NEW YORK, Nov. 17.—In a special from London the Baring brothers state that their financial position was sound now, as the banks have guaranteed three years' support for it. The firm will realize 4,000,000 pounds surplus. They now hold 2,000,000 pounds of the best commercial paper in the world. Their total liability is 21,000,000 pounds. It is conceded while they are embarrassed by the steady depression in the Argentine, the principal and precipitating cause of their trouble was the Russians' withdrawal of 5,000,000 from the firm's account.

NEW YORK, Nov. 17.—It was rumored on the street this evening that the Manhattan bank had borrowed \$1,000,000 on loan certificates from the clearing house. The officers of the bank would not talk on the subject and President Tappan, of the clearing house, would not deny or affirm the rumor. It was said by several brokers that the Manhattan bank was in a perfectly sound condition and the borrowed million was for the use of several of the banks customers, who had given gilt edge security for the same. This evening the state superintendent of banks, Preston, said that it was definitely decided that the North River bank would not resume.

NEW YORK, Nov. 17.—The will of the late Robert Ray Hamilton was filed this afternoon. He bequeathed to "the child, my adopted daughter," an annuity of \$1200 to be paid in monthly installments during her natural life. Several other bequests were made, but Eva Hamilton was not mentioned among them.

A SUICIDE.
J. H. Lister of Oakesdale, Wash., a lawyer, aged about 65 years, committed suicide sometime Wednesday at his room in the Union Hotel. He had been on a saloon for several days and had been drinking. He intended to commit suicide, and that if he didn't show up during the day his body would be found in his room. As he did not appear in his appearance his room was entered about 7 o'clock p. m., and his body was found. Coroner Shaw was at once notified, and started for Oakesdale Thursday morning.—*Colfax Gazette.*

NOT IMMINENT.
Gen. Miles Says that the Reports of Trouble are Exaggerated.
CHICAGO, Nov. 17.—General Miles, accompanied by Col. Corbin, returned this morning from St. Louis, where he, yesterday, had a consultation with Secretary of War Proctor concerning the alleged Indian trouble in the Northwest. Col. Corbin said today that there is no doubt, if the Indians were to decide upon an outbreak, they could do much harm. They have an abundance of rifles and ammunition, plenty of horses and large supplies of meat, but winter is coming on and the officers hardly think there is any immediate danger of an outbreak. Col. Corbin said the stories of the evacuation of districts by settlers in North Dakota are overdrawn. We have made, he said, a careful estimate of the number affected by the messiah craze, and they are in all not to exceed 30,000 Indians. Of this number, perhaps one-fifth are able-bodied warriors, and one-half, or 15,000, could bear arms. We have taken measures to intercept any outbreak.

Australian Sculling Race.
SYDNEY, Nov. 17.—McLean defeated Staneby in a sculling race on the Parramatta river today.

Mongolian Pheasants Business.
The Oregonian says: Inquiries continue to be received here for Mongolian pheasants. The pair commissioners of Springfield, Mass. have written to a gentleman of this city to find out what the chances are for obtaining some of these birds. There are thousands of these up the valley, and pot hunters shoot scores and scores of them, but no one seems to be able to catch any to furnish people who want live birds to stock parks, etc. Here and there is a person who has raised a few pair of these birds, but they do not know how to mate them, and if any one wants to buy them the birds do not materialize. The last lot of pheasants brought here by Judge Denny were turned loose on Protection Island. The island has changed proprietors two or three times since, and Mr. J. G. Warner who lately spent two or three days on the island, says there are 300 to 400 pairs of Mongolian pheasants and about 100 pairs of golden pheasants there. The pheasants increased so fast and became so numerous that a great many were shot. The man who owns the island now would sell some of the birds, but it is so far from anywhere that it is difficult to make any negotiations with him. A gentleman here has a pair of golden pheasants which came from the island, and if the park commissioners of Springfield would send him a letter he could probably get all the pheasants, Mongolian and golden, that they wanted. Mr. Warner has sent to China for five pairs of golden pheasants and five to ten pairs of Mongolian pheasants, and has built a large coop or cage with wire netting, in which there are trees and brush, and in this rooky cage will place these birds, and hopes to raise a lot of youngsters. Judge Denny is expected home from Corea in the spring, and he may bring some more game birds.

THE O'BHEAN DIVORCE SUIT.
LOSANGELES, Nov. 17.—The trial of the O'Shea divorce case was resumed this morning. After hearing the testimony of a number of persons the evidence closed. As neither the respondent nor co-respondent made a defence, the case was given to the jury, which returned the verdict that adultery had been committed by Mrs. O'Shea and Parrell, and that there had been no cohabitation on the part of Capt. O'Shea. The court granted a decree of divorce with costs to the petitioner, and also awarded him the custody of the young children.

STARTLING FACTS.
The American people are rapidly becoming a race of nervous wrecks, and the following suggests the best remedy: Alphonso Hemphing, of Butler, Pa., swears that when his son was speeched from Dr. Vitus Dance Dr. Miles' great Restorative Nervine cured him. Mr. J. R. Miller, of Valparaiso, and J. D. Saylor, of Logansport, Ind., each gained 20 pounds from taking it. Mrs. H. A. Gardner, of Vistula, Ind., was cured of 40 or 50 convulsions a day, and much headache, dizziness, backache and nervous prostration by one bottle. Trial bottles and fine book of marvelous cures free at Standard & Cutler, who recommends and guarantees this unequalled remedy.

MANDAN, N. D., Nov. 17.—A friendly Indian brings in a warning from the Sioux. The Indians are here from the Indians, as they propose to attack Fort Abraham Lincoln, knowing that but fifty soldiers are there, then capture Mandan, massacre the citizens and burn the town. THE INDIAN TROUBLE.
He read the paper awhile and laid it aside with the remark: "There doesn't seem to be much in the papers these days. By the way may I trouble you for that city directory? Thanks. I want to look over it for the address of a friend or two."
He spent five or 10 minutes looking through the directory and then rose as if to go.

"Have you an almanac?" he inquired, after standing irresolutely in the doorway for some minutes.
"Thanks, no," said the proprietor. "The clock is exactly right."
"All right, sir."
"Now, if you don't mind," he said, after sitting a while watching the clock, "I would like to see the clock in your counter. I see nobody is using it."
"That's all right,"

GEN. MILES RECEIVED FROM THE POST ADJUTANT AT FORT CUSTER.
Mont., the report of Lieutenant Robinson, who carefully investigated the new religious craze at the Cheyenne agency. His talks were principally with "Porcupine," the apostle of the new religion among the Cheyenne, and with "Big Beaver" who accompanied Porcupine on his visit to the new Christ at Walker Lake, Nevada, last year. Porcupine told him there were several hundred Indians at Walker Lake at the time, including representatives of Cheyennes, Sioux, Arapahoes, Grosventures, Utes, Navajo, Sheep eaters, Bannocks and other tribes. Porcupine first heard of this new Christ at a meeting in Fort Cheyenne, Wyoming, where he and some other chiefs visited last fall. An Arapahoe who had been in the southwestern country in '88 told them about it. Porcupine insists that the teachings of the new Christ were in the interests of peace and good order and industry on the part of the Indians.

Lieut. Robertson asked him how it was then that certain Indian tribes had made this new doctrine a basis for neglecting their crops, indulging in demoralizing dances and even in disorder. Porcupine replied that nearly all the Indians who had gone to hear this new Christ with him, had gone hoping to hear him preach some incendiary doctrine. They were disappointed at hearing that the new creed required them to study work and be brave themselves, and concluded on their return not to relate strictly what had been told them, but to preach doctrines more agreeable to the Indians.
