THE combines and trusts continue to fatten and grow. They are constantly extending into new fields, and in a short time, apparently, they will occupy and control every avocation in the land. One of the recent gigantic ones is that of harvesting machinery. The Chronicle says: "If the big combines of all the manufacturers of harvesting and threshing machines carry out their promise of reducing prices to the farmer they set a good example to other trusts. There is no good reason why prices should not be cut, as the cost of manufacture will be greatly reduced by this scheme, but it will be little short of a miracle if the capitalists who compose the trust have any bowels for the farmer." The conclusion of the Chronicle is likely to be the correct sizing up of that combine as well as every other one. But there is one hopeful sign in all these matters and that is that the extent and grasping nature of the combines will probably create a reactionary movement that will very soon correct the tendancy, and operate to the benefit of the farmer and producer.

THE Harlem railroad, because it charged Lawyer Ackerson fourteen cents more than the lawful, maximum rate, for a ride to the races at Morris Park, has come to grief. The fare should have been 36 cents, instead of which it charged Lawyer Ackerson 50 cents. Looking the matter up he discovered that penalty for the overcharge amounted to a return of the 14 cents excess of legal rate and with it $50. He immediately set on foot measures that discovered enough overcharged fares to amount, in a judgment against the railroad, to the enormous sum of $275,000. That is what the railroad will have to pay for charging Lawyer Ackerson fourteen cents more than the law allowed. The crop of Lawyer Ackerson's will probably extend all over the United States now, unless Jay Gould fees them all in the start.

IT is becoming pretty generally understood, since the white heat of the election is over, that the accusations against the McKinley bill were false. The advance in prices that was so vociferously proclaimed to be the result of the tariff law, are now acknowledged to have had no foundation in fact, or to have been put on by unscrupulous dealers because the clamor gave them the opportunity so to do. The unevitable logic of events is is past demonstrating that the benefit of the working people of the country is conserved by the measure, and that its accusers are for partisan purposes only.

THE Italian, Succi, who is trying to fast himself into notoriety is but a feeble example of that class of individuals who stop at no insane action, short of courting criminal procedure, to gain attention and a modicum of wealth without actual labor. The old rendition of the subject was too cowardly to steal too lazy to work and to proud to beg. The class really deserve contumely rather than a single glance of attention.

THE new Alliance members of congress are claimed by the democrats. What they will be in their congressional action remains yet to be seen, but in all probability it will be neither democratic nor republican, but will be on the line of the particular plans of work laid out by the organization, and may be effective and of great utility, or may be extremely futile just as the wisdom of its leaders guide the action into the right channels.

AN installation for the purpose of plowing the land by electric motors has been set upon property belonging to the Marquis de la Laguna, of Spain. The power of a water-wheel of about twenty horse-power will be employed, and the implement for working the land is expected to work at a distance of three miles from the generating dynamo.

BUFFALO BILL, who is out in Dakota lending assistance to the troops to quell the Indian racket in that vicinity, and was sent to headquarters of the Indian dancers to apprehend Sitting Bull, says that "winter has set in, and if the Messiah does not get a move on himself the snow will blow through his whiskers so rapidly he will forget to materialize."

THE cigar dealer in New York City, who has come into possession of the collossal wooden statute of George Washington which in ye olden time ornamented the Battery in that city, will probably resent the impeachmedt cast upon his patriotism because he used it upon Thanksgiving day to increase the amount of his sales.

THE election bill is before the senate for action, but will probably not pass, as quite a number of republican senators are opposed to it.

THE proposed new appo tionment bill now before congress gives to Oregon two representatives.

THE delaying tactics are again to be brought into play in the congressional work.

Prof J. W. Johnson, president of the State University, says it cured him of a cough after two other prescriptions had failed. Likewise two of his little girls used it to cure their coughs. Mrs Mark Bailey, wife of Prof. Bailey, sent it to Prof. Johnson, and recommends it to all who suffer from colds and coughs. For coughs it acts like a charm, and can be inhaled into the lungs or passages, where no other cough cures can reach.

DEAR S. L. R: I consider one dose of Simmons Liver Regulator worth $100. was constipated, had Headache, could eat nothing with satisfaction or appetite, had the blues, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinin, and every remedy suggested, but only obtained temporary relief. One dose of S L R did more good than $100 worth of doctors and doctoring. Resp'y, J C MARTIN.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely cured by Simmons Liver Regulator.
