Mr. Julius Gradwohl, proprietor of the Golden Rule Bazaar store, informs us that he invites the general public who desire to purchase any holiday presents to hurry up, as his goods are going very fast, and Christmas is too close at hand to make new orders. He still has plenty of beautiful holiday goods, but he cannot tell how long they will last, and some items are already sold out.

The Dangerous Revolver.

Four boys, while fooling with a revolver at Lyons Sunday, met with an accident that while it was not any ways serious in its results, was enough to warn them not to fool with such implements. It was discharged and entered the hand of one of the boys by the name of Ives, inflicting a painful wound between the first and second fingers. The young man in company with his father went to Mill City yesterday to have the ball extracted.

SCIO HAS A RAILROAD.

A Branch of the Oregonian Road Running its Cars Into Town.

Last week the long expected and much wished for extension of the Oregonian railroad reached Scio. The track reached the Scio Roller Mills on Thursday. For the benefit of those persons who may not know of the fact, the Scio Press states that the citizens of Scio graded and furnished the ties for a spur switch that runs into town, a distance of 4,200 feet. Among the immediate benefits to be derived from the completion of this switch are: It enables the Scio Roller Mills to receive a large lot of wheat purchased last fall at Spicer and to ship out the same in flour. It will enable the new sash and door factory of Abbott & Brown to receive lumber and start their factory at work. It enables the Scio Metallic Paint company to ship the product, as the mill is in shape to furnish the paint to the market in any quantity desired.

Scio now enjoys the privileges of a railway town and will be the terminus of this extension it is thought but a short time, as the coal mines have been developed sufficiently to establish the fact that there is coal of excellent quality in paying quantities there, and only awaits shipping facilities to start the mines to work at getting out coal for the market. This road will in all probability be extended to these mines within a twelvemonth. Scio has scored another home run in the line of progress, and the year 1891 will witness the greatest building activity the town has ever seen.

Severely Cut.

On Tuesday Dr. E. O. Hyde of Scio, was called to dress a wound for Mr. Henry Crabtree, who resides two or three miles south west of that place. The wound is a severe one and the peculiar manner in which it was inflicted is ordinarily next to impossible. Mr. Crabtree was engaged in using a broadaxe, and in hewing a timber he struck a blow with such force that the axe passed between his legs and around and up and cut a gash about five inches long, to the bone, in his right shoulder, narrowly refraining the handle in his hands. It required four or five stitches to properly dress the wound.

An Opal Mine in Eastern Oregon.

Dr. R. L. Willoughby, formerly of Linn county, has discovered a deposit of opals near his cattle ranch, on Bay Creek, Crook county, which he has located under the mining laws of Oregon, and is mining for the precious stones. They are found in the form of geodes, or nut like concretions imbeded in a trachytic conglomerate. These opals are very brilliant, and those found below the decomposing action of air and water are durable and valuable.

Christmas Preparations.

The spirit of the holiday season is in the air. A throng of holiday shoppers, with all sorts of mysterious packages, line the business streets, while the postoffice and xpress office have to handle huge bales of boxes and parcels going to riends elsewhere. Arrangements are being made for the usual Christmas trees, and this joyous holiday, with its accompanying favor of roast turkey and mince pies, will soon be upon us.

Indian War Veterans' Pay.

A committee of Indian War Veterans of Eugene has passed resolutions to be presented to the legislature, asking that body to take action leading to the payment of volunteers for services rendered in the Rogue river war. They ask enough, together with what they have received, to amount to $2 per day as promised by the governor of the territory.

Flooded the House.

Some one of the employes of the Green Basin Lumbering Co. at Halstead on the Oregon Pacific railroad turned the water into the company's new lumber chute the other night, and the result was that the stream flowed down and flooded the residence of Henry Suesens, doing considerable damage.

A New Boat.

There is a rumor current that a light draught boat will be put on the upper Willamette in a few days which can navigate these waters almost the entire year in safety, such a boat would be a grand thing for this part of the state, and would doubtless be a good investment to the owners.

A Kick From Brownsville.

The trains are running in a very unsatisfactory manner just now. A trip to Portland consumes the best part of a week, and failing to connect with the stage line headquarters at Lebanon, the passengers are given choice between walking twenty-five miles and stopping twenty-four hours in Lebanon.—Lebanon Express.

Lutheran Meeting and Service.

The Lutherans of Albany and vicinity are kindly requested to meet at the First Presbyterian church on Dec. 26, at 11 o'clock a. m., for the purpose of organizing. Services will be held in the afternoon at 2 o'clock, Rev. Gust E. Meyer.

Miss Winnie Nichol's funeral was preached on the 21st inst. by Rev. Mr. Howard.

On Dec. 19, at Frank Ingram's the boys and girls had another grand time at a dance.

Old Uncle John Beard gave a dance on the 17th. A large crowd and a good time they all had.

Miss Minnie Morris, secretary of the Ladies Aid Society of Hubbard is visiting her aunt, Mrs. P. A. Cochran.

The diphtheria has now subsided and the little ones are happy and not afraid to enjoy themselves on the streets of our beautiful and growing city.

There will be a Christmas tree at the M. E. church, namely the town tree. All are cordially invited to attend and a good time is promised to all.

The M. E. church, south, have painted their church, built a vestibule, lined and papered it, and will have one of the nicest churches South of Albany. Rob Bowman, of your city is the lad that does the papering.

Where is your correspondent of North Tangent? They say his best girl married, and not according to his wishes, so he walked away from the scenes of his childhood to parts unknown to your correspondent.

A Drummer's Association.

No one has perhaps heard of a drummer who has not nerve and wit enough to take care of himself, yet the drummers of Oregon are forming an alliance, so to speak, of their own. A large and enthusiastic meeting, representative of the commercial travelers of Oregon, gathered in the parlors of the Oriman house in Portland Saturday. Some fifty answered to the call. Temporary organization was effected by the selection of E. M. Donovan as chairman and S. S. Goldsmith secretary. Messrs. Averill, Irving and Morden were appointed a committee to draft a constitution and by-laws. The organization will probably take the name of the Commercial Traveler's Association. It is proposed to have no connection with the National T. P. A., as it is thought that more good can be done by a separate organization. The objects of the new society are the improvement of its members-hip in various social and business ways, and by combination to exact from those with whom the drummer has dealings more considerate treatment. The association will probably be incorporated. The meeting adjourned subject to the call of the chairman.

The Eighth Wonder of the World.

In speaking of the performance given by the Little Georgia Wonder, who will appear at the opera house in this city on Christmas night, the Daily Dispatch, of Richmond, Va., says: "Mrs. Abbott's entertainment was a mystification, a paralyzation, a whirlwind, a thunder storm, a cyclone, an insanity charge, a victory, a rout, it was a musical-mesmeric-spiritualistic-electric-spiritualistic trimph. She dumbfounded, astounded, confounded us. She is a puzzle, a riddle, a mystery. How she did it we do not know, but she did it. She picked up men and threw them down; she turned them over and turned them more; she outpushed, outpulled, lifted, lifted, twisted, tumbled a dozen men, and was not tired a bit. She walloped men into a tremendous headache, and then cured them in two minutes, and sent them away soothed in their right mind. She is too much for us.

An Oregon Pioneer Dead.

R. M. Mulholland, a well-known citizen of Lane county, died at his home in Junction City, Wednesday, December 10. He was born in Henry county, Mo, and came to this state in 1851, a wife and four children survive him. Mr. Mulholland, had many friends who sympathize with his family in their great affliction. He was a member of the Odd Fellows' and Masonic fraternities in whom he was buried in the Odd Fellows' cemetery, four miles west of Junction City.

COAST NOTES.

A little three-year-old son of a Mr. Baldwin at Grant's Pass fell into a well one day recently, but was brought up alive and unhurt by the 12 year-old brother, who promptly put a ladder down the well and went after him.

While Lincoln Hixon was standing in the water in the Johnson chute in the McKenzie river about 20 miles above Eugene, Tuesday afternoon, he carelessly allowed himself to be struck by a floating sawlog, resulting in the breaking of his right leg in two places, one a couple of inches above the ankle and the other about five inches above. Dr. Brown was called and set the injured member the same night.—Eugene Register.

Judge R. P. Boise, who was born in Massachusetts, is 72 years old, has practiced the profession of law for more than two score years, and has been a resident of Oregon for 50 years. He was a member of the constitutional convention in 1857, was a Douglas democrat in 1860, but during the stormy period of the war and his sympathies were in favor of the union cause. The judge is an eminent jurist and the legal fraternity of this state hold his judicial opinions in high esteem.

The Independence West Side reminiates that six years ago last Tuesday the great snow storm of '84-5 commenced raging, which lasted more than six weeks. The weather now is more like spring than than winter, but this is an unusual season even for Oregon. Perhaps not more than three or four seasons similar to the present have occurred since the country has been settled by white people.

For Ashland Tidings says: Messrs. J. P. Faull and Robert Clough, of the state railroad commission, who are preparing their biennial report for submission to the legislature, came out over the railroad as far as Ashland the first of this week, and made an inspection of some of the trestles and bridges between this place and Talent. Reports had reached them that one or more of the trestles out this way were in need of repairs, the lack of which renders them dangerous to the traveling public. What their opinion is since the inspection, is not known here, as they have not been interviewed since.

Mrs. Abbott.

This marvelous phenomenon will appear at the opera house in this city on Christmas night. Every seat should be taken. Nothing like it has ever been seen here. Prices within reach of all. "Two large and powerful men men failed to lift her off her feet," says the Boston Herald. A number of other tests were made, and the visitors were astonished at the results. Neither the management nor Mrs. Abbott attempt to account for the results produced. They do not claim that the force employed is spiritual, mechanical, muscular, electrical or odic. They simply say that they do not know how the feats are performed. They give the exhibition in full view of the audience, without the use of a cabinet or darkened stage, with no apparatus save ordinary articles of furniture.

New Mail Route.

Efforts are being made to have the postoffice department establish a new mail route on the Oregon Pacific road on its eastern extension from this city. The route would serve the following postoffices: Shelburne, Lyons, Fox Valley, Mill City, Rock Creek, Niagara and Green Basin. The route would be a great convenience to all who live along the line.

School Report.

The public school in Hatchet No. 2, Linn Co., Oregon, closed its last term ending Dec. 19th, 1890. Whole number of pupils enrolled 45. Average daily attendance of last month 29, last three months 36. The following is the roll of honor for the term: Annie Marshall, Amelia Zahlsdorf, Nora Clary, Mamie Propst, Jeannett McKeehnie, Edith Clem, Pauline Zahlsdorf, Clara Bond, Vallie Cary, Flossie Cox, Amnid Cox, Lucy Marshall, Winnie Marshall, Winnie Wilds, Nona Marshall. Boots and Shoes.

Purchasers of Boots and Shoes bear in mind that big advertisements and offers of big discounts do not always mean best values. You will have to pay some one a profit as no one can do business without expense. The question is who can sell you the best goods for the least money.

How Severe Colds Are Broken Up in Montana.

From the Virginia City, Mont. Madisonian.

When we find a medicine we know to possess genuine merit we consider it a duty, and we take pleasure in telling the public what it is. Such a medicine we found Chamberlain's Cough Remedy, last winter, when la grippe was prevailing. We are satisfied that we warded off several attacks that were threatening by the use of this syrup, and we have since relieved, in a few hours, severe colds, and in the course of two or three days, entirely broken them up by its use as have several of our friends whom we have recommended it. It is all that it is represented to be by the manufacturers. If you have a cough and want to stop it, Chamberlain's Cough Remedy will do the work. For sale by Foshay & Mason.

The Reason Why.

Why is it that Klein Bros. can afford to sell boots and shoes so reasonable? Because they are both practical shoe workers and make their own goods by working on the shoe bench, and any boot or shoe you buy of them, no matter what kind it is, man's, woman or childs, that rips, run over or the sole rips loose, they repair them for you free of charge, and as they do all the work themselves, they don't charge you 25 to 50 cents a pair extra for a warrant to pay some shoemaker to repair them for you. They also make a specialty of repairing rubber boots.

Little Giant and Cowies'

Bros. boys, misses and children's shoes—different styles—all sizes and widths. MADE SOLID AS A MONUMENT. Try a pair—a thing better—medium in price. Every pair warranted.
