a way that it was pierced by the inner sewer, which it enclosed tightly, while the outside sewer ended abruptly against the wall. As I said, the outside sewer cas-

ing had, in course of time, decayed, and the encyclops tree standing some 60 feet away had taken advantage of this and sent one of its roots to the coveted spot in as direct line as possible. Here the root entered the outside sewer and followed its course as far as it could; at last it came to the wall, which shut off the course, and here it could get no further, the inside sewer being perfectly tight. But on the other side of the wall the sewer and its double casings continued, and this encyclops evidently knew how to get there. Some three feet high in the brick wall there was a little hole one or two inches in diameter and this the encyclops tree was aware of, as its big root began to climb the dry wall and face the hole, through which it descended on the other side and entered the sewer again and followed along as formerly. Was ever such an instinct known before, or are similar traits in plants of daily occurrence, or only we are not aware of them? How did the tree know of the hole in the wall? How did it know that the sewer was on the other side? Did it smell, and if it did how could it direct the root to go to find the hole with such precision? This, is, of course, another explanation of this curious phenomenon. The roots of any plant grow always and merrily in the direction of its food just as those of the encyclops tree did. —San Diego Sun

WIRE CLICKINGS.

Shearers in New South Wales and Queensland have gone on a strike. The Dock Laborers' Union in London have cabled £750 to Sydney for the benefit of strikers. The British war office is annoyed by the increasing difficulty of procuring recruits for the army.

THE ITALIAN GOVERNMENT HAS DECIDED TO STOP THE PAYMENT OF SUBSIDIES TO STEAMSHIP COMPANIES AFTER THE PRESENT CONTRACTS EXPIRE.

Captain E. F. Schmidt, who for some time has been missing from Cincinnati, on account of misappropriation of Legion of Honor funds, was to-day found in a graveyard near that city, where he had been hiding. The Musicians' Mutual Benefit Association, of St. Louis, object to the importation of the Mexican band which played in this country several years ago, in the ground that it is a violation of the alien contract law. Two fishermen named William Bowers and Edward Mullen were shot while taking fish from the nets of other men at St. Mary's reservoir, near Lima, O. They returned the fire, fatally wounding a man named Andrews.

IN A PRETTY PICKLE.

A Walla Walla Girl Who Runs Away is Described by Her Lover. Position East. Oregonian. A comely young girl with sparkling black eyes and sporting a red dress and jockey cap, found her way in a peck of trouble yesterday. She gave her name as Miss Daisy Smith, and arrived yesterday from Walla Walla, with a Frenchman, in a buggy. The two secured rooms at McFarland's lodging house, and the Frenchman left, saying that he wished to put the team in a livery stable. This was the last seen of him. Instead of putting up the team he drove off and away with ten dollars of the girl's money, she being left without money or friends. Her case happened to attract the attention of a good Samaritan, by whom she was furnished funds to return home. She left for Walla Walla, regretting.

IN A PRETTY PICKLE.

The girl told several different stories of her escape. In explanation of the Frenchman's desertion, she said he had paid several bills for her in Walla Walla, and probably took that method of "getting even."

An Ancient Cemetery.

Fort Dodge Times. In excavating for the reservoir for the water works on the hill that overlooks the town, the workmen at Humboldt found fairly well preserved, the skeleton of five persons, and as many more of those peculiarly dark scars that so surely indicate a thoroughly dissolved body. The bones denote a very ancient cemetery. The teeth were perfect in a couple of cases, but so worn as to indicate great age. The skulls were filled with a substance principally clay and very hard, and showed the veins as plainly as the genuine brain. They lay upon their sides and nothing foreign was found with them except clam shells. They were down about two feet.

Novelties in Wash Dress Fabrics.

The largest stock in the city at Samuel E. Young's. Have you seen the new soda fountain at Cambridge? Miners: go to F. M. French or your magnifying glasses. A full line of trusses for sale at Cumming's drug store.

STAGE ROBBERY.

Old California Criminals Complete the Job. POLITICS IN MONTANA. The Jury's Mistake Courtesy to Our Ship—She Could Not Owee Him—Would Not Apologize.

REDDING, Cal., Sept. 26.—The Redding and Colville stage was robbed last night about 25 miles from Redding, near Morley's station at 11 o'clock. Two robbers, masked, one a large man, the other a short and strongly built fellow, ordered Ed. Brackett to stop, presenting pistols. The first question asked was, "Are there any passengers?" The Wells, Fargo's Company's box and government way pouch were then thrown out on demand and from which some \$800 was extracted. The empty envelopes and packages were put back in the box and sack and returned to the driver. The robbery was not unexpected, as suspicious characters have been hanging around the locality for some time. In fact the box was stolen in the neighborhood. They are supposed to be old hands at the business, for one advised that the mail be untouchable.

KILLED BY A COMRADE.

They Fight With Bare Fists and One Dies. LEXINGTON, Va., Sept. 26.—Yesterday two cadets in the Virginia Military Institution, Warren Talfer, of Virginia, and Frank W. McCormick, of Texas, had a fist-cuff, from the effects of which Talfer died a few moments later. There was some point of honor at stake, and the two young men, aged respectively about 18 and 18, resolutely one of the society halls, selected their seconds and made a ring. The fight lasted about half an hour, and both were badly bruised. Talfer went to his room with his nose bleeding, went to sleep and never woke again. His death was only discovered late in the afternoon. The owner is both excited and distressed. The opinion seems to be that nothing can be done to prevent such a case from occurring.

POLITICS IN NORTH DAKOTA.

Prohibition and Farmers Nominate a Hybrid Ticket. GRAND FORKS, N. Dak., Sept. 26.—Last night the state convention of prohibitionists and farmers' alliance endorsed the republican nominees for congress, lieutenant-governor, commissioner of neurane and railroad commissioner, and the democratic nominee for secretary of state, superintendent of public instruction and railroad commissioner, and nominated for governor Walter Muir; for auditor, H. P. Dickson; for treasurer, K. J. Norland; for attorney general, N. C. Young and for railroad commissioner, Ezra Turner.

Would Not Apologize.

CITY OF MEXICO, Sept. 26.—Enrique Chavarr, better known to the reading public of Mexico under the nom de plume of "Juvenal," society and dramatic editor of Monitor Republicano, of this city, was shot this morning through the right hand, in the hall of the Jauribe hotel, by Mrs. Louise Jauriqui de Cipriani, widow of a wealthy Italian. Why she tried to kill him is unknown positively, as several contradictory rumors are afloat regarding the affair. At the muzzle of a revolver, she attempted to force Juvenal to beg her pardon on his knees, which he refused to do. Some years ago the same writer lost an eye in a duel.

Heavy Loss by Fire.

TAYLOR, Mass., Sept. 26.—The Broomfield mill at Norton was burned at 8 o'clock this morning, together with the store house, and a two-story tenement house. The fire was discovered in the spinning room. Loss, \$75,000 to \$100,000. A Naval Tribute. NITZ, Belgium, Sept. 26.—The United States cruiser Baltimore which left Stockholm Thursday morning, arrived here to-day. During her stay at Stockholm courtesies were extended to the officers of the Baltimore and continued to the hour of her departure. Thousands lined the banks, cheering and waving God speed, along the course to the sea. Young girls in boats threw countless

WOLCOTT'S WORK

A Grief Demented Mother's Crazy Act. RUSSIAN PRISON REFORM. Acquitted of Murder—Taif Bill—Bandal Left as Will Heavy Loss—Killed By a Fall.

SAN FRANCISCO, Sept. 26.—A dispatch from Washington says the treasury departments extreme efforts, have not succeeded in hitting the mission of the Wolcott, U. S. Revenue Cutter. When she sails from Port Townsend, it will be to accomplish three great purposes. Incidentally she will look for seal poachers, and arrest any poachers that may cross her course. She will endeavor to intercept opium smugglers near the United States borders and will look out for threatened influx of Chinamen now returning from cargoes in British Columbia and who will endeavor to slip into the United States.

A GRIEF-DEMENTED MOTHER.

VIENNA, Sept. 26.—The horrible deed of a grief-demented mother was made public to-day. Helene Muller, wife of a master painter in Meedling, near this city, lost her only child, a boy 2 years old, by diphtheria in February last, after an illness of one day. The suddenness of the death appeared to paralyze the mother's brain and make it impossible for her to realize that the child was dead. On late she had devoted almost every hour of the day to sitting on her baby's grave and holding imaginary conversations with the dead child. One morning a week ago the sexton discovered that the grave had been opened, the coffin lid taken off and the body stolen by the mother, who had taken it to her home, wrapped in a shawl and placed it in a trunk. During the day she had taken it out and caressed it, and at night while her husband slept she had taken it to bed with her and endeavored to infuse warmth into it.

SOMETHING OF A TRICKSTER.

A Smart Boy Makes Capital of a Slight-of-Hand Trick. He was a pretty smart boy—he, a minister's son, by the way, which explains it—and he got away with a declining shop-keeper in a way that did credit to his parentage, says the St. Paul Pioneer-Press. The dealer had been practicing some sleight-of-hand tricks and when a boy strolled in he selected him for a subject. "You see this pocket?" said he as he rolled it in his hand. "Now you don't see it, but you will find a nickel on the brim of your hat." He reached over and took the nickel. "Just watch this now," he continued. The boy did so. The peddle was transferred to a nickel. "Was that my pocket?" inquired the youth cautiously. "Certainly," was the answer.

Prison Reform in Russia.

St. Petersburg, Sept. 26.—A reform is about to be adopted in the treatment of female prisoners. The chief of the department of prisoners proposes to substitute for corporal punishment, heretofore visited upon women, a more lenient grade of banishment and solitary confinement, both to take place on the island of Saghalien, in the Pacific the solitary confinement to be measured by the number of ladies which violation of the rules by a woman would now entitle her to receive. If, under the present law she would receive one lash with a knot, the new rules would give her instead, ten days of solitary confinement, and two days instead of every blow with the ordinary whip.

Woman Acquitted of Murder.

VICTORIA, B. C., Sept. 26.—The assize court was busy all day yesterday with the case of Regina vs. Rutledge for murder. Continual brutalities on the part of Dugan, who was shot by the prisoner, were proved, and the defense set up that the shooting was purely accidental. Chief Justice Begbie charged strongly against the prisoner, and asked for a verdict of either murder or manslaughter. The jury, however, found the woman not guilty.

Barron's Daughter Again.

CITY OF MEXICO, Sept. 26.—The married daughter of General Barron, who made an attempt on Minister Mizner's life last week at Oaxaca. She goes to the United States with a large bundle of documents concerning her father's murder to present to President Harrison.

Killed by a Fall.

PHILADELPHIA, Sept. 26.—Hon. S. J. Randall, who died in Washington on the 13th of April, failed to execute a will. To-day the register of wills granted letters of administration in his estate to his widow. The entire estate left by the deceased is valued at about \$5000, and consists entirely of personal effects.
