ARMY EXPLORATIONS

DETAILS OF THE WORK TO BE DONE IN ALASKA.

Lieutenant Allen Will Probably Head the Party on Its Journey To Leave San Francisco in May.

SAN FRANCISCO, Feb. 12.--Congress has passed an appropriation bill that permits payment among other items of the sum of \$100,000 for the exploration of Alaska by the United States army officers.

The most efficient work every accomplished in the territory of Alaska was done by Lieutenant Allen under order from General Miles.

Enduring considerable hardships the lieutenant and his party explored the Copper river and made a fair reconnaissance of the Koyukuk, a tributary of the Yukon river. It is now proposed to fit out the present party under the command of Allen, and follow the details of the exploration have been made public.

A vessel will be chartered to convey the party to St. Michael's island, and from that place they will proceed on a steamer up the Yukon river to the mouth of the Tanana. At the junction of the two rivers is the village of Nuklukay, and there it is proposed to build headquarters for the party.

The work mapped out is said to comprise a survey of the country south of the annanah and west as far as the Cooper river, on the eastward to the banks of the Yukon river and south to the coast.

Details of possible routes across the ranges on the southeast will be ascertained, in order to find out the best means of transit for miners and supplies to enter the country. Topographical, geological and other scientific work will form subjects for the party to labor upon.

The work will occupy at least two years, and if additional appropriations are made the survey will be continued westward to the districts of the Kookhokum and Nushegak rivers in the western portion of the territory. There is also a large area of unexplored country between the north bank of the Yukon river and the Arctic ocean.

The long Colville river and several other streams have never been visited by white men. Natives report the existence of large lakes and mountains within this district and the gains to all branches of scientific research will doubtless be large by a thorough examination of the country.

It is probable that the party will leave San Francisco in May next for their destination, and be absent for at least two years.

WAS NOT A FORGERY.

Watterson Says He Wrote the Letter to Gov. Hill.

NO INTENT AT INJUSTICE.

General Sherman is Still in a Dying Condition--He Cannot Live But a Short Time.

LOUISVILLE, Feb. 12.--On returning to the city this afternoon, Mr. Henry Watterson, in response to a request of the Associated Press, and in answer to hundreds of telegrams which have come to Louisville, made a statement for publication regarding the letter written to Governor Hill and was impelled to do so by motives the sincerest and most disinterested. He says: "There appeared in many papers last Sunday a sensational account of how the cause of United States senators had resolved upon re-electing Governor Hill from the presidential arena. Of how Watterson had been selected as the instrument, and how he had dispatched a letter potent enough to alter Hill's plans. This was so absurd and did such injustice to both Hill and himself that he thought there could be no objection on the part of anybody to the publication of the truth, which, happily contradicted it. 'I confess I am surprised,' adds Mr. Watterson, 'that Governor Hill should make such haste to disavow and disown a course, which, however prompted, gratified every democrat in the United States outside of the state of New York and removing him from the field of a mere political self-seeker and placing him in the front rank of statesmen, having the good of their country and party at heart. I am equally distressed by the representation that Governor Hill should regard my plain, but friendly, words as impertinent and insulting. Neither in the writing or printing of my letter was there any purpose to take advantage of him, and least of all, to do him injustice. I am no man's man and exist in no man's interest. To use his own happy expression, 'I am a democrat.' I am only humiliated by the reflection that this service was not sufficient in the estimation of Governor Hill to protect me against his displeasure, and that in the harsh construction which he puts upon the genuine and not forged letter, he visits me with what I must regard as unmerited suspicion.'

GEN. SHERMAN'S CONDITION.

He is Slowly Sinking and Cannot Live But a Short Time.

NEW YORK, Feb. 12.--General Sherman is still alive, though there is no disguising the fact that he is gradually sinking and cannot live.

At 11:22 P. M. Thursday, General Sherman's son-in-law, left the house. He said the general was in a semi-conscious state.

New York, Feb. 13.--At 1 A. M. it is stated that General Sherman appeared to be asleep. His breathing indicated that his lungs were filled with mucus. Dr. Alexander thought erysipelas was leaving the patient, but the general has not improved.
