PORTLAND, Dec. 18.—A few days since an English engineer from London, who is coming out to inspect the Astoria & South Coast road, telegraphed to Wm. Reid, of this city, to meet him next Friday at Huntington, Oregon, and Reid declined to do so, saying he had resigned from the Astoria & South Coast railway board. To-day Mr. Reid received a cable from the London syndicate urging him to meet the engineer and furnish him all information, assuring Reid that three million of the bonds had been sold upon his (Reid's) representations, and that it was essential that he accompany the engineer in his investigations, and that if the engineer reported unfavorably in which they were definitely closed. This afternoon the engineer telegraphed to Reid, saying he was on the train for Portland and asking Reid to meet him at Huntington Saturday. It is thought here that Mr. Reid will not meet the engineer, fearing as it had been in not in harmony with the new board of directors, and that the London syndicate sale of bonds will therefore probably fall through. Private telegrams from Astoria state that the contractors, J. H. Smith & Co., have acquired the entire bonds of \$30,000 issued over the Seaside division of the Astoria & South Coast road, and \$100,000 of the road up stock, which latter is the controlling interest in the railway stock but that the new board has elected in its majority of the stockholders, because J. H. Smith & Co. had not registered their transfer of stock ten days previous to the annual meeting of stockholders as required by the by-laws.

PORTLAND, Dec. 18.—A special from the Sixth cavalry on the Cheyenne river, via Rapid City says: Major Perry's command was joined early this morning near Scout Gus Craven reported near Smith's a large number of Indians in a small creek in the Cheyenne. A number of shots were exchanged while some of the government wagons were crossing the creek. They and the Indians were attacked by forty Indians and over 100 shots exchanged. A number of the Indians were killed and another shot through the hat. A troop of Capt. Wells' cavalry came to the rescue and the Indians ran away. Craven reports having slain thirty-three Indians which contained 100 Indians camped near the mouth of Spring creek early this morning. Troops were sent out to the hostiles returned to the Bad Lands. General Carleton's party to guard the ranch where the Indian was killed yesterday. He was a nephew of King Bear. Yesterday Gen. Carleton sent troops to the Bad Lands to watch the movement of the hostiles. Signals have been established and showed the troops to be attacked. They will be reinforced from here. They reported about twenty spears in the Indian's possession and totally unusable. The only known outlet for the Indians is a trail which goes up Cottonwood across the road from Rapid creek to Wounded Knee. This pass will be closed tomorrow by a large body of the Sixth infantry.

A party from Cheyenne river via Rapid City at 4:30 this morning. A courier just in has announced the camps. He states that a party of fifteen men are being held fifty miles from here on a trail. A daily ranch the Indians have made up their minds to fire the ranch. One occupant is Hon. M. H. Day, and camp to the governor of the state. The courier who brings the news had to make a break through the Indians' line, but they were right and left. One of their bullets penetrated his overcoat. He rode by a circuitous route to the camp. General Carleton's Major Tupper with 100 men to the rescue.

PORTLAND, Dec. 18.—Seven companies of the Seventeenth infantry, Lieutenant Colonel Russell, commanding, left Fort Olney last evening for Fort Robinson by rail, to report to General Brooke for orders. The battalion includes 20 officers and 1,200 men. Many veterans are found in line and rank. They take rations for thirty days, 200 rounds of ammunition for each man and a Hotchkiss machine gun with 1000 loads.

BISMARCK, N. D., Dec. 18.—It is reported that the hostiles in the region are affected with the measles, and are holding meetings in every government building.

The Big Storm Off Coast.

One of the most severe gales that has visited this city for years swept in from the west, and while the damage done was slight, the vessels in the river and alongside the wharves found it necessary to go out extra lines and anchors. It was a fair wind for incoming ships and early in the morning the vessel which was battling with the cyclone outside, ran into port. Pilot Dog was on board, and under a full course of sail, the wind and tide with her, the vessel crossed the bar and came up to anchor at a rapid speed that out a tugboat, which tried to hook on to her, to shame. The velocity of the wind during the height of the gale, which was between 8 and 9 o'clock in the morning, could not be obtained, owing to the line between this city and Fort Cay being down, but from statements of the pilot and officers on the ship which passed the point at that time, the register must have marked about eighty miles an hour. At 5 o'clock when the last report from the point was received, the wind was whistling through the register at the rate of sixty miles an hour and was blowing from the southeast. The river was covered with white caps and the beneficial effects of the work of the jetty was very manifest to captains of incoming vessels. Among them was the British steamer Mought, the captain of which came over the bar when it was breaking "father white," and was in no danger of striking.—Astorian.

Boats and Shores. Purchasers of Boats and Shoes bear in mind that big advertisements and offers of big discounts do not always mean best values. You will have to pay some one a profit as no one can do business without expense. The question is who can sell you the best goods for the least money. SAMUEL E. YOUNG.

REID AND THE ENGINEER.

They Want to Look at the Astoria Road.

PORTLAND, Dec. 18.—A few days since an English engineer from London, who is coming out to inspect the Astoria & South Coast road, telegraphed to Wm. Reid, of this city, to meet him next Friday at Huntington, Oregon, and Reid declined to do so, saying he had resigned from the Astoria & South Coast railway board. To-day Mr. Reid received a cable from the London syndicate urging him to meet the engineer and furnish him all information, assuring Reid that three million of the bonds had been sold upon his (Reid's) representations, and that it was essential that he accompany the engineer in his investigations, and that if the engineer reported unfavorably in which they were definitely closed. This afternoon the engineer telegraphed to Reid, saying he was on the train for Portland and asking Reid to meet him at Huntington Saturday. It is thought here that Mr. Reid will not meet the engineer, fearing as it had been in not in harmony with the new board of directors, and that the London syndicate sale of bonds will therefore probably fall through. Private telegrams from Astoria state that the contractors, J. H. Smith & Co., have acquired the entire bonds of \$30,000 issued over the Seaside division of the Astoria & South Coast road, and \$100,000 of the road up stock, which latter is the controlling interest in the railway stock but that the new board has elected in its majority of the stockholders, because J. H. Smith & Co. had not registered their transfer of stock ten days previous to the annual meeting of stockholders as required by the by-laws.

UNDER THE SNOW.

Buried Five Days Before Being Discovered.

TICKET AGENTS RAMPANT.

Hostiles For the Bad Lands—Through a Trestle and Four Killed—Arrested for Swindling.

BIDGEPORT, Cal., Dec. 18.—Archibald McNabb arrived this morning from Lundy, bringing news in regard to the death of William Robinson and Jacob Weaver. They were killed by a snow slide. Weaver was found alive buried under the broken timbers and debris of the cabin in which they were, both legs and one arm were crushed by timbers and were frozen. He was sensible when found and said he thought he had been so confined five days since the slide occurred. During that time he had gotten hold of a board and was trying to free himself of fallen timbers and had saved the frozen arm from his body without feeling it. The rescue party started with him to town, but he died before they reached the foot of the mountain. Robinson's mangled body was found about 1500 feet down the mountain below the cabin where it had been carried by the avalanche of snow and rocks. Both men were buried at Lundy to-day.

MEETING OF TICKET AGENTS.

They Desire Certain Things But Will Not Get Them.

ASHVILLE, N. C., Dec. 18.—The interstate immigration convention began business this morning. Two resolutions were introduced deprecating sectional animosity and protesting against the passage of the election bill; both were rejected. A resolution introduced by Boone of North Carolina, saying that the war is all over and extending to the north and west an invitation to come and make their homes and aid southerners in developing the richest country in natural resources, climate and location of any section on the face of the earth.

THE WIFE OF THE EMPEROR GAVE BIRTH TO A SON LAST NIGHT.

BERLIN, Dec. 18.—Empress Augusta Victoria has given birth to a son, Emperor William at tended the performance of "Tannhauser" at the opera house last night. During the opera his majesty was handed a note which announced the accomplishment of the emperor. The emperor hurriedly took his departure for the palace. The reason for his abrupt exit was communicated to the manager of the opera house, and he went at once upon the stage and announced to the audience that the emperor had given birth to a son. The announcement was received with the greatest enthusiasm, the audience rising to their feet, hurrahing and shouting "Long live the emperor and empress." The orchestra played the national anthem, the audience singing the words of the hymn.

DRAFTING PLANS

By Which Ticket Scalpers Are to Be Left Out.

NEW YORK, Dec. 18.—A meeting of Eastern passenger agents of the transcontinental roads was held to-day to consider the matter of commissions on immigrant business. The agents all announced that they had no existing contracts for commissions. A discussion on the question of abolishing the commissions finally resulted in the appointment of a commission to draft a plan showing how to prevent the enormous commissions paid scalpers, immigrant agents and boarding house keepers.

MEETING CALLED.

WASHINGTON, Dec. 18.—The recommendations of the Pan-American congress for a meeting of the international monetary commission having been adopted by all of the American republics, President Harrison issued a call for the first meeting in Washington on the first Wednesday in January next.

ANOTHER PRIZE FIGHT.

NEW YORK, Dec. 18.—A special cable from London says that Jack Burke and Ted Pritchard signed articles to fight for \$5000 a side and the middle weight championship of England, to take place in 12 weeks.

A FATAL TRAIN WRECK.

A Passenger Train Plunges Down an Embankment in Canada.

QUEBEC, Dec. 18.—An express train from Halifax on the Inter-Colonial road, due at Lonsis at 10:40 to-day met with a frightful accident about three miles from its destination. The scene of the wreck was an embankment at St. Josephs. The train was running at a high rate of speed, and after passing St. Joseph's station the second-class car appeared to have jumped the track on a curve and dragged the first-class car and sleeper with it, and also derailed the mail car and baggage car ahead of it. Three passenger cars ran diagonally along the embankment for 200 yards, the second-class car striking the western abutment of the bridge. It was in this car that the sacrifice of life occurred. The front of the car was smashed to atoms against the solid stone abutment. As soon as the news of the disaster reached the city, a number of medical men crossed the river and went down on a special train to the scene of disaster and rendered efficient aid to the wounded passengers. The dead are five in number. Their names are Dionne, Gauvin, Blair, Le Clair and Winner. The latter was news agent on board the train. Conductor Walker was badly hurt, and very few passengers escaped with more or less injury. One had both legs broken; another a fracture of the skull, and all were cut and lacerated, but it is impossible at this moment to get a reliable list of the names. At a late hour to-night the work of clearing away the debris of the Inter-Colonial express train wreck has been taken out, that of an uncompleted. One more body has been taken out, but it is believed two or three more bodies will be found when the wreckage is all cleared. Not less than forty people were injured.

A HUSBAND'S CRIME.

He Murders His Divorced Wife and Kills Himself.

FRESNO, Dec. 18.—Dr. F. O. Vincent secured a hack this afternoon and was driven to the residence of his wife, from whom he had been separated for a time. Shortly after he entered the house, three shots were heard. The neighbors rushed in and found Mrs. Vincent dead. Three wounds were discovered, one through the heart. Vincent was arrested and taken to jail. A coroner's jury found him unconscious, having apparently taken poison. Owing to drink Vincent has been going steadily down for months. His wife, who was a model woman in every respect, has worked industriously to support, not only herself, but her husband, and his ill treatment toward her became at last unbearable that she sued for a divorce. Vincent insisted that she withdraw but to no purpose. He sent to her house suddenly and handed the suit to be withdrawn, but she would not consent thereto, she then killed her. The effect of the poison soon passed away and he walked about. The murderer said he had done the best possible under the circumstances, and the jail is strongly guarded to-night to prevent lynching.

EXECUTIONS IN OHIO.

COLUMBUS, Ohio, Dec. 18.—There was to have been a triple execution in the Ohio penitentiary to-night and Governor Campbell last evening gave his final decision as to why he would not interfere in either case. Smith was the convicted murderer of Stephen Phidmore and had been given four reprieves, pending the investigation of his guilt. Notwithstanding the decision of last night, Governor Campbell to-night gave an audience to Bishop Watterson and Attorney Booth, and consented to grant another reprieve to March 20. The other two men were executed. Elmer Sharkey, for the murder of his mother, and Henry Popp for the murder of Morris Grether, a saloon keeper at Canton.

ATTENDED SUICIDE.

SALON, Dec. 18.—A railroad engineer, the name of Sam Young, entered a saloon in this city, and drawing from his pocket an ounce vial of chloroform swallowed the contents, and almost immediately fell to the floor. Physicians were summoned and worked with him until after midnight, and there are faint hopes of his recovery. He has been despondent and drinking of late.

TRAIN WRECK IN OHIO.

NORWALK, Ohio, Dec. 18.—A passenger train on the Wheeling & Lake Erie railroad broke through a trestle near Bolivar this afternoon and killed Mrs. Ada Hill, of Sharonville, Ohio. Henry Hill and Miss Carrie Hill, of Shelby county, Illinois, and one unknown woman. A dozen or more passengers were severely hurt.

ON THE SMOKE DANCE.

AUSTIN, Texas, Dec. 18.—The governor has information from the border that the Kiowas and Comanches are engaged in the smoke dance, and the settlers are becoming alarmed. The governor ordered arms and ammunition sent to the settlers in Greer county.

THE ALBANY BRIDGE.

The Bill Passed by Both Houses of Congress.

ASTORIA AND SOUTH COAST.

Crack Sued Bull Eids Out—Fatal Wreck Near Quebec—Another Prize Fight—International Monetary Matters.

WASHINGTON, Dec. 18.—The senate to-day concurred in the house amendment to the senate bill for a bridge across the Willamette river at Albany, Oregon. IN THE HOUSE. Baker, of New York, called up and the house passed the senate bill, authorizing the city of Albany, Oregon, to construct a wagon bridge across the Willamette river.

HUNG FOR MURDER.

He Pushed His Wife Over the Precipice.

WELLAND, Ont., Dec. 18.—Arthur Hoyt Day, who murdered his wife by pushing her over a cliff at Niagara Falls in July last, was hanged at 8:30 this morning. The condemned man walked to the scaffold firmly and with a smile on his face. Day committed bigamy under the name of Arthur Hoyt, and his second wife having discovered his real name, it became necessary for him to choose between the two women. He elected to live with his bigamous wife. Day took his first wife and his sister to Niagara Falls, but of the three, only his sister and he returned a week later. The second wife proceeded against him for bigamy, and his arrest followed. When the trial was commenced Day's sister guided a detective to the body of his first wife lay at the base of a cliff 150 feet high. She testified to her brother pushing the woman over. His conviction followed.

BANK MEN ARRESTED.

The W. C. T. U. to Build a Temple.

CHICAGO, Dec. 18.—Warrants were issued for the arrest of Keen and his adherents were served this afternoon. Both were released on bail. Considerable interest was caused by the report that the building committee of the National Woman's Christian Temperance union had deposited in a bank funds for the W. C. T. U. to use in erecting a magnificent temple in Chicago work on which has been under way but a short time. Investigation this evening showed that not only the W. C. T. U. building association, but nearly all the numerous organizations that cluster around the big temperance union were deposited at the bank. The "gift fund" of the temple association withdrew its deposit a month ago, but retained it again. A deposit of several thousand dollars was made just before the bank closed for the last time. The treasurer of the W. C. T. U. it is said has an account there, as did also the Woman's Temperance union. Publication of the W. C. T. U. restaurants in this city and the treasurer of the lecture bureau, altogether temperance organizations, have, it is estimated, upwards of \$30,000 in the institution. Nearly all the Methodist ministers in the city did their banking with Keen, but it is understood that most of them have been withdrawing their deposits recently.

SWINDLERS IN COAL.

They Succeeded in Gathering in the Investment.

SAN FRANCISCO, Dec. 18.—The Chronicle says that the Seattle & Northern Coal Co., which opened extensive offices here on Nov. 15, has vanished, and investigation shows that a successful swindle has been perpetrated. The company was organized in Seattle a short time ago with a capital of \$50,000. Business was transacted here by a man named Ayers, who issued a circular offering to sell coal to be delivered after Jan. 1 at \$7.75 to \$8.25 per ton. A coal was selling at that time for from \$14 to \$16 per ton, the advertisement was very attractive. The circular advertised to sell only a limited amount of coal and then only on condition that the purchaser would buy one share of stock of the company valued at \$5 or each ton of coal ordered. Stock to be taken back by the company at par value in payment for the coal. Quarters were employed and quite a business was done. A few days ago the whole outfit disappeared.

FOR THE BAD LANDS.

The Hostiles are Striking Out in That Direction.

PIERCE, S. D., Dec. 18.—An Indian scout arrived at Fort Bennett, bringing word that Sitting Bull's followers who escaped when their chief was killed, had camped the night before at the mouth of Turner creek of Missouri river, being on their way to the Bad Lands. Col. Merriam's command of the Seventh regiment have started to intercept the hostiles.
