It will be remembered that the Stanford bill Pacific rai road are becoming a provided for loans up to one-half part of the important industries of the assessed value of the land. scheme is to be indorsed in sober over with a view of erecting more earnest by the Farmers' Alliance extensive saw-mills. it is time for the people of the

United States to do some thinking on the subject of national finances. The San Francisco Chronicle suggests that people of the United results of a similar scheme, the cedu'a system, in the Argentine Republic, and see to what it had led there, and what would be the inevitable results if the same or a like system were to be adopted bere.

Ir is evident that the war lepartment does not intend .o be caught napping by the old scoundrel Sitting Bull and those whom he controls. While there is nothing in the situation to indicate any fresh cause for alarm, the government is very sensible in massing troops in readiness for and outbreak, for the way to fight Indians

is to strike quick and hard. A temporary success so exalts and elates them that they think themselves invincible, while if they are met at once and cowed by a superior or better-disciplined force they are apt to become discouraged anI surrender or cease their warfare. The policy of General Miles in massing an overwhelming force of troops at the scene of Indian nostilities is the only correct one. In previous Indian campaigns the soldiers have been so few that the

BALFOUR'S generosity must touch the Irish heart. He has proposed in the commons that parliament vote £5000 to provide seed potatoes for the distressed Irish land cultivators, which are to be sold at a discount of 20 per cent in cash. In view of the fact that the distressed Irish land cultivator is on the point of famishing and has not enough money to buy a square meal this offer will not be considered a strikingly generous one.

Indians laughed at them. This
