THE DAY IN CONGRESS

A Number of Important Measures Acted Upon.
A BUSY DAY IN THE SENATE.
A Bill Introduced to Approve \$100,000 for the Purchase of Post-Office Consumption Cuts.

WASHINGTON, Dec. 20.—In the Senate, Pettigrew introduced a bill to prohibit the sale of firearms to Indians on reservations; referred.
The committee on Indian depredations claims, reported on for the adjudication of claims arising from Indian depredations; cananda.
Sawyer asked the unanimous consent for the fixing of an early day in January for the consideration of postal telegraph, but Wolcott objected.
Patt introduced a joint resolution appropriating \$10,000 to enable the president to take action in the event of a declaration of war to supply of the recently discovered by Dr. Koch and a formula for the manufacture of the same; laid over.

The morning hour having expired, the presiding officer laid before the Senate the election bill. The clerk gave notice after the consideration of the pending bill he would ask the Senate to take up the proposed bill which was demanded to pass from one end of the country to the other.
Edwards demanded the regular order and the vote was taken by yeas and nays, the election bill passed.

Senator Morgan introduced a resolution relating to the election bill. The committee on privileges and elections announced by the yeas and nays that they would report as to show what are the changes and modifications in the sections of the existing law which are intended to be made by the present bill. The committee is instructed to report a supplementary report showing the changes and modifications in the existing statutes which they recommend and provide for in the amendment reported to the Senate.

Senator defeated John I. Day support from the other side, and he, and contended that the federal election law, instead of being offensive to democracy of the North, had been put into operation at their request in many instances.

Senator Spooner spoke five minutes in support of the election bill. In his speech he read extracts from a speech by Delegate Christian in the late constitutional convention of Mississippi, declaring that since 1875 there had not been a fair election in that state, but in plain words the "white" had been stuffing the ballot boxes, counting perjury and carrying elections by fraud and violence. He also read the qualifications for voters in the constitution of Mississippi. Among the things being read to read or to give reasonable explanation of the meaning of any clause of the constitution of the state. If the constitution of Mississippi had been adopted at the election of 1875, every black or white who could not read the instrument, no body would complain of it. But now the ignorant white voter might have the simple clause read to him and be asked if he understood it, and answering yes, might be permitted to vote. While an obscure clause as to right of eminent domain, or some technical question will be read to a colored voter, who would be a led to give a reasonable explanation of it. The amendment was then read and the yeas and nays were taken, the bill passed.

Miliken, of Maine, presented a number of conference reports on public building bills.
On motion of Clinch, of California, a senate bill was passed for the relief of S. H. Brooks, assistant treasurer at San Francisco, and the streets on his official bond.
A bill was passed to authorize the construction of a tunnel under the waters of the bay of New York, between Middleburgh and New York.
On motion of Hermann, of Oregon, a bill was passed for the cancellation of a certain contract for the delivery of stone for the improvement of the Columbia river.
A motion to adjourn, made by Stone, of Kentucky, was lost.

PROF. KOCH'S TALKS.
The Lymph Will Be Assigned to an American Hospital.

BERLIN, Dec. 20.—Prof. Koch paid a long visit to American Minister Phelps yesterday. Koch said that his decision to henceforth give lymph only to hospitals was due to reports of the fatal results that followed its use in private practice. He carefully added that he was not personally cognizant of any case resulting from its use. It was contended that the lymph was dangerous, except when used under the constant watch of physicians. The patient, he said, "ought to be seen at least every two hours." He declares it is useless for American doctors to come to Berlin. Lymph will be assigned to American hospitals that are properly vouched for. Sick Americans should stay at home. Berlin is already too full of patients.

Copyright 1890 New York Associated Press.
BERLIN, Dec. 20.—The number of American physicians who are practicing here is rapidly diminishing. Koch's remedy has now treated twenty-nine patients. Four suffering from advanced phthisis died, three left the hospital much improved, and twenty-three are recovering rapidly. Gerhard expressed satisfaction with the remedy and confirmed Koch's experience that it is most useful in the initial stage of disease. Dr. Jutman has four cases that have been absolutely cured of pulmonary phthisis, having been taken at an early stage. Prof. Leyden reports that of 127 patients treated at Charity hospital, the general results are promising and there has been no mishap in any instance. In contrast to those the tubercular rods, the death of a patient confined to the care of Dr. Libbertz by Koch and who received the first injection from Koch.
