Every shown in Albany. We know that we can please you

Commencing December 1st We will Mark

Our cloaks at cost. Come while the assortment is good. This is really the greatest drive ever offered in Albany. On account of the warm fall we find we are overstocked in Gent's Heavy Underwear and for the next thirty days shall give extra bargains. We can and will save you money. Call and get prices. A pleasure to show good.

RESPECTFULLY, W. F. READ.

THE LEGISLATURE

The Australian Ballot Law Passed By the House.

BUT KILLED BY AMENDMENTS.

The Portland Anti-Simon Police Commission Bill Passed in the House - The Albany Charter Bill.

SALEM, Jan. 28.—The Australian ballot law for the state, in all probability met its Waterloo in the senate to-day. The house, as already stated, passed it without a dissenting vote. But it came back from the senate laden with several amendments, which in all probability means its final defeat by delaying action if by no other means. It is strange that as carefully a prepared bill as was this, and as thoroughly understood and endorsed by the people and all parties, should be objected to and amended to its death. Verily the ways of legislators are hard to understand.

The citizens of the Forks of the Santiam are here asking for a division of Linn county. The members from Linn county all refuse to introduce the bill, and the movement seems likely to die from this cause.

The senate met at 10. The roll was called and prayer offered by Rev. H. H. Brown, of Salem. House bill 122, the Australian ballot-law, was read first time and second time.

Amended by Fullerton (the Simon amendment) amendment amended by Tongue. Included only cities of 5,000 or more inhabitants. The Simon amendment as amended by Tongue prevailed. Section 59 was amended by Raley to provide for printing ballots in certain cases and the bill was passed as amended; yeas, 27, nays, 1. The bill went to the house and was referred to the committee on elections.

At an evening session of the senate the following incorporation bills, mainly amendatory of acts now in force, were passed: Albany, Summerville, Prinsville, Lebanon, Seio, Medford, Elsie, Athena, Fossil, Cottage Grove, Corvallis, Coquille City, Independence, Oregon City, Eugene, Canyon City, Springfield, Burns and Huntington. Senator Blackman put his Burns incorporation bill through at a driving vote. It was introduced this morning, read twice, made a special order this evening and passed without a dissenting vote.

IN THE HOUSE. The house opened with prayer by Rev. J. B. Johnson, of Salem. Butler's bill amending the Dallas charter was passed. Resolutions by McCoy that the committee's substitute assessment and taxation bill be printed at once; adopted. Resolution by Holmes for another 10,000 copies of the governor's message; adopted.

Welch's bill to authorize the Astoria, Seaside & Eastern railroad to bridge Young's bay and the Lewis and Clarke rivers; passed. Thomas' bill to allow the Stark-street Ferry Company to bridge the Willamette; recommitted. Hall's bill allowing Multnomah county to bridge the Willamette at Portland; passed.

Montgomery's bill to knock out Joseph Simon from the police commission; motion by Holmes to recommit and have the governor appoint temporary commissioners; lost. The bill then passed by a unanimous vote; six absent. Message from the Washington legislature says a joint committee has been appointed to confer with the Oregon legislature committee on fishing business.

In the house this afternoon a resolution that inquiry be made concerning the purchase from the Union Pacific of the portage road at the Cascades on the Washington side, was referred to Miller, Welch and Killian for action. Minto's resolution for economy in appropriation, was postponed indefinitely.

FOR A CONSTITUTIONAL CONVENTION. The bill prepared by the judiciary committee of the house providing for the calling of a constitutional convention was reported to that body this afternoon and ordered printed.

CONGRESSIONAL APPOINTMENT. The appointment committee began its labors to-day. The opinions held by the eight members of the committee regarding the division of the state into two congressional districts are somewhat divergent and an agreement will not be reached for some time.

WASHINGTON LEGISLATURE. It Passes the Eight Hour Law and Other Important Bills. OLYMPIA, Wash., Jan. 28.—The senate to-day passed a bill prescribing eight hours as a legal

days work, and fixing the penalties for any municipality, corporation, firm or individual which requires more. The legislature did more work to-day than at any time since the session began. A number of important measures being passed by both house and senate. Among the bills adopted in the former are these: To fix the salaries of justices and constables in cities of over 5000 inhabitants. To appoint official stenographers in the superior courts and to fix their compensation at ten dollars a day. To create a state board of horticulture.

In the senate the following were passed: Providing for the payment of fees to the clerk of the superior court. Declaring labor day a legal holiday. For the payment of the expenses of the judges of the superior and supreme courts. Joint resolutions were passed unanimously to honor praying for the election of United States senator by the people. For the improvement of Gray's harbor bar and channels, and for the opening of a townsite reservation at Port Angeles. The bribery investigating committee laid to-day for Spokane Falls.

The joint fishery committee leaves to-morrow for Portland to meet a like committee from the Oregon legislature. KIRKIN and GODFREY. SAN FRANCISCO, Jan. 28.—Jake Kirkin, who was married to Godfrey, of the California Athletic club, in March, arrived today. Godfrey is already here and in training.

THE MINE HORROR.

THE DEATH ROLL OF MINEERS REACHES 151.

Hundreds of Homes Filled With Sorrow and Despair Heart-rending Scenes.

YONGWOOD, Pa., Jan. 28.—One hundred and seven bodies were taken from the ill-fated mine of Erie & Co., at the Mammoth mine up to 1 o'clock this morning. Nobody slept at Mammoth last night, in any home in the little mining hamlet there was mourning. In little one-story houses scantily furnished, illuminated with tallow candles, mother, wife, sister or sweetheart sobbed in silence. After the explosion yesterday the awful fate of scores of miners at that time was kept at the front among the mines and miners' homes.

Within an incredible short time the entrance to the mine was swarmed with an eager, anxious crowd of men, women and children, some of whom could only see their way through the shafts of state distance. As the bodies of the victims, mangled by the terrible force of the explosion of burned almost out of human semblance, were brought up from the yawning depth, the crowd of watchers pushed forward to the pit's mouth for a glimpse of recognition. Hearts of wives and mothers stood still in fear that their loved ones were among the dead. Tears coursed down bronzed and bearded cheeks and were dashed away by brawny hands that had swung the pick for many years. The receiving party proceeded with its grim task, and the crowd of watchers silently looked on.

Fifty coffins arrived from Pittsburgh this morning and another half hundred will reach here tonight. An additional order for more was sent this morning. Never in the history of the American coal mines has there been such a complete annihilation within its reach.

H. C. Erick, the mine owner, says in all there were 160 men working in the mine at the time of the accident; that nine escaped with their lives, some of them badly injured. The rest, 151 men, were either killed outright or suffocated by the terrible after-damp.

IN DEATH VALLEY.

A Scientific Party Making an Exploration of This Region.

DAGGETT, Cal., Jan. 28.—One of the supply wagons has come in from the Death Valley expedition, for provisions and camp paraphernalia, that is required by the scientists. It left Professor Bailey's branch of the party at Bennett's wells, near the center of the valley. So far no accident has occurred. The heat has not been excessive, and the party has made quick work of the mire at the time of the accident; that nine escaped with their lives, some of them badly injured. The rest, 151 men, were either killed outright or suffocated by the terrible after-damp.

More Suits Against the S. P. SALEM, Jan. 28.—To-day papers in six more damage suits against the Southern Pacific company were filed with the clerk of the circuit court of Marion county, making the total number of cases already filed twelve. The aggregate amount of damages asked in the six suits last instituted is \$86,275, and of the twelve \$185,225. All these cases have grown out of the train wreck at Lake Labish last November.

GOULD'S COLD BLUFF

He Threatens to Withdraw all His Roads.

NEWS EAST OF THE ROCKIES.

The Wragging Montana Legislators Agree Upon a Conference - A Girl Betrays Her Father.

New York, Jan. 28.—The Times this morning says the New York Stock Exchange is in a dilemma over the threat of Jay Gould to withdraw from the board the stocks of roads he represents unless officials of the exchange recall the objections to the engraving of Missouri Pacific bonds, which were recently issued. Officials of the exchange will hold a session to-night and try to solve the difficulty.

BETRAYED HER FATHER.

A Sharp Detective and Verdant Girl.

New York, Jan. 28.—A special from Boston says: At 10 o'clock of the terrible accident on the Old Colony railroad at Quincy last summer several of the dead and wounded were robbed by some unscrupulous persons, including several diamonds of considerable value. Detectives have been at work on the case, and the thief has been discovered in an unexpected way. His name has been suppressed for a day or two, but it will soon be made public. The facts in the case are these: A young, good-looking detective was detailed to work up the case through the daughter of a suspected man. She is said to be an attractive young lady, and the detective made love to her, escorted her to parties and theaters. Not long ago he invited her to a big party, and intended to let her know it would be a fashionable affair, he would like to have her appear at her best. She appeared on the night of the party bedecked with the diamonds which had been taken from the victims of the disaster. The detective expressed much admiration for the jewels, and during the evening inquired the cost of the diamonds. The girl did not know, and said they were given her by her father. This and other information furnished by the unsuspecting girl led to the arrest of her father, and the whole affair will soon be made public. The suspected man is a well-known resident of Quincy.

THE DAY IN CONGRESS.

Senator Stanford's Position on the Closure Bill.

WASHINGTON, Jan. 28.—In the senate the house bill to cut off the appropriations for the disposal of the abandoned Fort Ellis, Mont., military reservation under the homestead law. Conference bill for a public building at Pueblo, Col., was agreed to. The appropriation was reduced from \$499,000 to \$259,000. The house appropriation bill was taken up, and Hale, who had reported it from the census committee, explained and advocated the amendment proposed by the minority of the committee.

IN THE HOUSE.

The journal of yesterday's proceedings was approved without question this morning. The house adopted the conference report for the disposal of the abandoned Fort Ellis, Mont., military reservation under the homestead law. The speaker laid before the house the resignation of McCarthy as representative from the Eighth district of New York; laid on the table.

The house then went into a committee of the whole on the military academy appropriation bill.

THE WRANGLE ENDED.

A Compromise Offered by the Wragging Montana Legislators.

HELENA, Mont., Jan. 28.—After 24 days of the double headed legislature, the democrats and republicans have agreed on a plan of compromise. The rival houses are to meet as one body, the democrats getting 28, and the republicans 27. The democrats are to have the speaker, subordinate officers, and control of committees. A compromise has been drawn up by the senators of both parties and will be signed to-morrow.

AN INSANE MAN'S DEED.

He Murders His Wife and Then Commits Suicide.

SAN FRANCISCO, Jan. 28.—Surgeon William D. Dietz, of the 5th artillery stationed at Alcatraz island, this morning shot and killed his wife and then committed suicide by shooting himself. A shotgun was the weapon used and both bodies were horribly mangled. Mrs. Dietz was found lying on the floor, shot through the heart and her husband lay close by. Dr.

FARMERS ALLIANCE.

The Meeting of the National Convention in Omaha, THEIR MODEST DEMANDS, They Cover Nearly All the Past Measures of the Cranks of the Country— Their Money Lending Scheme.

DOWNVILLE, Cal., Jan. 28.—

Four persons named Trebino, living near here, have been attacked with trichinosis. John Trebino is dead, one other is still dangerously sick and two are thought to be out of danger. They ate half a cooked pork in blood sausages. A post mortem revealed trichina in the muscles of John Trebino.

A BIG FIRE.

CHICAGO, Jan. 28.—An explosion of ammonia in the Western Refrigerator Company's warehouse to-night started a fire which did great damage. Robert Hawley, an employee, was badly injured and Edward Hendricks and Joseph Bone, engineer and fireman are missing and probably dead. Loss \$100,000.

Gigantic California Fruit Syndicate

SAN FRANCISCO, Jan. 28.—The Chronicle says that the various fruit canning establishments in this city have decided to form a syndicate with a capital of \$5,000,000. The new company will be called the California Fruit Canners (limited).

CRUSADE OF WOMEN

THEY CLOSE UP A COMIC OPERA AND THE SALOONS.

The Ladies Threaten to Hang a Brute of a Husband and Convert a Lawless Indiana Town.

MARTINSVILLE, Ind., Jan. 28.—The town of Mitchell, one of the most lawless places in the state, has been changed to a peaceful community by a crusade of women. The numerous saloons are doing no business and the comic opera company playing there was forced to disband. Fred Brown placed his stock of liquor in a shanty-boat and started down White river to Williams, a few miles below, where the boat was anchored. He did a thriving business for a few days. The ladies had Brown sent to jail. One woman's husband, who had been getting drunk on the boat, was hauled ashore with a rope and told to promise to care for his family or he would be hanged. The promisee, Judge Taylor, it is alleged, will instruct his jury that the evidence does not show murder in the first degree. If this is true, as has been previously surmised, Sandy Olds cannot hang. It is probably a weak point in the prosecution that affidavits to the effect that Olds could have a fair trial in this county were not submitted on the hearing. On the former application numerous affidavits were submitted, which justified Judge Stearns in refusing a change of venue. Had as much evidence been adduced this time, it is thought the change of venue might have been denied. It was generally supposed at the time the supreme court remanded the case back for a new trial, that the evidence would have to be construed as inadequate to support a verdict of murder in the first degree. This does not now appear to be the case; for many a dissenting opinion has sown a seed which ultimately blossomed out into the law of the land. And should Judge Taylor refrain from charging his jury not to bring in a verdict of murder in the first degree, the chances are good that the supreme court as at present constituted would affirm a decision that would send Sandy Olds to the gallows. The evidence of Bose can be read, as given on the first trial, and it seems much stronger than it was at the other trials.—Oregonian.

Coming Back Again.

The Astoria Columbian says that Captain Thomas Doig, the well known bar pilot, left last evening for Puget Sound to bring the steamer Olympian back to the Columbia river. Travel is said to be very light on the Sound and there are more boats than are needed. The Olympian will probably be brought back to go on the summer run between Portland and Seaside. Captain Doig has made several trips between the Sound and the Columbia and if the boat is ready when he reaches Seattle, he will probably have her there Saturday.

Alfred Holman Married.

SAN FRANCISCO, Jan. 28.—Alfred Holman, editor of the Seattle Post-Intelligencer, and Miss Caroline Dubrough, youngest daughter of the late Joseph Dubrough of this city, were married this evening at the residence of the bride's parents.

Northern Pacific Fast Mail.

DELTA, Jan. 28.—It is stated here to-night that the Northern Pacific has secured the contract for the fast mail service between Chicago and San Francisco, the service to begin March 12, 1891. It will be known as the "White mail."

Deserting Sailors Drowned.

SAN FRANCISCO, Jan. 28.—While nine sailors were attempting to escape in a small boat from the ship Rence to-night, the craft capsized and three of them were drowned.

A Heavy Snow Fall.

LINCOLN, Jan. 28.—The heaviest fall of snow of the season prevails in this section of the state to-night. New Mail Matters. The establishment of the new postoffice at Lyons, on the Oregon Pacific railroad is followed by the news that the mail is soon to be carried on the trains between Albany and Halstead, supplying the Shelburne, Lyons, Fox Valley, Mill City, Rock Creek, Niagara (Brown's Mill), and Green Basin (Halstead) postoffices.
