A CITIZENS' MEETING.

Call By the Mayor for a Meeting at the Court House To-night.

In view of the important questions to be considered connected with the proposed amendment of the charter of the city of Albany, Mayor Cowan has issued the following call for a mass meeting of citizens at the court house this evening:

CALL FOR A CITIZENS' MEETING.

The citizens of Albany are requested to meet at the court house on this (Saturday) evening at 7:30 P. M., for the purpose of appointing a committee of three representative men to confer with a like number of the city council to go over the amended charter proposed to be submitted to the legislature. J. L. COWAN, Mayor.

The question of bonding the city for \$75,000 for a system of public improvements, is the main feature of the proposed amendment, although some other important amendments are offered, and it is desired by the mayor and council to have the matter thoroughly discussed and understood before going before the legislature with it. The questions of how, when and for what purpose the bonds should be issued, as well as the manner of expending the same, will be presented to the meeting. There should be a harmonious understanding between the council and citizens and in order to obtain the wishes of the people in the premises, there should be a full attendance of citizens at the meeting to-night.

A Ghastly Discovery.

Up in Walla Walla the citizens are grading the street and have unearthed an old graveyard. The papers there say that ever since the grading of Fourth street was begun, skeletons, bones and pieces of badly decayed coffins have been found, until now seven graves have been plowed up, the last one being about 2 o'clock Monday. Saturday a human heart and liver in a well preserved condition, together with a few bones were exhumed. It is probable that many more will be found, as they are about the right depth now.

Lebanon Canal Co.

Before the poles closed on Monday, some of our leading business men were discussing the above-named enterprise in a business like way. The proposed canal is estimated to cost about \$25,000. It is thought that this amount is not too large to subscribe without special solicitation. The advantages of such an enterprise could hardly fall drawing a number of manufacturers, without which Lebanon will continue to be a rural village, a country trading point.—Lebanon Express.

A Fine Furniture Establishment.

The furniture establishment of the Albany Furniture Company in their new quarters in the Baltimore block is one of the most attractive in the city. They have in stock a magnificent assortment of fine oak and upholstered furniture, bed-room sets, elegant chairs, carpets, rugs and all that goes to make up a first-class furniture store. They have beautiful rooms, which are filled, both upstairs and down, with the most desirable lines of furniture, and their prices will be found very reasonable.

Cane Presentation.

Geo. Humphrey Esq., Capt. E. J. Lanning and Wm. Faber went to Portland yesterday, taking with them a fine gold-headed cane, the best in the jewelry store of Mr. H. Ewert, which will be presented to Mr. Joseph Webber, the pioneer Albany fireman, who recently removed to the metropolis. Mr. Faber, it was said, had been selected to make the presentation speech. The cane was a present from Mr. Webber's many friends in this city.

Planting Prunes.

Hon. J. K. Weatherford of this city, and Mr. Thomas Kay are planting out an orchard of 25,000 prune trees upon their property at Waterloo. About the same number of prune trees are being planted at Oakville. The prune business is becoming a thriving industry in Oregon, and no where do they grow better than in Linn county.

Barn Burned.

The large and commodious barn upon the Hiram Smith place, seven or eight miles south of Harrisburg, the property of Mrs. Mary A. Smith, widow of the late Hiram Smith, was burned one day this week, entailing a heavy loss upon the owner.

A Great Big Fraud.

The Salem Journal rises with the remark that the secret order known as the A. E. O., which was one of the most secret orders known, in fact it was so secret that even the time or place of the meeting were not known, except to the members, seems to have turned out to be a fraud. Orders were established in a number of the cities and towns of the valley. Some of the members would like to know where their initiation fee went to. Some of the orders even had a charter from the grand order. It now seems there is no grand order and that the so-called grand lodge was also a fraud. If the reports of the state papers are correct the man who was organizing the orders is the only gainer in the scheme. The order had a number of members in Albany.

Officers Installed.

The newly elected officers of McPherson Women's Relief Corps and the G. A. R. Post were installed at their hall last evening by Mrs. M. J. Train, on the part of the corps, and Wallace Baldwin, on the part of the G. A. R. Post. The list of officers has already been published. After the installation lunch was served and a social was participated in by the ladies of the corps and the members of the G. A. R. post and others who were their invited guests. The exercises were rendered additionally enjoyable by a song by Rev. E. R. Fritchard.

By Request.

McPherson Post No. 5, G. A. R., assisted by the best vocal talent will represent at the opera house on Friday evening Jan. 16, 1891, the thrilling military drama, "The Veteran of 1812," or, "Kesiah and the Scout." It is pronounced by competent judges to be one of the best plays ever produced on the amateur's stage. Tickets on sale at Will & Link's music store. Admission, reserved seats, 50 cents, gallery, 25 cents; doors open at 7:15; curtain at 8 promptly. The entire proceeds will go into the relief fund.

Activity at Harrisburg.

Business is improving at Harrisburg and the town is exhibiting indications of a healthy growth. A correspondent from there writes: "The feeling in regard to real estate in and about Harrisburg is very favorable. A Presbyterian minister is here from Kansas, and is arranging to settle a colony in the town and country. It will consist of about sixty families, all well to do people. A large number of real estate transfers have been made recently to parties who will erect new residences."

Early Morning Fire.

At 1 o'clock this morning a fire alarm was sounded. The fire was on located in an old vacant cottage, owned by A. Harkleman, near the Oregon Pacific depot. It was entirely consumed, as the distance was too great to be reached by the fire department in time. The loss was nominal. The fire is supposed to be the work of a incendiary, who fired a building for pecuniary ends.

THE SWEDISH OCTETTE.

A Treat in Store for the Music Lover's of This City.

The concert of the Swedish National Ladies Octette this evening will be an event long to be remembered by the music-loving public of Albany.

According to the opinion of a vast number of critics and dramatic editors on the leading metropolitan newspapers of the eastern states every member of the Octette possesses a voice and a degree of musical culture that could profitably be employed in starring with any one of the opera companies now traveling in the United States. The eight young ladies, however, prefer to keep together rather than to gratify individual ambition. They have spent years of study and hard work together to bring their singing to the highest attainable degree of perfection. It is now universally admitted that they have reached that goal and they feel it their duty to share the honors together.

They have had full houses wherever they have sung heretofore, and the people of Albany can go no less than given them a packed house.

ODD AND INTERESTING.

It is the boast of an old lady residing in California that George IV. once imprinted a kiss upon her lips. Mr. Prinkevitshvitchitzky is a Polish doctor practicing in Paris. It is evident that he cannot receive many "emergency calls." Emperor William has consented to act as sponsor to the seventh son of a Silesian joiner. The child that is to be thus honored was born on the same day and hour as the youngest child of the emperor.

William Archer's criticism on Mrs. Langtry's Cleopatra is everywhere pronounced to be the most severe on record. Here it is: "Purple patches of Shakespeare swimming in a prismatic-scientific maelstrom of spectacle."

There are five American ladies attached to the Italian noblemen. One of these ladies, the Marchese Theodoldi, was Miss Conrad, of Philadelphia, and is now the chief lady in waiting at the court, as well as the most beautiful woman in Italy.

Mr. T. E. Garrett, the St. Louis critic and author, who is one of Mrs. Navarro's (Mary Annerson's) correspondents, says: "There is no doubt of her returning to the stage. She can never be happy in a domestic life unless she directs her energy entirely to society. She will be on the stage in a little while."

According to statistics just published, the average Parisian consumes during his lifetime 1800 pounds of bread and 1000 pounds of meat, and these he washes down with 57 barrels of wine, 4000 litres of alcohol, about 100 litres of beer, and an equal quantity of cider. He also absorbs 11,160 eggs, 1600 pounds of fish, 1800 pounds of oil, 1800 pounds of salt and 23,000 pounds of vegetables.

A Monster Engine.

One of the engines at the Minneapolis electric railway power house is about ready for operation. It is a triple expansion condensing engine, 1200 horse power, cylinders twenty-four, forty and fifty-six inches in diameter, respectively, with a sixty inch stroke. The fly wheel is twenty-eight feet in diameter and seventy-three inches across the face, weighing forty-four tons. Two more of the same size will be placed in the power house. The installation of one being already prepared. Power and Steam.

Change in Business.

From Jan. 1st, 1891, we will change our business to a strictly cash system, thereby enabling us to buy for cash and get our discounts, whereby we can, and will, make arrangements to buy goods direct from the manufacturers at the lowest cash prices, and we will sell pure goods at the lowest cash figures. Believing that the people will appreciate a store where they can get goods at cash figures. We remain, Respectfully Yours, MUELLER & GARRETT.

Came Across the Mountains.

B. F. Beeler, of Prineville, arrived at A. T. Powell's near Scio on Tuesday with 20 head of horses that he had brought over the Cascades. The animals are in fine condition. He reports but 8 inches of snow at the summit.

ABANDONMENT OF FORT KLAMATH.

Congressman Hermann Thinks Oregon Should Have Protection from Indians.

Representative Hermann has renewed his efforts of last summer before the war department for the re-establishment of Fort Klamath. In his showing to the secretary he refers to the Indian disturbances in Dakota, and to the significant indications of hostility developed yesterday among the Indians of Idaho, the first of the kind among the Pacific coast tribes for some years. He shows that in all the immense area of Oregon, there is not a recognized fort nor a uniformed soldier of the government. Fort Klamath was the last military post, and that was abandoned last summer. He says that there are four Indian reservations in this state containing in the aggregate nearly 3000 Indians, and should they be influenced by the spirit now moving many Indian tribes, it is difficult to predict the results which may ensue. The establishment at Fort Klamath is in a good state of repair, no property of the post having yet been removed, and that several cavalry companies can be maintained at that point as economically as at any other place in the Union. In such locality the troops will be in the vicinity of the Klamath Indian agency and within two days of the Warm Springs reservation, and can readily unite with the troops from Fort Bidwell in California, should it become necessary.
