AFTER MANY YEARS.

The Perilous Adventure of Two Albany Hunters Years Ago.

A RELIC FROM THE RIVER. In Searching For Gravel Street Commissioner Hunt Finds a Gun Lost Long Ago.

Our readers will remember that in the last match hunt which took place in this city about six years ago W. B. Springer and W. B. Scott, came down the Calapooia river in a small boat to shoot ducks. When just below the covered bridge, their boat was capsized and they had a narrow escape from drowning. They were in the water several hours and were nearly chilled when they reached the shore. At that time Mr. Scott, took with him a splendid new Baker, three-barreled gun, valued at \$120, which was lost. When the river went down search was made for it, but it could not be found, and the supposition was that some Indians who were aiding in the search had found it and taken it away. It was finally given up as lost and the occurrence forgotten except by those most directly interested. A short time ago while street commissioner Hunt was prospecting in that vicinity for gravel, with which to grade the streets, his pick struck an object which proved to be the gun. It had lain submerged in the gravel and water for these many years yet the locks and all the inside works were in perfect condition, even being very oily. The barrels and stock show that tough usage which they have been subjected to. Should any one have a curiosity to see the gun they can have the opportunity by calling at the gun store.

Theater Tuesday Night. Theater goes who wish to have a genuine treat should not miss seeing Hearts of Oak next Tuesday evening. It will undoubtedly be one of the finest theatrical attractions of the present season in this city. The entire original company, costumes and accessories, will be seen here precisely as they were seen at the Fifth Avenue Theatre, New York, for one hundred nights. The cast will be headed by James A. Herne, a brilliant actor. Mr. Herne's portrayal of Henry Demmon in Hearts of Oak has been endorsed by the critics as an unusually fine and effective piece of work. The actor will be ably seconded by a strong company of American play-actors especially for this production. A great feature of the performance will be Hazel Regan, who sustains the child interest of the play, and who is considered the cleverest child at present on the stage.

Bitten By a Dog. Yesterday morning while Ed Chambers, who lives a few miles below town, was attempting to remove a rope from the log, which he had tied to place in a pen, the animal turned suddenly and caught his left hand in its mouth, tearing out the tendons from two fingers and making a deep laceration. He came directly to town, the wound bleeding profusely, and had Dr. Davis dress it. It is thought that nothing more serious than the partial loss of the disabled fingers will result from the bite.

No More Excuses. Hazlett, the "Pillgrim Printer" is a victim of disgraceful circumstances. For three days he tells the city marshal he has been endeavoring to leave the city but is unfortunately (for the city) unable. Thursday he missed the train by one minute. Friday he had a spurious cough and could not get a ticket. Yesterday he had the rheumatism in his feet and could not walk to the depot. Today he will either have to be well, hustle good coin, get a ticket and be at the train on time or suffer the consequences.

Found Not Guilty. At the recent session of the Lane county grand jury, Joseph Smith was indicted for manslaughter for killing Anderson, while hunting together in the mountains. Smith was tried before a jury which brought verdict of "not guilty," after being out but a few hours. It is hard to reach a conviction on such cases, but it does seem that the grand jury should be indicted to prevent, if possible, a repetition in the future of such apparently gross carelessness.

TWICE MARRIED.

Marriage may be a failure, to some but to one man in Oregon it is not. Early last spring a young man moved to Salem, from Brownsville. MONEY NO OBJECT. A Young Lady Lends All Her Property to Marry the Man of Her Choice.

There passed down on the overland train to Portland yesterday morning a wedding party, with whom a little romance is connected. One year ago Miss Sophia of Jacksonville, was perhaps the most wealthy lady in Southern Oregon, having inherited by the death her father, the late Jacob Ish, over \$100,000. Mr. W. H. Gore, of Portland, sought the young lady hand in marriage, but she was objected on account of his being poor, while she was rich. This did not deter them, however, for she recently deeded away all her property to her relatives, and then married the husband of her choice. Their future home will be in Portland.

Delightful Social. The spacious parlors of the residence of Hon. Geo. E. Chamberlain were well filled Friday evening, that evening having been selected by the ladies of the First Presbyterian church, for their fraternal club, and was a most social. The guests were received and made welcome by Mr. and Mrs. Chamberlain, assisted by Mrs. C. W. Renner. After a couple of hours of music, games and elegant luncheon, which was served, the guests were entertained until a late hour, when good-nights were said with many expressions of good feeling toward the entertainers. Among those present were Mrs. John D. Mason, Dr. and Mrs. F. W. Maston, Mr. and Mrs. E. F. Sox, Mr. and Mrs. F. C. Searls, Mr. and Mrs. Washburn, Mr. and Mrs. C. W. Searls, Mr. and Mrs. D. G. CHANGE OF TIME.

The Overland Will Not Breakfast at Albany.

Beginning next Sunday the Southern Pacific overland train will leave Portland at 7 p. m., instead of 6 p. m., as now. The object of this change is to enable the traveling public who come in on the Union and Northern, and who do not wish to stop over there, to take the Southern at once and go through.

The north-bound overland will not stop at Albany for breakfast, but go right in to Portland, as the present time of arriving, 9:35 a. m., will be maintained. This schedule will give the train twenty minutes longer between Portland and Ashland, which addition is expected to prove adequate for the winter schedule. This arrangement will also provide close connections at Sacramento, obviating a present gain there.

THE ALBANY WATER WORKS.

The Demand for Water About the City Constantly Increasing.

A visit to the Albany water works will furnish another proof of the station Albany is attaining as a city. These works were first built and placed in operation in 1879-80 under the supervision of L. E. Gray, who has ever since been the superintendent. When the present owners assumed control of the business they selected Wallace Baldwin as secretary and he is proving a courteous and efficient officer. The works are supplied with two low pumps, each with a capacity of 1,000,000 gallons per day. But one is kept running, the other being in readiness in case of accident. The demand for water has rapidly increased every year, and now all drawing into the canal has been stopped, and every day over 600,000 gallons of pure mountain water is distributed to the various houses about the city.
