LEWIS M. JOHNSON & Co., Agents, Portland, Oregon.

THE UNION PACIFIC.

Superintendent Lane Says That It Is All Right

THE IMPORTERS HEARD FROM

Speaker Reed at St. Paul—Trouble Among the Ghost Dance Indians—Disappeared From Sight.

BOSTON, Oct. 28.—Vice-president Lane of the Union Pacific railway was seen to-day regarding the stories, with which the "street" of late has teemed, derogatory to the Union Pacific, its management, etc., with regard to the "boycott" and the effect thereof. Lane said, "the west bound through business is really all that is affected, and even this can sutier but little."

He also remarked that the Union Pacific and North Western alliance really concerns nobody but the two roads in interest. What they do is their own business.

The Union Pacific people are not at all disturbed by the so-called boycott, and they find in the causes leading to it and in the ill-feeling of competitors, an inspiration for all the recent wild reports concerning the road. The stories of accidents, Lane says "have been greatly exaggerated. Their system is getting an enormous traffic at the present time. More indeed, than it can comfortably handle, and its equipment is necessarily getting severe usage. Few accidents have naturally occurred under these circumstances. but none of these have involved any serious damage."

As regards the latest story from Chicago, published to the effect that the management was working, tacitly, to wreck the road, with a view to ultimately turn it over to the Vanderbilts, Lane says the yarn is too absurd to deny.

KICKING HORSE.

He Has Made a Special Trip to Heaven.

BISMARCK, N. D., Oct. 28.—Kicking Horse, a great Sioux chief, seems to be responsible for most of the trouble at Standing Rock. He claims to have visited heaven and returned to the earth to tell them that good things are in store for them. Major McLaughlin ordered him off the reservation and confined several other troublesome spirits in the guard house. The Indians have been making day and night hideous. Kicking Horse is cunning enough to mix Christian doctrine with his prophetic utterances. He tells them they must not kill whites, as the great spirit would take care of them. He declares the time will come when the Indians will occupy the earth to the exclusion of the whites. If it were spring instead of fall there would be danger of an uprising, but it is not believed it will now occur. Sitting Bull is doing all he can to ferment a disturbance.

CROOKED WHARTON.

He is Wanted in Chicago by Banks and Individuals.

CHICAGO, Oct. 28th.—The whereabouts of S Wharton, who has been engaged in money lending in this city for several years, is troubling a number of citizens, and particularly the Chicago Trust and Savings Bank and the United States Loan Co. For over a week Wharton has not been seen and his creditors have finally concluded that he has left the city. It is asserted his indebtedness will amount to $50,000, nearly $40,000 of which is due to the financial institutions named above. It is asserted that Wharton frequently pursued the plan of double dealing, in hypothecating rates made to him. When the note became due it is asserted he was accustomed to notify the signer that he could not carry it unless a new one was made. When this was done he promised to destroy the old notes, but instead of doing so would leave them with a financial institution where h had it placed and registered, wit the new one at another place.

The Importers' Woes.

NEW YORK, Oct. 28.—At a meeting of the importers of this city held this afternoon, which had under consideration the McKinley bill, James M. Constable said: The opinion of numerous attorneys was that the omission of section 30 in the engrossed copy of the bill very possibly invalidated the entire act. A committee was appointed to make an investigation and report at a subsequent meeting.

Speaker Reed in St. Paul.

ST. PAUL, Oct. 28.—Speaker Reed arrived this morning, and was escorted to the Ryan House, where he was given a public reception.

The Western Union office in this city gives no signs of a strike. Almost a full force is at work.

A Swell Wedding.

PARIS, Oct. 28.—The religious marriage of Mlle. Mohrenheim, daughter of Baron Mohrenheim, the Russian ambassador to France, to Lieut. Deseze, took place to-day and was attended by Madame Carnot, wife of the president, and all the ambassadors in Paris.

OFFICERS FOR THE YEAR.

The Train Men Elect Officers for the Year.

LOS ANGELES, Oct. 28.—The national convention of train men today re-elected T. T. Slatterly 2d vice grand master. Geo. Newman, of Missoula, Montana, was elected 3d vice grand master. The plan of federation and the supreme council, as devised by the representatives of the several organizations in Chicago in June, 1889, was unanimously approved, and the representatives to the last meeting of the supreme council, consisting of S. E. Williamson, grand master, P. H. Morrissey, first vice grand master, and W. H. Sheban, grand secretary and treasurer, were elected.

Mysterious Disappearance.

MINNVILLE, Or., Oct. 28.—R. S. L. Parks, a young man twenty-four years old, left here on August 25th with a horse and buggy and photograph outfit for the purpose of taking views, and has not been heard of since. His mother, writing from Buckshoot, N. C., to her brother, B. F. Parks here, is anxious about his mysterious disappearance.

Portugese Minister Recalled.

LISBON, Oct. 28.—Advices from Mozambique state that the British gunboats have safely ascended the Shire and entered the Ruo river. Letters of recall have been sent to Senor Freitas, the Portugese minister to England.

Escaped Convicts.

CARSON, Nev., Oct. 28.—George W. Lewis and August Richards drilled through the walls of the state prison on Monday night and escaped.

The Great Clara Morris.

Clara Morris is both a great artist and a player of superior natural gifts. She knows the value and importance of detail; she employs the finesse of her art with nice discrimination, and she makes many telling points by seemingly spontaneous treatment of trivial things. Nothing that can emphasize the significance of acting is omitted, and nothing that she does seems perfunctory. When she goes to her mirror, she does it because it is the natural and inevitable thing to do. If she drops her handkercheif the incident has a meaning. Her elocution is the every-day speech of a woman who says what she has to say because that alone expresses her thought. There is no hint of studied lines. The author is never obtruded. The spectator sees a woman with all a woman's capacity to do and to suffer. It is her fortune in which we are concerned; her sufferings that move us; her art that inspires our admiration; her pathos that compels our tears; her power that thrills us and her passion thralls us. Clara Morris is not measurable by rule and line. She acts in splendid defiance of mere tradition being superior to the schools. In a breath, she is Clara Morris—a wayward, unhampered genius whose work commands absorbed attention and whose achievment is unique.—Detroit Free Press.

GOOD PURE WATER.

The Only Perfect Way of Purifying Water is by the Pasteur Filter.

The most essential article to promote good health is good, pure water. It is t well known fact, of course, that no water, in its natural state, can be absolutely pure, but in cities it is impossible to get the natural water that is even relatively pure. The only recourse then is to use artificial means to purify the water. A filter is the best and only economical means of accomplishing this end. There is no question upon this point whatever, and our enterprising merchants, Messrs. Smith & Senders, deserve great credit for taking up the famous Pasteur filter, which is acknowledged to be the best in the world. Its use gives absolute purity of water.

The Oregon Pacific.

They make sport of the Oregon Pacific railroad all they please, but the prospects for its extension into Eastern Oregon next year, and its speedy construction to a connection with a transcontinental line, are very favorably.—Salem Statesman.

French Tansy Wafers.

These wafers are a sure and safe specific for all kinds of female troubles and will remove all obstructions to the monthly periods, no matter what the cause. They are just what every woman needs, and can be used safely. For sale by the Livingstone Medical Co., manufacturers, Portland, Oregon, also from our sole agent, J. A. Cumming, druggist, Blumberg block, Albany, Oregon.

Take the Union Pacific railway for the East, thirty-five hours quicker than any other transcontinental line. Elegant new dining cars, Pullman palace sleepers, free family sleeping cars run through to Denver, Omaha, Council Bluffs, Kansas City, St. Louis and Chicago. C. G. Rawlings, city ticket agent, foot of Broadalbin street.

Wilcox & Conn's photograph gallery.

PURCHASE OF SILVER

What Men of Experience Say on the Subject.

NON-PARTISAN W. C. T. U.

Drilled Through the Walls—New York Firm Claims the Tariff Law Was Not Passed.

WASHINGTON, Oct. 28.—Director Leech, of the mint, makes a lengthy statement in regard to the treasury purchases of silver bullion and the cause of the recent decline in the market price of silver. He says: "The treasury method of purchasing silver has been criticized in these particulars, first, that large purchases by the department do not include all the silver bought; second, that the London price is used as the basis of government purchases; third, that the bids to the government are on the decimal system and tend to favoritism. In regard to the first criticism he says that the government purchases silver as it does bonds, the lowest offers being always accepted, provided they do not exceed the highest market price. For the benefit of the small producers, however, superintendents of mints are authorized to purchase small lots at a price fixed from day to day by the director, corresponding to the market price.

Second, it is not the London price which is used as a basis of silver purchases under the new law. The present administration has been governed in the purchases by the New York price.

Third, in regard to the government quotations being on the decimal basis, one of the critics says: "The suspicious and significant fact in regard to government quotations are on the decimal basis, which is a great advantage to those who may have the advanced information in regard to the price the government is willing to pay on a given date."

The government has no scale of its own and bidders use whatever scale suits them best. If one house happens to bid a decimal lower than another, is the government to decline the lower bid because of a decimal? The idea o any seller having advanced information as to the price the government will pay is ridiculous and impossible. In regard to the recent decline in the price of silver the causes which operated to produce it are apparent. In the first place the visible stock of silver in New York has not sensibly decreased notwithstanding the purchase by the government of 12,276,478 ounces of silver since August 13. This large and undiminished stock is a standing menace to the price of silver. Large western refineries, in the hopes of realizing a large profit, held silver for months prior to the passage of the new law, or deposited it in New York for certificates, and the result has been an accummulation of visible stock in such magnitude as to depreciate prices

The imports of silver from May to September 30, present year, exceeded the exports by $4,923 175, while the corresponding period of last year the exports exceeded the imports by $5 948,000. This accounts for the fact that while the government purchased an amount equal to the current productions of our mines, the stock has not diminished during the same period

The shipments of silver to India have not sensibly decreased, although latterly they have been below the usual amount, hence the supply for India has been obtained elsewhere than the United States. So too in regard to the natural movement of silver to China, Japan and the straits from San Francisco, as not one ounce of silver bullion has been shipped to the orient from San Francisco since May 1st, this year, while over $4,000,000 worth was shipped during the same period last year.

These facts of themselves are sufficient to account for the decline which has taken place.

THE WORK OF WHITECAPS

They Post a Warning Notice to a New Mexico Merchant.

ALBUQUERQUE, N. M., Oct. 28.—Whitecaps are again at their nefarious practice. At midnight Sunday 120 of them rode into Lamy Junction and posted a notice at the store of William Sayles, which informed him that he must pay his woodchoppers $3 per cord and $1 per cord for hauling. Sayles was away at the time, but after frightening the clerk almost to death, they told him to tell Savles that a disobedience of the notice would result in his death. The counties of San Miguel and Santa Fe are thoroughly aroused over the doings of the Whitecaps.

Non-Partisan W. C. T. U.

CLEVELAND, Ohio, Oct. 28th.—A call has been issued for a National convention of non-partisan National Woman's Christian Temperance Union, to be held at Allegheney City, Pa., Nov. 19, 20 and 21. The representation is one delegate for every one hundred paying members of auxiliary state unions, and in unorganized states or territories one delegate for every one hundred members or fraction over fifty.

A FLING AT REED.

A New York Firm Claim the Law Was Not Passed.

NEW YORK, Oct. 28.—Upon application Ballin Joseph & Co., importers, Judge Lacey to-day granted an order requiring customs appraisers to produce all the records regarding the appraisement of certain consignments of cloths on which the firm claims too high duties were assessed. An interesting point of suit is the firm contends an act of may go, providing for classification of worsted cloths same as woolens does not apply, because the act was not passed according to law. They assert there was no quorum in the House when the bill was certified to have been passed and that it was not legally enacted, though declared passed by speaker.

ALL CAUSED BY JEALOUSY.

Two Mexicans Engage in a Serious Row in a California Town.

REDWOOD CITY, Cal., Oct. 28.—About 12 o'clock last night, Julian Alvarado was shot in the face by Manuel Paloma. The wound is not serious. The shooting was caused by jealousy regarding the affections of a woman who was brought here as a witness in a horse-stealing case a year ago. She was the wife of a Portuguese near Martinez, and had been separated from her husband by a man who had stolen horses from this place. The husband assisted in the search, and the thieves were captured and sent to prison. Since then the woman has been living here. A number of men have fallen in love with her, but Alvarado incurred the enmity of others, and the result was last night's fracas. Paloma was arrested, and Alvarado and the woman were locked up as witnesses.

STEAM COLLISION.

Slight Damage Was Done to One Vessel.

SEATTLE, Oct. 28.—The steamer Premier, which arrived here to night, collided with the bark Oakland in the fog off Morrowstone Head Monday night. The Oakland was at anchor, loaded with lumber for sea. The Premier was on its way to Seattle. Captain O'Brien heard no bell on the Oakland and was steering off to avoid a steamer that was coming toward him when the collision occurred. The Premier was damaged $500, and the Oakland half that amount.

Killed in a Quarrel.

SAN FRANCISCO, Oct. 28.—This evening a saloon keeper named Roche, who was known as a ward politician, became engaged in a quarrel with a man named Allen at Fourth and Tehama streets. Allen drew a revolver and fired at Roche, inflicting a wound, from which the latter died in a few minutes Allen is under arrest.

A Misspent Life.

SAN FRANCISCO, Oct. 28.—J. W. Dornsife, son of a former mayor of Kansas City, committed suicide last night while in a fit of despondency over his hard luck. He had been wild for years and not being able to get any more money and having pawned all his jewelry, he became tired of life.

Louisville Win.

NEW YORK, Oct 28.—The world's championship series between Brooklyn and Louisville came to an unexpected close this afternoon. Seven games have been played, each team winning three and one being a tie. The cold weather was too much for spectators and the series will be played off next spring. To-day's score stood: Louisville 6; Brooklyn, 2.

Verdict of Murder.

LONDON, Oct. 28.—The coroner's jury in the case of Mrs. Hogg rendered a verdict of murder against Mrs. Piercy.

Caterpillar Under Her Skin.

A curious birthmark is borne by a certain lady, a prominent leader in the fashionable circles of Marion, Ind., and takes the form of a large caterpillar lying about halfway between the shoulder and the elbow of her right arm. It is nearly three inches in length and of a dark gravish tinge, covered with short thick hair, presenting the exact appearance of a crawling worm. The lady, who is very sensitive in regard to it, has visited eminent physicians both in this country and abroad for the purpose of having it removed, but all assured her that the operation would in all probability cost her her life. It is painfully sensitive, and ween subjected to any pressure causes her such intense pain that if the pressure be not removed at once she faints, remaining unconscious for hours, while the mark assumes a purplish hue as of congested blood. During the winter months the hairs drop out and the protuberance dwindles away into a flabby, bloodless piece of skin, scarcely discernible, but with the opening of spring swells rapidly, while the hairy covering returns, and the blood can be seen coursing freely through the fleshy caterpiller. One of the lady's children is said to have inherited the same peculiar mark, only wearing it between the shoulders

COW CREEK CANYON:

The Work on the Road Pushing Forward.

R. R. WORK AT HILLSBORO.

Killed By a Falling Tree—Large Immigration From Kansas—Barnum's Circus Train Collides.

PORTLAND, Oct. 28.—E. J. Jeffrey, the railroad contractor, returned to-day from a trip of inspection of his contract with the Southern Pacific in the Cow Creek canyon. He says the work is now going forward rapidly, as between 600 and 700 men are employed. The track has already been laid on the earth portions of the contract and the earth work is now practically completed, and the remaining portions, that are in the rock tunnels, etc., will not be affected by the fall rains, so that everything will go constantly forward and the work will undoubtedly be completed by the first of the year.

M. P. White, who was arrested East Portland, Saturday night for passing a counterfeit dollar, had an examination before U. S. Commissioner Deady to-day and was held to answer before the grand jury and in default of a $2500 bond was committed to the county jail.

Advices from Washington county state that a large gang of Chinese went to work on the Astoria & South Coast railroad near Hillsboro to-day. The new survey for the line has been made out by the Hoover place, and there is considerable excitement in Tualitin plains, in regard to the road.

Large numbers of immigrants are coming in from Kansas. From 50 to 100 have been coming in daily over the Union Pacific of late. Most of them are stout, young men and all have money enough to make a start with. They are locating in different parts north and northwest.

Killed by a Falling Tree.

SEATTLE, Oct. 28.—News was received to-night that John A. Mooney, a logger at Thelan's camp, Applegate Cove, lost his life Monday. He felled a small tree, which struck a stump and rebounding, hit Mooney, killing him instantly.

Out on a Strike.

CHICAGO, Oct. 28.—Every steam fitting establishment in Chicago is idle. All union men and 90 per cent. of the non-union men are on a strike, which began yesterday.

Holiday Book.

Ladies call Mrs. Hyman's and give your order for the juvenile book for Christmas. The latest out.

Dried Fruit.

I am prepared to pay the highest market price, in trade or cash for choice dried fruits of all kinds.

SAMUEL E. YOUNG.

Something Nice.

Ladies if you want something nice for dinner to-morrow, go to Blackburn & Pironi's and get some of those fancy cakes, buns, jelly rolls, cream puffs, cookies, etc., all baked fresh this morning.

Press Notices of Miss Stevens.

Her touch is singularly clear, clean and elastic. She plays with rare intelligence, and her technical attainments are sufficient for the demand of the day.—Boston Herald.

Miss Stevens proved herself to be a pianist of remarkable talent and an exceedingly interesting player. Her performance of "Capice Espagnol," composed by her could hardly be improved upon by any pianist.—Boston Post.

The piano recital at the Congregational church by Miss Stevens the gifted young pianist, was an artistic success, and the young lady established herself as a mistress of technique.—Washington Critic.

John C. Freund, the famous critic of New York says the commendation Miss Neally Stevens has received from Liszt, Wm. Buelow, Kullak, Moszkowski and Scharwenka are deserved; was completely captivated by her in one evening. The "American Musician" said, she will always please and the favorable verdict of Boston's press will be confirmed wherever she goes.

A WONDERFUL ARRAY.

New Goods In Quantities To Suit the Most Fastidious.

In the matters of extent and quantity, Mr. W. R. Graham, Merchant Tailor, has just received a stock of elegant suiting goods that is simply unsurpassed. They embody both English and American manufacture of all wool cloths that are simply superb, and will work up into suits of the very best and most fashionable make to be had anywhere.

The goods are in almost endless variety of style and pattern, so that the taste of every individual can be exactly met. Lovers of handsome goods can receive a great treat to go and examine these just for the sake of seeing them. They were purchased and shipped before the McKinley bill went into operation, so that no extra tariff charges will be added.
