CHICAGO, Oct. 10.- Engineers and firemen on the Northwestern system want the classification sysem abolished, and if their demand is not granted, a strike is among the probabilities. This means the ieing up of 60.00 miles of road. The classification works against both engineers and firemen, and inder it the firemen who have worked under it from three to five years is given an engine and lassed as a second rate engineer nd receives two cents a mile. he s cond year his wages are inre as cond year his wages are in ascel one cent a mile, and after several years handling an engine he has full pay. Engineers claim they are to a large extent supplanted by new men by whose ervice the company saves annually thousands of dollars in sages. During the dull seasons recruits are given the preference over full pay men, who are extra, often earning less than \$30 per nonth. It is thought that the road will rather come to terms hap risk a strike han risk a strike.
