SILVER QUESTION

Did Not Prove the Name and so Failed to Convict.

PARNELL IS AGAIN ON DECK.

The Indian Troubles Favorable to a Placated Settlement—Fatal Dual Between Father and Son.

WASHINGTON, Dec. 11.—The national executive silver commission today issued an address to Congress. The commission believes the present money stringency is a result of the silver issue, and is not entirely due to the attempt to conduct the world's growing business on the narrow gold standard. It again appeals to Congress to delay no longer the resumption of silver to the unlimited use as money with all the rights of coinage and legal tender possessed by gold. Money to supply the probable population of the United States alone for the next century with the same percentage now have will require the production of the metals as great as the entire production of the American continent since its discovery by Columbus. With free coinage of silver the difference between silver bullion and silver coin must at once disappear and silver speculation.

FATHER AND SON QUARREL OVER A WOMAN AND THE SON IS KILLED.

GALESVILLE, Tex., Dec. 11.—A fatal duel took place Tuesday night in Paine's valley, Indian territory, between Senator Sam Paul, of the Chickasaw legislature, and his son Joe Paul, in which Joe received a bullet wound in the back and one in the breast, and the father was killed. The duel was in the high, made by a pistol ball fired by the son.

Reports from Paine's valley state that the young man died of his wounds last evening, but the father will recover. It is said the duet was a result of a quarrel over a woman. Sam Paul is a quarter-blood Indian, and has been very popular with the Chickasaws. Last summer he ran for governor of his nation on the progressive ticket and was defeated by Governor Byrd. A few weeks ago he went before the United States commissioner and swore his allegiance to the United States government and secured his first papers to become a citizen. This, it is said, makes it necessary that he should be tried in the United States courts.

CROWBAR ARGUMENT.

It Opens the Newspaper Business for Parnell.

DEBUISS, Dec. 11.—The struggle for the possession of the United Ireland assumed a new phase this morning. Parnell again is in possession. The opponents of Parnell, but did not enter the office and deposing all the leaders prepared by Lemay, appointed yesterday to succeed Bodkin, a manager during the absence of Wm. O'Brien, left a guard in possession with orders to resist any attempt to enter the office or his friends to enter the building.

This morning Parnell proceeded to the office, and with the assistance of the crowd his supporters forced open the doors and took possession. The police witnessed the affair, but did not enter the office. Parnell went to the window and addressed the crowd.

THE INDIAN WAR.

The Situation Favorable for Settlement.

WASHINGTON, Dec. 11.—General Schofield today received a dispatch from General Miles, of which the following is an extract: "Reports from General Renger and General Brook are favorable. The presence of the troops row in position has had a demoralizing influence upon the Indians, and war like are now giving evidence of submission. Captain Ewers, of the fifth infantry, has returned with Hump from Fort Bennett. Hump desires to renew his allegiance to the government, and it will be made use of in bringing in the others."

JUSTICE GONE AWAY.

The Jury Falls to Convict on a Technical Point.

BAKER CITY, Dec. 11.—

The jury in the case of E. C. McCarty, aged twenty, indicted for murder in the second degree for killing F. G. Winghamam by stabbing him in the head with a corkscrew in the Lyceum theater in this city Nov. 19th, returned a verdict of not guilty, after being out twenty hours, the prosecution failing to prove the name of the deceased.

JOHN RYAN'S CASE.

The Prosecution Concluded and the Defense Will Be Taken Up.

PORTLAND, Dec. 11.—The examination of John Ryan, charged with embezzling money from the Union Pacific company, was taken up at a late hour yesterday afternoon and after all the evidence of the prosecution had been taken, an adjournment was ordered till tomorrow, when the testimony for the defense will be furnished. Several parties swore that Ryan allowed them overtime and two men testified to being paid for work which they never did.

THE IDAHO LEGISLATURE.

It Will Vote To-morrow On U. S. Senator.

BOISE, Idaho, Dec. 11.—The legislature transacted a routine business today. No vote has yet been taken for United States senator, but may be to-morrow. The state commercial convention adjourned tonight, and the legislature will meet to-morrow. The state board of trade organized with M. B. Givins, of Caldwell as president and H. Z. Burkhart of Haley, secretary.

Millionaire Campbell at Niagara.

CHICAGO, Dec. 11.—The police have received a report that the millionaire, Millionaire Campbell has been seen in Detroit and the clew indicates that he went on to Niagara Falls.

Agricultural College Fund.

The Salem Journal says that State Treasurer Geo. W. Webb paid \$15,000 to treasurer of the Agricultural college at Corvallis, Oregon. This money is from the national government and was appropriated by an act which passed congress and became a law on the 30th day of August 1890. The act provides that \$15,000 annually be appropriated to the Agricultural college and territories for benefit of mechanical and agricultural colleges. It further provides that a \$1000 additional be appropriated each year, until the sum reaches \$25,000. This money was sent to the state treasurer, rather than to the school, after returns or erase a part of the state funds and the enactment requiring that the money be paid when demanded. Mr. Webb paid it without the usual course of warrants being drawn.

Oregon Still Ahead.

Away out on an Illinois prairie where a dead level spreads from horizon to horizon on the swampy banks of Lake Michigan at a place called Chicago, the Masonic fraternity are building a huge house, which to the dwellers of that illimitable area seems like a mountain. It will be 175 feet by 114, and 20 stories high. The roof will be 30 feet from the street. When completed it will be the tallest commercial building in the world. The Chicagoans think this a stupendous pile, and so it is. Yet how insignificant it is when compared with the architecture of Oregon, planned and wrought by the Grand Master of the universe. How tiny this structure appears when compared to an Oregon mountain. Mount Hood is 730 stories high, with her base of rocks, a circle of trees and a diadem of snow.

The Reason Why.

Why is it that Klein Bros. can afford to sell boots and shoes so reasonable? Because they are both practical shoe makers and make of their expenses by working on the shoe bench, and any boot or shoe you buy of them, no matter what kind it is, man, woman or child, that rip, run over or the sole rips loose they repair them for you free of charge, and as they do all the work themselves, they don't charge you 25 to 50 cents a pair extra for a warrant to pay some shoemaker to repair them for you. They also make a specialty of repairing rubber boots.

King's Daughters' Entertainment.

The King's Daughters, of the M. E. church, will on Friday evening, Dec. 12th, give an entertainment, fair and social at the W. C. T. U. hall. A nice programme will be rendered, and also quite a number of useful articles will be on sale at reasonable prices. During the evening the young ladies will serve a lunch of coffee and cake to those who desire for 10 cents. The programme will begin at 7:30 o'clock. Everybody is cordially invited to attend. Admission 10 cents.

DAY IN CONGRESS.

The Senate Considers the Election Bill.

ALASKAN CHILDREN'S NEEDS.

Fortification Bill Passed Printing and Bidding Deficiency Met—Penalty for Tampering With Election Returns.

WASHINGTON, Dec. 11.—In the senate today the election bill was taken up and Wilson, of Iowa, spoke in favor of it. The question of the right of individual citizens has been raised, but equality of states in the matter of representation has been denied. Thus Mississippi and South Carolina, with a population of 1,125,000 and fourteen members to the house of representatives, while Iowa, with a voting population of 232,255 sent but eleven members. The people of this country could not believe that the people of Mississippi and South Carolina were as free to use the ballot as the people of Iowa. Frye said it in order to secure the right of an American citizen to freely cast his ballot and have it counted as cast, it was necessary to put a by-law behind every ballot he would do so (applause and hissed) the gallery which were promptly suppressed. Daniel commented on Frye's declaration, saying it was not the conception of the republic which its founders had and was not the conception which the American people had today.

Killed Five Persons and Himself.

St. Louis, Dec. 11.—The Republic's Fort Smith, Ark., special says: Chas. Joplin shot and killed five persons this morning at the Jenny lead mine, 12 miles from here, and then suicided by shooting. Those killed were John Miller, wife and daughter, Lou Miller, Dr. Stewart, a prominent physician and an unknown man. The only clue to the cause of the killing lies in the report that Dr. Stewart intimated that Joplin was the cause of Miss Miller's trouble.

Color Line Denounced.

DETROIT, Dec. 11.—At the convention of the American federation of labor this morning a resolution asking the federation to support woman's suffrage was reported favorably. The grievance from the "South-in machinists" union was read regarding the proposed addition, and one of the delegates arose to denounce a section in their constitution which confined the admission to white men. A resolution excluding such lodges as draw the color line and to organize the machinists in a national body who do not inject the clause into their constitution, was introduced and finally after considerable debate a respectful request was added asking the Southern unions to strike the color line from their constitution, and the whole was referred to the executive committee.

Got Himself Into Trouble.

COLUMBIA, S. C., Dec. 11.—Hon. Y. J. Pope, the new attorney-general of South Carolina, ends himself in an awkward position, Tuesday he discharged the clerk in the judiciary department, but in his letter of dismissal testified to his worth and efficiency. L. B. Butler, the dismissed clerk, then asked for General Pope's reasons, he replied that it was a duty he owed the state, as Butler voted for Haskell at the recent election. A lawyer to-day discovered in the discharge of any person for political reasons was punishable by a fine of no less than \$50 nor more than \$1000, and imprisonment not less than six months nor more than twelve months. A warrant may be issued for the arrest of the attorney-general.

Blaine Sent Him Home.

WASHINGTON, Dec. 11.—Governor Ross of Texas complained to Secretary Blaine of the impudence and threats of the English consul, Lya, of Galveston. Blaine told Britain's minister that Lya was no longer useful and the papers have gone to England.

THE IRISH COMMITTEE.

They Are Strong in the Belief that Farnell Is Ruining their Cause.

NEW YORK, Dec. 11.—The Irish envoys now in this city issued a long manifesto to-night. They say when they reached this country six weeks ago, the Irish cause was marching to certain victory, it was conceded on both sides that the general election must bring home a rule majority. Dissolution of parliament could not be deferred beyond two years and undoubtedly placed within twelve months, in less than two weeks they had secured nearly a hundred thousand dollars, and it was certain a sufficient sum would be subscribed to put an end to the last hope of the Unionists. In endeavoring to rivalled Irish leader from our absolute and overwhelming conviction that to indulge our personal loyalty to him one moment longer would be to incur certain loss of ourselves, responsible for the appalling legacy of disappointed hopes which are inevitable triumph of coercion at the polls would entail upon our happy people. They say that the support of Farnell means the loss of the home rule cause.

It Is Proposed to Send Them Reindeer.

SAN FRANCISCO, Dec. 11.—Captain M. A. Healy, of the revenue cutter Bear, in connection with Dr. Sheldon Jackson, U. S. commissioner of Indian Affairs, who has been in Alaska, recently on the Bear, intends at an early date to forward a communication to the Washington authorities in regard to the condition of the Esquimaux and the North-western Alaska. It will be pointed out that the Esquimaux there are suffering great hardships, and in some cases bordering on starvation, owing to the scarcity of deer, and particularly on account of the entire failure of the hunt during the past autumn. Capt. Healy's ideas are to propose to the government the purchase of a number of reindeer of both sexes, which should be on the Siberian coast, and transport them on the Bear to some point on the Alaskan coast where the animals become more numerous. He will also suggest that the government enlist the services of some experienced Siberian natives to instruct the Esquimaux in the art of herding these deer, and as the animals become more numerous, they can be distributed over Northwestern Alaska and form a food supply for the natives.

ST. PAUL, Dec. 11.—A Pine Ridge special to the Pioneer Press, says news from half a dozen scouts sent out several days ago has been brought in by Yankton Charley.
