THE MINING INTERESTS.

The direct proximity of working mines to our city, makes the subject of mining one of paramount interest. There are few, perhaps, that appreciate the magnitude and importance of this branch of industry for the country. We glean from the Engineering and Mining Journal that the dividends during the last annual report amounted to a total of \$13,748,748 paid during the year by 65 companies, against \$10,537,522 paid by 61 companies in 1889. This great increase in amount was due to the appearance of many new companies in the list, and to the larger amounts paid by many companies, notably those of Lake Superior, Montana, and Utah. There were in 1890, 18 companies declaring their first dividends during the year, which paid \$1,227,750, and 7 companies paying \$380,500, which paid nothing in 1889. There were, on the other hand, 22 companies not in the list of 1890, which paid dividends in 1889, but the total of their amounts, \$817,700, was but little more than one-half that of the new companies in the list of last year. In the case of the Lake Superior copper mines our statistics are complete, and for that reason the most valuable. It appears that eight of these companies paid dividends to the amount of \$2,415,000, an increase of \$445,000 over the preceding year. The Calumet and Hecla paid \$2,000,000, the same amount as in 1889; the Tamarack, \$500,000, an increase of \$150,000; the Quincy, \$320,000, an increase of \$40,000; the Oacela, \$225,000, an increase of \$165,000; and the Franklin, \$100,000, and increase of \$20,000. The Atlantic paid the same amount as in the preceding year, but the Central paid only \$20,000, a decrease of \$20,000. The Kearsarge paid \$80,000, and declared its first dividend during the year. The market value of these eight Lake Superior companies, January 1st, was \$29,845,000, and their dividends of the year were 8.5 per cent. of this amount. Four of them paid over 10 per cent., and three more than 13 per cent. The Atlantic paid the largest percentage, viz., 16.5 per cent. The total dividends paid by this group of mines amount to the immense sum of \$47,187,500, of which \$4,850,000 has been from the Calumet and Hecla. The Montana and Arizona copper companies also paid largely increased dividends. The Copper Queen Company, of Arizona, paid \$210,000, against \$70,000 the previous year; and the Boston and Montana \$625,000, against \$500,000 the former amount being a trifle more than 15.3 per cent. on the present value of its shares. Among the silver mines the list is headed by the famous Granite Mountain, which paid \$2,400,000, the same amount as in 1889, swelling its total to an even \$10,000,000. The percentage paid on the market price of its shares, however, was a trifle less than in 1889, being 13.9 per cent., against 14.3 per cent. The Binmetallic adjoining the Granite Mountain commenced dividends during the year and paid \$270,000. In Utah, several of the important mines made notably increased payments. The Ontario declared dividends to the amount of \$1,650,000, against \$930,000 in 1889; the Mammoth, which commenced dividends in 1887 and paid \$130,000 in 1889, jumped to \$20,000 in 1890, making its total to date \$720,000; the Horn Silver assumed its old position of importance and paid \$200,000, four times the amount of the preceding year; and the Centennial Eureka paid \$150,000. The Daily made no increase, paying \$450,000. On the Comstock Lode the year was not a prosperous one, and of the long list of famous old bonanza mines, the Consolidated California and

Virginia alone appears in our table. Its dividends were \$162,000, a decided decrease from \$756,000, the amount paid in 1889. The Leadville mines appeared to but little more advantage than the Comstock, as the Little Chief and Small Hopes are the only ones in our last list of dividend payers. At the Carbonate camp, however, it must be remembered that the most important producing mines at the present time are unincorporated or owned by close corporations which make no public statements. The same is the case at Aspen, of which mines we give only the Aspen Mining and Smelting Company, paying \$200,000, and the Little Rule, \$100,000.

The cure for consumption, that has been brought into notoriety by the German professor, is still an absorbing question before the people for all are either directly or indirectly interested. As has been said Dr. Koch's lymph ought not to be judged by the first case or the first half-dozen cases treated with it. The cure of consumption is necessarily slow, and one of the most humorous features of the American use of it is the assumption that changes in the condition of a patient recorded day by day have any value. It is unfair, also, to take well nigh hopeless cases of consumption and hope to make any radical cure. Koch's remedy will be a godsend if it checks the progress of lung diseases which has not been fully developed or prevents the heavy coughs which are contracted so often in winter by people of low vitality from developing in chronic complaints of the lungs.

THE WORLD ENRICHED.

The facilities of the present day or the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time any the better it is known the more popular it becomes.

Notice for Publication.

United States Land Office, Oregon City, Oregon, Jan. 5, 1891. NOTICE is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada and Washington Territory," Hiram P. Preston, of Haywards, County of Alameda, State of California, has this day filed in this office his sworn statement No. 2219, for the purchase of the S. W. 1/4 of Sec. 20, in Township No. 12, South, Range No. 3, East, and will offer to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish his claim to said land before the Register and Receiver of this office at Oregon City, Oregon, on Tuesday, the 23rd day of May, 1891. He names as witnesses: J. Van Horn, C. Chatham, M. Duffard and J. E. Foy, all of San Francisco, California. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 23rd day of May, 1891. J. T. APPERSON, Register.
