OUR MINING INDUSTRIES.

COMMENT upon the silver question is still indulged in on all sides, who are moving the entire party and with as many different into the free trade channel. The opinions almost as there are individuals commenting.

The Oregonian is worried with the idea that our gold is going to fact the situation is the same any where in the country. Austria, while other papers recognize that, the silver law is a KANSAS CITY the other day conbenefit. The Chronicle says: E, tained one woman who was O. Leech, Director of the Mint, has thoroughly assamed and cognizant just returned to Washington from of the disgrace of having become a visit to a number of the mines addicted to the use of intoxicating in the West. Speaking of the liquors. She was drunk and in all the mining camps which he she hung herself by the use of the visited, and an evident increase in waist of her dress, tying one sleeve the silver product of the United around her neck and the other States. The contention of the silver men to be necessary to bind her hands has been amply justified, that is and feet and strap her to the cot in mining industries, and that the in the cell to prevent her killing output be increased."

Nor does Mr. Leech tell the whole of the story, nor even the most important part of it. The rise in the price of silver has been accompanied by a rise in the price of other domestic products, so there is hardly an article produced in the United states which has not felt the stimulus of ! etter prices. This action, besides being stimultaneous, is reciprocal. A better ADULY price for farm products and the like implies a better price for silver quite as much as a rise in the than an advance in the price of An artists of First Rank will g v a Tiar silver would immediately benefit our great agaicultmal industries. Oxcz again the dinner-bucket argument has received an awful black eye. This time it is adminis ered by the New York Tribune, which points out that the duty on tin plate will not be changed until July 1, 1391, and the same time gives some tigures showing how much the cost ought to be increased to the consumer, provided First appearance of the eminent he is called upon to pay, as free traders assert, all of the tariff.
