WILL CANADA ANNEX.

The drift of the sentiment among the Canadian people, when that gains sufficient expression to give publicity to that drift, is evidently towards annexation to this government.

Prof. Goldwin Smith has hit upon the fundamental idea of the political situation in Canada. He says that while the immediate issue is trade with the United States, beneath this lies the broader issue between the continental and anti-continental policy.

The Chronicle thinks that there is not only a great deal of force in these suggestions of Goldwin Smith, but there is a great deal of virility and potential energy in the continental idea.

However much of the truth there may be in those ideas, and undoubtedly there is a divinity that shapes our ends rough hew them as we may, the trade question will be the paramount one to force an immediate solution of the question in favor of annexation.

The hosts of the money autocrats are hurrying to consolidate their mightiest efforts to defeat the free coinage of silver. The prospects that a law of that kind may be passed has aroused them, and the dogs of subterfuge, virulent personal abuse, and all the powers of persuasive sophistry are brought and applied.

have demonstrated the usefulness of such an increase, these conditions fall far short of insuring us against disaster if in the present situation we enter upon the dangerous and reckless experiment of free unlimited and an independent silver coinage.

OREGON'S health resorts should form one of the state's attractions abroad. There is no just reason for opposing the very moderate appropriation of \$3000 asked for the improvement of the Soda Springs at Sodalville, which have been dedicated to the public, and the water of which is used free every summer by people from all over the state, and by health-seekers from abroad.

The Oregon legislature has just another week in which to conclude its allotted forty days session. A good many meritorious laws have passed, and an enormously large amount of business has been done.

The great decadence in the New England states that has been talked of so much does not appear to be as bad as has been reported. Indeed the census says that Massachusetts increased her population 25.57 per cent during the last decade.

MOORE'S REVEALED REMEDY. Astounding in its effects in the cure of Rheumatism, Asthma, Malaria, Biliousness or any other disease arising from deranged Liver, Stomach or Kidneys-it drives all impurities from the blood.

Mrs. Chas. A. Russell, who is favorably known throughout the Northwest, writes: "For fifteen years I was a constant sufferer from Asthma with- out any relief, except that obtained by constant change of locality. Two years ago I tried Moore's Revealed Remedy and the benefits received from it were most gratifying. It gave me relief from the first, and prevented the terrible distress peculiar to the disease that made life almost unbearable. Any one who has ever had Asthma can understand the gratitude I feel toward this remedy. Believing it has added pleasant years to my life I have not hesitated to recommend it to all like sufferers, and always with the same happy results."
