THE WORLD'S FAIR.

Busy Scenes at Army Headquarters, REVOLVER GETS IN ITS WORK.

Growth of Banks—California Rais—The Ancient Terry Suit—Basis on the Jews.

CHICAGO, Nov. 24.—The national world's fair commission this morning passed a resolution authorizing an action with a view of securing a proper appointment of two commissioners from Alaska. The report of the committee on awards, recommending that bronze medals and certificates be used instead of money, was adopted. At the meeting of lady managers, Mrs. General Logan urged that the business be hurried through. "Every day we stay here," said she, "costs the nation over \$1000; let us do something and save ourselves from ridicule." Among the matters proposed by different members were: An administrative building for the use of the board on the fair grounds; no separate building for the exhibition of women's work; that the salary of the secretary be \$5000 and that every exhibit be accompanied with a statement specifying whether it is or is not "produced in whole or in part by female labor."

ABOUT THE BANKS.

The Report of the Comptroller of Currency.

WASHINGTON, Nov. 24.—The annual report of Comptroller of Currency Lacey covers the operations of the bureau for the twelve months ending October 31st. During this period 207 new banking associations were organized; 51 have gone into voluntary liquidation, and 144,193,940. In connection with the present insolvency, in the amount of coin and paper currency in circulation, the comptroller says the evident lack of currency is greatly aggravated by the retirement of national bank notes, which form a paper money alone, possessors that elastic property so essential in a perfect circulation. The comptroller says it rapid extension is a correct criterion of the national banking system is more favorably regarded than heretofore, and the transactions of the year have been attended by more than an average degree of success.

RAN OFF WITH THE CHILD.

That is the Way a Russian Girl Took Revenge.

NEW YORK, Nov. 24.—A Russian romance was developed at the barge office to-day. Mark Koss was once a prosperous tailor at Kiev, Russia, and Sara Rowinski was his sweetheart. But the lovers quarreled, after which Mark made love to another girl, whose name was Hannah, and married her. Two years later he came to America, leaving his wife, who was ill in Kiev, with their ten-months' old child.

The doctors advised Mrs. Koss to go to Kiev for a special treatment. She could not take her child and advertised for a nurse. Sara Grinberg responded and was engaged. After several months' treatment Mrs. Koss came home, much improved in health, but the nurse, Grinberg, had left and taken the Koss child with her. Mrs. Koss was well nigh frantic upon learning that the nurse had a husband in America and naturally concluded that she had gone with him. She immediately bought a ticket and followed. At the barge office she met her husband on Wednesday and related the circumstances to him. Then for the first time she learned that the nurse, Sara Grinberg, was her husband's old sweetheart. This cleared the mystery away. Sara had avenged herself on Mark by running off with his child.

The gentleman who furnishes this information is of the opinion that the Burlington & Missouri people are back of the scheme.

Joseph Simon to Be Appointed for the Oregon Improvement Co.

NEW YORK, Cal., Nov. 24.—It was stated to-day, and not denied by the company's office, that the Oregon Improv't Company to-morrow would apply to have Joseph Simon appointed receiver, the appointment to be made in Portland. It was also stated, and not denied by the treasurer, that the interest due on the bonds was enormous. The company's trouble is said to be due to the fact that loans have been called and the company was unable to pay them.

A BRUTAL HUSBAND.

He Drives His Wife From the House at the Mouth of a Pistol.

OYSTER BAY, L. I., Nov. 24.—Henry C. Baker, a well-known politician, who keeps a road house on the Cove road, was committed to the Queens County Jail this morning. He went home on Tuesday evening accompanied by a strange woman and immediately ordered her to leave, so that he might install the new owner in her place. When Mrs. Baker learned that her husband had a wife in a maniac, assaulted her and inflicted serious injuries, and finally drove her and her daughter from the house at the mouth of a pistol. He also smashed everything of value in the house, the interior of which was badly wrecked.

Mrs. Baker sought refuge with her husband's brother, who resides near by. There she was soon followed by Baker, who flourished a murderous-looking knife in his hand and swore he would kill her. She was compelled to leave the brother's house and hide in the woods near by, remaining there for nearly twenty-four hours, her only shelter being a dilapidated outhouse, and she was suffering greatly from hunger and exposure when her friends found her yesterday at noon.

Baker was arrested early yesterday morning after a hard struggle by two deputy sheriffs who had been sent for from this village. The young woman whom he had intended should supplant his wife escaped during the excitement attending Baker's capture.

They Helped Themselves to Beef.

CHICAGO, Nov. 24.—A dispatch from Valentine, Neb., to the Associated Press says that ration day passed quietly at Rosebud. Not more than 20 of Sitting Bull's followers came, owing probably to the fact that they helped themselves to government beef. There is no likelihood of a conflict unless the troops attempt to arrest the fanatics who are responsible for the theft.

Announced that Parnell will Retire

LONDON, Nov. 24.—It is stated on excellent authority that Parnell will announce to the meeting of the nationalists members to-morrow his retirement from the leadership.

CAUSE OF THE TROUBLE.

Loans Falling Due Cannot be Paid Hence a Receiver.

SEATTLE, Nov. 24.—Resident Manager McNeil of the Oregon Improvement Company, showed a genuine surprise when informed of the reported application for a receivership. He simply said: "I don't know anything about it, and have nothing to say about it." From another well informed quarter it was learned that the trouble dates back to the close of Villard's management of the company. When he left the company there was a floating debt of several millions existence of which could not be explained, this debt has never been cleared off. When the first mortgage on the property was issued bonds were not immediately sold, but were hypothecated to raise money and the company was on the verge of defaulting in payment of money, and going into the hands of a receiver. The second mortgage for \$15,000,000 was given last spring and the bonds were issued. The proceeds to be used in the building of the Port Townsend Southern railroad from Port Townsend along the west shore of Hood's canal to Olympia. The Seattle and Northern railroad from Anacortes up the Skagitriver to Hamilton and building the Olympia and Chehalis valley road which runs from Olympia to Tenino. The last named road was to form a part of the Port Townsend Southern road, which it was proposed to finally extend to Portland. These bonds were never sold but were hypothecated in the same way as the first issue. Loans are now falling due and are supposed to be the cause of the trouble.

MORE CARS WANTED.

To Move the Crop of Eastern Washington.

TACOMA, Nov. 24.—The chamber of commerce at a special meeting to-night adopted a resolution calling on rail roads to furnish more cars to transport wheat from eastern Washington and Oregon to the sea-board. There is a very large wheat blockade in eastern Washington, where the crops was enormous this year. Every depot and warehouse is full and much is piled in sacks about the stations, but slightly protected from the weather. The president of the Northern and Union Pacific lines were telegraphed to asking measures to be taken at once to afford relief and save the farmers from loss.

SCENE OF HOSTILITIES.

Changed to a Wisconsin Pinery and Waged Against Osen.

SHAWANEE, Wis., Nov. 24.—There was a serious outbreak on Saturday afternoon on Menominee reservation. One hundred and fifty armed Indians surrounded a logging camp of Henry Sherry. Horses and oxen were killed and the camp outfit destroyed. The thirteen white men present were unarmed and fled for their lives. The Indians claimed that the white men were trespassing.

News to the Attorney.

PORTLAND, Nov. 24.—J. C. Haines of Seattle, general attorney of Oregon Improvement company was seen in this city to-night. When shown the dispatch stating that an application would be made to-morrow for a receiver he said, "I know nothing whatever about the matter. As far as I know the company is solvent." Joseph Simon, who, it is reported, is to be appointed receiver, could not be found, his brother, however, would be appointed a receiver should he be appointed as he had heard his brother speak about the matter to-day.

Nickell of the Jacksonville Times Is Caught On Lottery Adv.

BANKER BELMONT DEAD.

The Indian War Is In Wisconsin And Against Oses and Camp Equipage—A California Fruit Fire.

SPOKANE FALLS, Nov. 24.—The joint congressional committee on immigration, consisting of Senator Squire, of Washington, and Representative Latham and Stamp, of Maryland, held three sessions here to-day, and took testimony relative to the Chinese and to immigration generally. Two special customs inspectors, who have been patrolling the international boundary in Stevens and Okanogan counties, testified that the Chinese are being constantly smuggled across the border. They are helped by Chinamen on the Colville Indian reservation who have married squaws. Owing to the length and wildness of the border the inspectors can only watch the leading trails and passes and the Chinese can easily evade them. They recommended the establishment of two or three stations in the remote regions where inspectors cannot venture now for lack of supplies, and an act requiring the Chinese here now to take out certificates so that hereafter they can be distinguished from the smuggled Chinamen.
