ROYAL BAKING POWDER Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kind, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall St., N. Y. Lewis M. Johnson & Co., Agents, Portland, Oregon.

CLEVELAND TALKS

People's Judgment Poor Because Not Seeing as He Does.

OUR CENSUS RETURNS

The Pope Does Not Like the Way Women Are Going—The Soldiers Camping and Marching.

ALBANY, N. Y., Oct. 31.—The Albany will print tomorrow the census returns for the State of New York. The returns for Albany county are as follows: The population of the county in 1880 was 20,934. In 1890 it was 24,570. The increase is 17.4 percent. The population of the State in 1880 was 4,000,000. In 1890 it was 4,600,000. The increase is 15 percent. The population of the United States in 1880 was 50,000,000. In 1890 it was 57,000,000. The increase is 14 percent. The population of the world in 1880 was 1,500,000,000. In 1890 it was 1,600,000,000. The increase is 6.6 percent. The population of the globe in 1880 was 1,500,000,000. In 1890 it was 1,600,000,000. The increase is 6.6 percent. The population of the globe in 1880 was 1,500,000,000. In 1890 it was 1,600,000,000. The increase is 6.6 percent.

THE CENSUS RETURNS.

The Population of the United States Over 60,000,000.

WASHINGTON, Oct. 31.—The population of the United States, as shown by the census, is 62,480,540.

The increase of the population as shown by the census, is 24.57 percent; percentage of the increase between '70 and '80 was 30.08.

From the fact these figures show the population to have increased between '80 and '90 only 727,345 more than between '70 and '80, while the rate of increase apparently diminished from 30.08 to 24.57 percent.

If these figures were derived from a correct data, they would be indeed disappointing. Such a reduction in the face of the enormous immigration during the past 10 years would argue a great diminution in the fecundity of the population or a corresponding increase in the death rate. These figures, however, are easily explained when the character of the data used is understood. It is a well known fact, being demonstrated by an examination of the census returns, that the census of '70 was grossly deficient in the Southern States, so much so as not only to give an exaggerated rate of the increase of the population between '70 and '80 in these states, but to affect very materially the rate of increase in the country at large.

The Pope Issues a Letter.

New York, Oct. 31.—The Pope's latest encyclical, of unusual interest, is addressed to the bishops of Italy, and refers to the many attacks made on the church of late years. It draws special attention to the homage paid to agnostic and atheistic doctrines. Our apostolic duty bids us protest against such a course, and that Rome has been made in Italy on religion and as principal weapon of our enemies. Speaking of such things, he says that owing to the strength of its organization it can only be successfully opposed by a thorough and on all conservative elements of society, and that true religion is the best rampart against the fury of the lawless mob. Emigra-tion toward the holy see, he continues, is fraught with the greatest dangers for Italy. The Pope concludes by saying that two governments are impossible, and that Rome ought to be given back to the Pope if the world wishes holy see exercise as heretofore its influence is for good.

Bad on Cuba.

MADRID, Oct. 31.—The Cuban advisers report the McKinley law ready has had a baneful effect on Cuba. Forty tobacco houses closed, and a large number of operatives idle.

On a Habeas Corpus.

ANTONIA, Oct. 31.—"Bunko" Kelly was taken to Portland tonight on a writ of habeas corpus issued by the United States circuit court.

MURDER.

Two Brothers-in-Law Shot and Killed in California.

WEST POINT, Cal., Oct. 31.—This morning in the woods, about two miles from here, Frank Mason, shot and killed his two brothers-in-law, Chas. and Matthew Vann, while asleep in Mason's house. After committing the deed Mason fled into the woods, armed with a rifle. More shots were heard in the woods, and as Mason had made threats against others in the neighborhood, it is feared he has killed others, or may have killed himself. No excuse can be assigned for the murderous deed except insanity. Mrs. Mason is being unconscious from the shock. Officers are scouring the woods for the murderer.

Lynched.

DALTON, Oct.—Two negroes, who brutally assaulted and murdered Mess Baker in Barlow county, were taken from the office last night by a mob and lynched.

Rescued Steel Mills.

WASHINGTON, Oct. 31.—The preliminary report of the census bureau shows a total production of steel in the United States during the past fiscal year to be 4,393,936 tons. The United States now leads all other countries in the manufacturing of steel. The output during the past fiscal year was 2,036,634 tons.

The Collision.

GARCIA, Oct. 31.—Surgeon Rickeys: At the time of the collision he was in the cabin talking to Mrs. Garcia when suddenly there came an awful shock and the steamer rolled over on the port side. Everybody in the cabin were thrown down, and immediately a scene of the wildest confusion ensued.

A Falling Off of Trials.

WASHINGTON, Oct. 31.—It the annual report upon operations of the army, department of the Platt, Brig. General Brooke says the practice of marches during the year were beneficial and the mingling of the national guard and regular army accomplished good results. There has been a falling off in trials by court martial, both general and garrison.

Duty on Ore.

WASHINGTON, Oct. 31.—The treasury department to day issued orders to the collector of customs at El Paso, Texas, instructing him to levy a duty of 12 cents per ton on the entire weight of ores from Mexico, which lead is the chief component part, instead of an actual weight of lead in ore as has been the practice heretofore.

TALE OF A CELESTIAL LOVE.

A Disciple of Confucius Leads an American Woman to the Altar.

Astoria, Columbia.

Mon Wai and Annie Johnson were yesterday granted a license to wed, and thereby hangs a tale. It is seldom that such prosaic item as a marriage license offers such splendid opportunities for roman-tic conjecture as this little love episode. A few years ago Mon Wai was leading a quiet life on the banks of the Foo Chow river in far off China, little dreaming that the time was approaching when he was to lead to the altar an American lady. Annie Johnson in the meantime was wearing her life away on the cold and rockbound coast of Kauai island, away up in the land of the mid-night sun. Annie at this stage of the game in being, although an American lady, did not have an American name, but last spring when the bark Annie Johnson went up to Kauai island with canny supplies it brought her not only a name but a lover as well. Mon Wai had grown tired of his poverty stricken country, where since price is a luxury and none but the rich are allowed to eat rats, and set sail for this land of the free. On reaching here he was hired to work in Elmore's cannery in Alaska, and went up there last spring, and while he wasn't engaged in leaving salmon outside of their internat arrangements he made love to far Annie so ardently that when the season ended, he persuaded her to accompany him to Astoria and become his wife.

The wedding dinner will be a swell affair, and Chinatown is all excitement over the prospect. In addition to the stuffed rat in steel traps and smoked pig, with pogy sauce, there will probably be blubber of a lion with axle grease on the side, to round the bride of banquet in by gone days before she could see far enough to know that she desired to marry an eastern man like Mon Wai. There is a rare chance for a tale of romance and love about this episode.

MIL'S NERVE & LIVER PILLS.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation. Un-equalled for men, women, children. Smallest, mildest, surest! 50 doses for 25 cents. Samples free, at Stanard & Cusick.

Holiday Book.

Ladies call Mrs. Hyman's and give your order for the juvenile book for Christmas. The latest out.

A COLLISION AT SEA

Unknown Schooner Runs Into a Spanish Schooner.

VESSELS IMMEDIATELY SANK.

A Train Dispatcher's Careless—How from East of the Rockies and the Old World.

New York, Oct. 31.—The Spanish steamship Vizcaya was run into off Barnegat by an unknown schooner yesterday. Both vessels were sunk. The captain and 61 passengers of the steamer were lost. The fate of the crew of the schooner is unknown. The chief officer, second officer, surgeon, one engineer and eight of the crew were picked up.

A LATER REPORT.

The persons rescued were taken from the rigging of the Vizcaya by the captain of the steamer Humbolt. The persons rescued state that last evening at 8 o'clock the steamer was run into by a schooner. One colored boy was taken ashore by the Humbolt. The survivors lost at Barnegat, they say, were nearly all the Vizcaya's crew. They were a Cuban millionaire wife and two children. The captain and crew of the schooner are supposed to be lost.

The survivors lost at Barnegat, they say, were nearly all the Vizcaya's crew. They were a Cuban millionaire wife and two children. The captain and crew of the schooner are supposed to be lost.

REVISION OF RATES.

It Reaches Only the Union and Northwestern.

CHICAGO, Oct. 31.—President Charles Francis Adams, of the Union Pacific railroad, speaking to-day of a proposed revision of the rates which has aroused the antagonism of some of the eastern connections of the Union Pacific, said it is simply between his road and the Chicago & Northwestern. He has no apprehension that other lines in the long run will decline to participate in traffic on the same terms with the the North-western. The Union Pacific has sustained a great loss of traffic and income of late because of the fact that the eastern machine shops are so crowded that they cannot fill orders for new equipments. Had the road been able to secure the motive power and equipment ordered six months ago, it would have earned in October upwards of \$5,000,000 instead of \$4,000,000. Traffic ready for it to handle to-day is thirty percent in excess of the capacity.

A LIBERAL ALLOWANCE.

FLORIDA GETS SIX HUNDRED PER MONTH.

SAN FRANCISCO, Oct. 31.—Judge Coffey this afternoon made an order allowing Ferns & Blythe, one of the claimants of the Blythe estate, one hundred dollars per month from the beginning of the contest until the present time, of over twenty-seven thousand dollars, and an increased allowance of six hundred dollars per month from present time until the final determination of the litigation.

An Important Decision.

WASHINGTON, Oct. 31.—Assistant Secretary Chandler to-day rendered a decision in the ex parte case of C. B. Mendenhall, of the Bozeman, Montana, district, in which he holds that the man who submitted the final proof on the desert land, before the official survey was filed, should not be required, when the land is officially surveyed, to make new proof, showing the proper extent thereof. This overrules the former ruling.

All Bids Rejected.

CHICAGO, Oct. 31.—All bids for filling and piling the late front were rejected by the world's fair board of directors to-day. New bids on modified specifications will be asked. The former specifications are said to have included numberless requirements. As a result the bids were from \$150,000 to \$200,000 higher than expected.

Destroyed by Fire.

JACINTO, Cal., Oct. 31.—Yesterday evening the lumber mills and box factory at San Jacinto lumber company, 18 miles from here in the mountains, were entirely destroyed by fire. Half a million feet of lumber and 15,000 boxes was destroyed. Loss, \$35,000. Insurance, \$9,000.

Killed on a Railway Bicycle.

DULANO, Cal., Oct. 31.—Two young men, W. H. and Ed. Ray, respectively, twenty-five and twenty-one years, were instantly killed by a engine two miles north of here this evening. They were riding a rail-wheeled bicycle, and being dark they did not notice the rapidly advancing engine.

Governor Hill Wants a New Census.

ALBANY, N. Y., Oct. 31.—Governor Hill has written to Secretary Noble asking for a new enumeration of New York city. He says alleged difference of two hundred thousand names will make a difference to the state of at least one member in congress in the next appointment and vote in the electoral college. He says all enumerators were republican partisans appointed for past political services, and that it was to their political interest that their party should be beneficiary of their labor.

FOR SUNDAY.

A fine pheasant, Sweet potato, celery, Cauliflower, Carrots, A fat hen, Cranberries, turnips, A Fine Fry, French peas, asparagus, Mushrooms, French beans, A fat goose, Grapes, bananas, Oranges, Swiss cheese, Cream cheese, And all the good things of life, nice and fresh at Mueller & Garrett's, the leading grocers.

Jefferson Mill.

Goins & Thomas, run the Jefferson Flour Mill, and have flour and feed of all description on hand. Send in your orders.

Dried Fruit.

I am prepared to pay the highest market price, in trade or cases or choice dried fruits of all kinds. SAMUEL E. YOUNG.

It is not surprising that Matthews & Washburn sell the most stoves from the fact that they carry the line of goods at prices that convince even the skeptical of the Mare Island yard in April and September '89. Bail was fixed at \$5000 in each of the two charges and was furnished by McCudden.

OPIUM SEIZURE.

Employees Can Vote as They Please.

AMOUNT OF THE COINAGE.

Riding a Railroad Bicycle—Wants a New Census, and says That it Will be Over 200,000.

SEATTLE, Oct. 31.—U. S. Customs Searchers Todd and Woodley to-day seized 240 five tael cans of prepared opium on the steamer Olympian, which arrived at Port Townsend from Victoria, B. C. As soon as the steamer reached Port Townsend she was boarded by the officials, who searched the vessel for some time. Finally they came across a small cup-shaped attached to the stern of the vessel. The cupboard being locked, they took the screws off the door and there discovered the drug.

The opium was seized and taken to the custom house. It is valued at \$240. The crew was searched and on night watchman Adams was found a key which fitted the lock in the storeroom. Adams was placed under arrest. It is thought that large quantities of opium have been smuggled in this way lately.

DIRECTOR OF THE MINT.

He Reports the Largest Coinage in Any Year.

WASHINGTON, Oct. 31.—The annual report of Director of the Mint to-day says that the coinage for the past fiscal year was the largest in the history of the mint, aggregating 112,698,071 pieces. The gold and silver bars were manufactured as follows: Gold, \$23,342,438; silver, \$7,946,587; exports of gold during the year exceeded imports by \$4,745,650 over imports. From the beginning of the fiscal year to date the new act went into effect, the amount of silver was \$1,108,190 standard ounces, costing \$3,049,438.

Products of gold from mines of the United States during the fiscal year '89 was \$25,000,000; silver, \$50,000,000. Commercial value \$46,750,000. Coining value \$64,646,465.

After Damages.

LEAVENWORTH, Oct. 31.—The postmaster again threw out the mailed edition of the Leavenworth Times this morning because it contained a list of the Catholic fair raffle. His action is sustained by the postmaster-general, and the Times has filed a suit against Postmaster Ritchie for \$10,000 damages.

Wilcox & Conn's photograph gallery.

Athletics For the Ladies.

From The Boston Advertiser.

The Town and Country Club of which Mrs. J. H. Johnson is president, has recently issued a paper upon physical culture, which the writer tells us that has been a wonderful influence for the feminine foot. She now wears a boot of sensible weight and stout sole, which protects the foot of the wearer from dampness. Then croquet became fashionable, and then rowing, swimming and tennis followed as innovations, at which Purton came at first took a little sabbath. But the rapid increase of their devotees in physical health, which brought with it increased beauty, fixed these sports in the fashionable world, which established their reputation forever. Dr. White, the author of the paper alluded to, predicts thus boldly: "I prophesy," he says, "that before many years our American young men and women will show a robustness and vigor of constitution, and a facility with the best forms of physical exercise, both for the training of muscles and the maintenance of health, unparalleled since the days of Hippocrates, the mighty wrestler, and Sokrates, the invincible soldier."

He might have gone a step further. Even to-day no nation on earth surpasses America in the beauty of its women. But their beauty is not a distinctive type. Dr. White might well have predicted that a few years, perhaps a generation, hence, the women of America, and perhaps the men as well, will display a distinctive type of beauty as fully characteristic of the nation as were the features of the ancient Greeks. Physical culture, once so lightly regarded, will produce this result.
