CONGRESS ADJOURNS

Both Houses Enter Upon the Holiday Recess.

WORLD'S FAIR PROCLAMATION

The President invites all Nations to Take Part in the Columbian Exposition at Chicago in 1891.

WASHINGTON, Dec. 24.—In the senate unanimous consent was granted for the passage of a joint resolution extending until July 1, 1891, the period during which the laws of Nebraska shall be in force in the territory of Oklahoma, Ed. Smith explaining that the act creating the territory placed over the law of Nebraska until the close of the first session of the territorial legislature. It was proposed that the legislature would enact a code of laws, but it had failed to do so, and the term of its service would expire today. If congress failed to act now the territory would be a state of chaos. Morgan objected to the constitution of the resolution, and it was laid over. Morgan called up his resolution directing the committee on privileges and elections to amend section 21 of the election bill.

Sherman contended that it was not now in order to call up a resolution except upon formal motion. Pending the debate which followed, the hour of 11 arrived, and Mr. Sherman contended his speech against the election bill. The senate has adjourned till Saturday next, with the understanding that when it meets on that day the vice president shall declare it adjourned until Monday.

THE WORLD'S FAIR PROCLAMATION

The following proclamation has just been issued by the president: Whereas, satisfactory proof has been presented to me that provisions have been made for adequate grounds and buildings for the use of the world's Columbian exposition and that a sum not less than \$10,000,000 to be used, and expended for the purpose of said exposition, has been provided in accordance with the conditions and requirements of an act entitled, "an act to provide for the celebration of the 40th anniversary of the discovery of America by Christopher Columbus, by holding an international exhibition of arts, industries, manufactures and the products of the soil, mine and sea, in the city of Chicago, in the state of Illinois," approved April 25, 1890, now as referred to, Benjamin Harrison, president of the United States, by virtue of the authority vested in me by said act, do hereby declare and proclaim that such international exhibition will be opened on the first day of May in the year 1893, in Chicago, in the state of Illinois, and will be closed before the last day of October of the same year. In the name of the government and of the people of the United States, I do hereby invite all nations of the earth to take part in the commemoration of the event that is prominent in human history, and of lasting interest to mankind, by appointing representatives there to, and sending such exhibits to the world's exposition as will most fully and fully illustrate their resources, their industries and their progress in civilization.

THE REPUBLIC THREATENED WITH A REVOLUTION.

Forty Men Killed in Trying to Suppress the Movement. Extreme Destitution the Cause.

PANAMA, Dec. 24.—Remnants of the revolutionary movements in Peru have been here for some time past, and it is known that on the 2nd instant a meeting was held in Fort Santa Catalina, outside of Lima, and that an effort was made in behalf of ex-Director Proña. The movement was suppressed, but at the cost of forty lives. As matters stand in Peru, it is not unlikely that similar risings will occur, and that the ultimate result will be a revolution throughout the republic is largely responsible for the unsettled state of affairs.

ODD AND INTERESTING.

Kate is Mrs. O'Shea's name, but it ought to have been Helen, from the terrible war she has stirred up.

Henry M. Stanley has eighteen dark-skinned boys, whom he bought on the banks of the Congo at the moderate price of twenty cents a head.

The United States during this century has already settled thirty-three international disputes by arbitration, that is very much better than going to war.

Mrs. Harrison says she has no desire to go abroad, but she contemplated with pleasure the projected trip of the Presidential party to California next spring.

Brazil is larger than the United States, but in the whole twenty states which make up the republic there are not as many people as we have in New York and Pennsylvania.

Not only have the Kansas Farmers Alliance people elected a judge who never studied law, but they have also elected four prosecuting attorneys who are not members of the bar.

The government report shows that the average wages of railway hands in this country is \$243 per year. The average employment is 147 days, the rest of the year being enforced idleness.

Indian have had cost the country over \$700,000,000. The race people are an expensive race, but one time owned this country. Seven hundred millions was not too much to pay for it.

In 1870 the currency in circulation was \$19 for each head of the American population. In 1880 the circulation per capita in \$24, the currency having increased in the twenty years over \$728,000,000. Still the cry is for "more money."

The Panama canal works are wrecked; even traces of the excavations are vanishing and the constructive machinery is worthless. This enterprise, in which \$180,000,000 has been sunk, will figure as the monumental failure of the age.

A FORGERY CHARGE.

Jerry Rusk Is Soid for Ben Harrison for Another Term.

CHANDLER ON CORRUPTION.

Panel Goes to Fair. But Will Resume a Campaign—Over a Century Old But Dies at Last.

PORTLAND, Dec. 24.—Captain William McDonald was arrested here this evening on a charge of forgery. He is accused of forging a will in Lancaster, England, recently under the name of George Brooks, and by it came into the possession of a considerable sum of money. He afterwards came to America. McDonald makes a general and specific denial of the charge. He says he has not been in England for six years and was never in Lancaster, and that he never heard of George Brooks and did not sign that name to a will or any other document. He claims he fought in the war of the rebellion and has a good record. He says in this state at the time the alleged forgery was committed. He had just returned from Seattle when the arrest was made. McDonald has been in business here several months and has been arrested here before several times on different charges.

HONEST AND OUTSPOKEN.

Secretary Rusk Expresses Himself Emphatically.

WASHINGTON, Dec. 24.—This evening Secretary Rusk said he was sorry to see his name connected with the article recently published giving the farmers vote on presidential candidates for 1892. He sincerely regretted any attempt to bring his attention to the Harrison as a candidate. His administration, he said, had been a clean one, directed to the best interests of the whole people and he confidently looked for his re-election.

SOME RICH INDIANS.

The Widow Who Is Worth a Quarter of a Million.

There are scores of Indians on the reservation worth from \$50,000 to \$250,000 each, and when the reservation is thrown open by Congress, as it will be in a very few years there will be in Pierce county a dozen or two of the richest Indians in the United States. Following are the names of some of the wealthy Indians:

Mrs. Joseph Douette, a full-blood Indian widow, \$250,000. Mrs. Don-the owns 100 acres on Brown's point. She has several children and now lives at the reservation buildings, leasing her land to some fishermen. Her land is probably the most valuable on the reservation. The Union Pacific Railway will run through it. Christ Laughtel, a widower, 120 acres, \$60,000. Laughtel holds 120 acres but has 100 acres in his own name. His first wife died, and he married an Indian widow who had 100 acres, worth at least \$300 per acre. There is tide-flat land. She has one child. Joe Coates, 260 acres, \$80,000. Mrs. Joe Coates, 100 acres, \$45,000. The Coates family is worth \$128,000. A widow has 100 acres in his own name. His first wife died, and he married an Indian widow who had 100 acres, worth at least \$300 per acre. There is tide-flat land. She has one child. Jonas Stamm, father of the well-known Indian Peter Stamm, eighty acres, \$90,000. Jonas Stamm's land is on the banks of the Puyallup river, is among the very best tide-flat soil, and worth not less than \$750 per acre. The old man has lived so long that he has forgotten the number of seasons he has lived, but he does not forget the value of his land. General Peter Stamm, 160 acres, \$40,000. Mrs. Lababit, a widow, 150 acres, \$84,000; the best tide-flat soil. Charley Jake, married and a large family, 120 acres, \$8,000; best tide-flat soil. There are at least a dozen more Indians who have from forty to 120 acres of the best tide-flat land, worth from \$700 to \$1000 an acre. All these Indians are pure blooded. Pura lips.—Papel Sound Red Estate News.

TERRIBLE TRAGEDY

THREE PERSONS FOUND DEAD AND DYING.

A Minnesota Man, Celebrates Christmas by Killing His Entire Family and Succeeding.

St. Paul, Minn., Dec. 25.—At 1 o'clock this Christmas morning, a terrible tragedy occurred at the corner of Tenth and St. Peter streets. Emma McLeod was shot and killed, and her mother, Mrs. Charles McLeod, had her throat cut and is dying. Mrs. McLeod told a policeman that her husband committed the deed.

Further investigation revealed the dead body of Mickel himself, with two revolvers and a bullet hole, showing how he died. There is something of a question as to who committed the tragedy, Mickel or his wife, but it was probably the former.

A THROUSE AT AUCTION.

How Don Pedro's Royal Possessions Were Sold.

The furniture of the Brazilian palace of Don Pedro, Don Pedro's favorite residence, was sold by auction the other day, and moralists will find food for thought in the knowledge that the throne brought only \$370, while a grand piano went for \$1100. Such a low figure for a throne is especially notable in a republican country, where the love for souvenirs of royalty is always strong. The most straightforward republican likes to have among his possessions something that was once a king's.

It is pleasant to be able to remark to Smith when he calls of an evening: "Smith, take that chair, you'll find it very comfortable. George III always liked it. It's good beside his bed at New York." Smith is so impressed that he feels it would make him only more insignificant to mention the thoroughbred horse he bought that day and had come round to boast about. Moralists will preach about the passing away of earthly power, and point that morals with neat aptness, reference to Don Pedro's throne.

DETROIT, Dec. 24.—The supreme court of Michigan to-day handed down an important decision, establishing the validity of a graded railway fare act. A TERRIBLE EXPERIENCE.

Return of the Shipwrecked Crew of the Lost Bark Atlanta.

AGRONA, E. C., Dec. 24.—The coasting steamer, Katie returned from the west coast to-day, bringing Captain Mosher and 11 men of the wrecked bark Atlanta, which was blown during the recent terrific gales. Captain Mosher gives the following account of the wreck. The Atlanta, owned by Pope & Fabot, of San Francisco, left Port Gamble, Wash., December 18th with a cargo of lumber. When off Cape Flattery a succession of heavy gales were encountered which carried away all the sails. On the 17th the vessel commenced making. The next day the mainmast went by the board and the ship began to settle. On the 17th the ship broke in two leaving the crew floating on the cabin. They drifted all night and next day reached Clatsop. While at Clatsop, Captain Mosher learned that another vessel must have been lost, as part of a ship with the letters "I. S. W." on it, came ashore. U. S. consul Meyers has taken charge of the shipwrecked crew, and will send them to Port Townsend tomorrow.

AN IMMENSE STRIKE.
