One of the most novel experiments ever made by a branch of the government will be that of the department of Agriculture in May for the production of rain in the arid section of Kansas by the explosion of gunpowder, nitro-glycerine or dynamite at a high altitude...

Former years have noted the terrible piracies carried on off the Chinese coast, but for some time they have been kept down and it was thought that they were entirely done away with...

Congress is still considering the matter of what is a practical foreclosure upon the Central Pacific railroad. The Zar of all the Russias has not covered himself with glory by the action of delaying the execution of the laws against the Jews. It is said that the cause given for a three years' delay in the execution of the harsh laws against the Russian Jews has an element of humor in it.

It is cheerful news that comes from the seat of the Indian war that the hostiles have stopped fighting and invited the soldiers to a feast of hot coffee and boiled dog. This is encouraging, but what is wanted now is for the painted braves to surrender their guns without further parleying.

The present session of the Oregon legislature, it is generally believed, will endeavor to be very economical—perhaps to the exclusion of needed and beneficial legislation. Economy, if practiced too rigidly, becomes the height of folly, and legislators who attempt to make a record for themselves on such a basis are the men through whose whiskers the wind doth perennially blow.

ALBANY'S charter bill is now ready to be presented to the legislature. The vote on the question of bonding the city for \$75,000 to be expended in a system of public improvements was so nearly unanimous that now the satisfactory amendments are formulated there can be no "kicking."

BEFORE Dempsey's lamented defeat at the hands of Fitzsimmons he belonged to Portland. Now he is from Seattle, or Targent.

SILVER seems to have the innings in congress now, but the game is nearly even and there much doubt how it will go.

Prof. J. W. Johnson, president of the State university, says it cured him of a cough after two other prescriptions had failed. Likewise two of his little girls used it to cure their coughs. Mrs. Mark Bailey, wife of Prof. Bailey, sent it to Prof. Johnson, and recommends it to all who suffer from colds and coughs. For coughs it acts like a charm, and can be inhaled into the pipes or passages, where no other cough cures can reach.
