## DAY IN CONGRESS.

### Resolution for the Removal of Grant's Remains Defeated.

PORTLAND GETS \$100,000.

Collector Phelps Recommends That the Importation of Opium be Prohibited. Cleveland Is "In It."

WASHINGTON, Dec. 9.—In the house, Morrow, of California, presented the credentials of Thomas J. Geary, from the First congressional district of California, to fill the vacancy occasioned by the resignation of J. J. Delavan. Geary took the oath of office. The committee on appropriations reported a bill making a deficiency appropriation for the public printing and building committees. The same committee reported the fortification bill in the same order. The house then resumed the consideration of Plumb's resolution, looking to the removal of General U. S. Grant to Arlington. After some discussion the resolution was defeated; yeas 92, nays 153.

The house committee on military affairs completed the consideration of the army appropriations bill for the next fiscal year. It appropriates \$24,042,029.

IN THE SENATE. Senate bill to authorize the First National bank of Fort Benton, Mt., to change its location to Great Falls, and its name to that of the Northwestern National bank of Great Falls, was passed. The senate bill introduced last session to establish a public farm in each county of the territory, the republic, was reported back adversely, and indefinitely postponed.

Plumb introduced a bill to reduce the amount of the United States bonds required of the national banks, and to replace the surrendered notes, and provided for the free coinage of silver; referred to the committee on finance. He also offered an amendment in the same terms to a bill now on the calendar, so that the matter can be brought before the senate independently. A report from the finance committee in doing so gave notice that the elections bill was not disposed of at an early day he would move to lay it aside for the time being, in order that the bill just introduced by him and all other measures relating to the financial condition of the country be considered.

### OPINION STATISTICS.

Collector Phelps. Recommendations That Its Importation be Prohibited.

SAN FRANCISCO, Dec. 9.—Collector Phelps was the principal witness before the congressional committee on immigration to-day, and furnished some statistics concerning the use of opium. He stated that between July, 1888 and November 1st, 1890, there had been imported, in round numbers, 176,000 pounds of prepared smoking opium, the duties on which approximate \$1,760,000. In the same period 177,000 pounds of crude opium has been imported. The collector expressed the opinion that half as much opium is smuggled in as comes through the custom house. He said that opium smoking was becoming common in many parts of the country where it was formerly unknown, and was even being used by children. The witness said he wished to make the suggestion that the importation of smoking opium be absolutely prohibited.

### CLEVELAND A CANDIDATE

He Will Go Before the Democratic Convention in 1892.

MINNEAPOLIS, Dec. 9.—A special from Sioux Falls, S. D., says: J. Leslie Thompson, one of the wheel horses of South Dakota democracy, has just returned from New York, where he had an interview with ex-President Grover Cleveland. Cleveland said that he would surely be a presidential candidate in 1892, and wanted South Dakota friends to stick by him.

### A BIG APPROPRIATION.

Portland Gets \$100,000 for a Public Building.

WASHINGTON, Dec. 9.—Among the bills passed by the house to-day was one appropriating \$100,000 for a public building at Portland, Oregon.

### Arms to be Issued.

### Farnell to Dublin.

LONDON, Dec. 9.—Farnell started for Dublin to-night. A large crowd of Irishmen, residents of this city, assembled at the railway station and cheered Farnell wildly. He will speak at several places in Ireland.

## DIRECTOR AMES TALKS.

He Believes That the Worst Is Past.

BOSTON, Dec. 9.—Director Ames, of the Union Pacific, in an interview to-day said: "I believe that the October earnings are the worst the Union Pacific will show for many months. They tell us from Omaha November should show improvement and I feel December will continue improvement, but I have been so much disappointed in monthly returns that I do not like to prophesy. Trustees have cancelled during this year \$7,307,000 worth of bonds; reducing the annual fixed charges by nearly \$900,000, but only half of this reduction will show in this year's report. These are 8 per cent bonds and naturally, and in September '90 the company will cancel the entire issue, and when all land notes are paid there will be a balance from land assets, to be converted into the Union Pacific treasury. The trustees of this land money have now a million dollars in hand for investment in bonds, and besides the trustees of the Kansas Pacific consolidated mortgage have another million dollars on hand."

### THE WORK WILL CONTINUE.

That Is What the Chief Engineer Says.

PORTLAND, Dec. 9.—For several days past it has been rumored that the Union Pacific railway would discontinue work on their extension to Puget Sound. Chief Engineer Bogue was asked to-night whether there was any truth in the rumor. He stated positively that the work would not be stopped and that the extension would surely be built. He said the matter had been properly represented to Gould and he had concluded that the work should be pushed to completion. He had received instructions from New York a few days ago to reduce all unnecessary expenses. A number of right of way men have been discharged. There would also be a reduction in the engineering force. Mr. Bogue stated that it was the policy of the company to continue operations on the branch as economically as possible. It is claimed that the work has not been started through a misunderstanding of orders from the East, and has been cancelled by those who had interests to serve or were afraid to incur the wrath of the company.

### The Elephant Makes Hay.

CINCINNATI, Dec. 9.—Old Chief, a vicious elephant that has been quarantined at the Cincinnati Zoo, broke his chains to-night and began a general work of destruction. He tore his house to splinters and was proceeding to make a general ruin of the garden, whereupon sharpshooters were called in to shoot him without apparent effect. At 10 o'clock the killing was given up to be resumed in the morning. The elephant is bellowing in a fearful manner.

### Statement Not Satisfactory.

MEADVILLE, Pa., Dec. 9.—The statement of the assigned Delanor bank is not satisfactory, and gave no degree of hope to its depositors, at least without a warrant has been issued for the arrest of Victor M. Delanor, the late cashier of the bank, he being charged with accepting money from depositors after having been notified of the assignment. It is announced in less than 24 hours.

### Voted a Dividend.

CHICAGO, Dec. 9.—The board of directors of the American Live Stock Commission Co. to-night voted a dividend of 150 per cent. to the stockholders, payable Jan. 1st.

## TRAVEL EXTENDING.

A Successor to Applegate at the Klamath Agency.

SUNDAY AT THE WORLD'S FAIR.

The Ghost Dances Extending—The Switchmen Strike—Shot in a Saloon—Mormon Claims.

PORTLAND, Dec. 9.—There is a probability that the Union Pacific will again put on trains 7 and 8 on the overland express. Since they were discontinued on the 1st inst. the fast mail has been unable to handle the travel, and No. 1, west bound, has not been able to wait the cars and it has been in two sections. As there is very little gain in running two sections, it is probable that two trains per day will soon be leaving and arriving at Portland.

### THE SUNDAY QUESTION.

It Mixes Up the World's Fair Business.

CHICAGO, Dec. 9.—Mayor Cregier has signed an ordinance providing for the issue of \$5,000,000 bonds in aid of the world's fair, and it will, with other necessary documents, be placed in the hands of the president to-morrow. Washington Hering, who subscribed \$5,000 to the world's fair stock for the Staats-Zeitung, very positively refuses to complete the payment unless assured the fair grounds will be thrown open on Sunday and liquor allowed sold in restaurants and on grounds.

### LISH APPLIGATE'S SUCCESSOR.

Appointment of Indian Agents To-day.

WASHINGTON, Dec. 9.—Confirmations: Register of land offices—J. D. Grogan, Vancouver, Wash.; Indian agents, E. T. Lanson, Grand Rapids, agency, Or.; D. W. Matthews, Klamath, agency, Or.; O. N. Thornton, Tulatin, agency, Oregon.

### SITUATION GROWING WORSE.

The Indians Still Engaged in the Ghost Dance.

GRITHEE, I. T., Dec. 9.—H. D. McKee, the courier who arrived here yesterday from Frisco, a small town on the border, states there are 4000 Indians in different sections of his place engaged in the ghost dance, and that they are trading off their ponies, blankets and trinkets for guns and ammunition. Never before during the recent craze has the aspect of Indian territory looked so serious. Arrangements are being made to give border towns every assistance possible, and Oklahoma settlers are fully aroused.

### The Utah Industrial Home.

WASHINGTON, Dec. 9.—The annual report of the board of control of the Utah commission of registration and elections, of the Industrial Home Association of Utah, says the fewness of the inmates of the home is, in the opinion of the commission, due to the restraining influence of the Mormon church and female pride, which interprets the position of the institution as an evidence of degraded pauperism. The commission is also of the opinion that if congress would make an appropriation to enable them to purchase the necessary fixtures and appliances, such as sewing machines, etc., and employ competent teachers, that the industrial departments could be opened in which girls could be taught self supporting vocations.

### The Switchmen Strike.

OGDEN, Utah, Dec. 9.—Several days ago the Union Pacific discharging thirteen men from the night force of switchmen in the yards of this city. The result was a strike of the men. Last Sunday a committee visited the general manager but receiving no satisfaction, the strike force of union and non-union men have now gone out.

### More Cars Coming.

NEW YORK, Dec. 9.—Jay Gould said in reference to the rumors about the Union Pacific floating debt that the company had to pay \$300,000 for new equipment, and then the people wanted their money; that all will be arranged. The company receives 130 new locomotives and between 400 and 5000 freight cars, which will enable the road to more than move the wheat in the Northwest, which could not be handled on account of the scarcity of cars.

### Fell 150 Feet.

TOPEKA, Dec. 9.—Deegan, an iron workman on the dome of the statehouse, fell 150 feet this morning and was instantly killed. He struck an iron and was frightfully mangled. Deegan is the ninth iron workman killed within the last five years while at work on the statehouse.

## IMPORTANT CONSULTATION.

Prominent Republicans Hold a Meeting in Washington.

WASHINGTON, Dec. 9.—An important consultation has been going on for two days between Senator Thomas C. Platt, State Senator J. Sloat Fassett, of New York, General John N. Knapp, chairman of the New York state republican committee, General Russell A. Alger, of Michigan, and ex-assistant Postmaster General Clarkson. All are close mouthed as to the object of their visit, and declare that it is not for the purpose of booming Alger for president. Fassett dropped the information that Platt, Clarkson and himself had interests in Tacoma and were consulting about them. Platt is a member of the commission to establish a dyke at Puget Sound, and both he and Clarkson have visited the coast, carefully studying the country. If the site for a dyke has been selected, it is probable that the Tacoma site is favored.

### WEATHER PREDICTIONS.

A Big Storm on the Taps for Oregon and Washington.

SAN FRANCISCO, Dec. 9.—The following bulletin was issued by the signal service office at six o'clock to-night: "Following closely in the wake of the cyclone, first noted in the reports from this office on Sunday last, another storm center has appeared off Vancouver island. This second disturbance has caused a decided fall in the barometer over Washington and Oregon, and extending southward into Northern California and Nevada. Threatening weather prevails in Northwestern Oregon and Western Washington. On the Washington coast storm signals have been ordered to warn shipmasters against leaving port."

### THE NICARAGUA CANAL.

The Final Surveys and Plans Adopted.

WASHINGTON, Dec. 9.—The annual report of the Marine Canal Company of Nicaragua, covering the year ended December 31, 1890, shows during that time the work has been prosecuted with energy and great progress made. Final plans and detailed surveys have been completed and verified. The republican members of the house had a short caucus to-day to select a postmaster to succeed Wheat. Carter, of Montana, secretary of this candidate, James W. Hathaway of Montana, against 39 for the other four candidates.

### THEY ARE DISMISSED.

The Cases Against Quincy A. Brooks Were Not Sustained.

SEATTLE, Dec. 9.—The cases against Quincy A. Brooks, ex-collector of customs at Port Townsend and his chief deputy, John Harrod, who were some time ago indicted on a charge of extortion and embezzlement, came up before Judge Harford in the United States district court to-day and were ordered stricken from the docket for want of sufficient evidence to justify the prosecution.

### The Markets.

SAN FRANCISCO, Dec. 9.—Wheat, No. 1 white, \$1.31 1/2; choice, \$1.32 1/2; milling, \$1.37 1/2 @ 1.40 per cental.

### Silk Manufacturer Failure.

NEW YORK, Dec. 9.—Nightingale Bros. & Night, silk manufacturers, of Patterson, N. J., have assigned; liabilities not less than \$100,000, and the assets is believed to be only about half that amount. The firm has been lawing under difficulties for seven or eight years, and the failure of their chief support, J. T. Walker's Sons & Co., last month precipitated the crash.

### Canadian Pacific Dividend.

MONTREAL, Dec. 9.—The Canadian Pacific directors declared a supplementary dividend of one per cent, making a total of 2 1/2 per cent for the year. Estimated surplus earnings for the year will leave a balance of \$925,000 to be added to the dividend reserve account.

### Wanamaker Has Not Failed.

NEW YORK, Dec. 9.—To a Mail and Express correspondent Postmaster-General Wanamaker to-day: "There is no truth in the story telegraphed from Chicago about my failure."

## CAUGHT AT VICTORIA

He Was Discharged Because There Was No Case.

A HORRIBLE MURDER.

Dillon Chief, Holcomb Assistant—The Idaho Legislature—A Dash of Fallers.

SEATTLE, Dec. 9.—Chief of Detectives Rogers received a telegram this morning from the chief of police at Victoria, stating that J. B. Metzler, who is wanted here on a charge of embezzlement, was in Victoria and asking for instructions. Chief Rogers immediately telegraphed back to arrest him and keep him until an officer arrived from here. Metzler was for a long time local manager and treasurer of the State Insurance Co. of Salem, Oregon. A few days ago he left town suddenly, taking with him, so it is alleged, funds belonging to the company. He is charged with embezzlement, the sum involved being between \$1500 and \$1600.

### A WOMAN MURDERER.

Her Head Was Split Open With a Knife.

PORT ANGLESEY, Wp., Dec. 9.—About two o'clock this afternoon Mrs. C. A. Moss was murdered by some unknown person. She was killed evidently by an ax or front of her store, three miles west of this city, near Bradshaw's mill. She was found dead by Frank Markford and a companion, two men who were working near by. Mrs. Moss' head was split open and her right ear nearly chopped off. She was about 27 years of age. Her husband went to Washington, D. C., three weeks ago. She was living alone and conducting a small store. The appearance of the murdered woman was horrible; her dress was torn and shows the marks of bloody hands. Officers and men are scouring the woods trying to find the murderer. The coroner will hold an inquest to-morrow.

### IDAHO LEGISLATURE.

That And the Commercial Convention in Session at Boise City.

BOISE CITY, Dec. 9.—At the second day session of the legislature, the special organization was perfected. The committee appointed to wait on the governor reported his message would be ready at 11 o'clock A. M. to-morrow. In the course of a small amount of routine business was transacted. The commercial convention, composed of representative men from all parts of Idaho, with invited delegates from Salt Lake and Ogden, met here to-day. Sixty-five delegates were present, among them bankers, manufacturers, stock growers, agriculturists and mining men. The convention's object is to devise means and methods of advancing the material prosperity of the state. Committees were ordered on the following topics: Columbian fair, state immigration bureau, public lands and water rights, merchant's license, railway tariffs, extension of railway system, mines and manufactures, future commercial conventions, preservation of forests.
